Translating the Queer Héctor Domínguez Ruvalcaba, 2016-11-15 What does it mean to queer a concept If queerness is a notion that implies a destabilization of the normativity of the body then all cultural systems contain zones of discomfort relevant to queer studies What then might we make of such zones when the use of the term queer itself has transcended the fields of sex and gender becoming a metaphor for addressing such cultural phenomena as hybridization resignification and subversion Further still what should we make of it when so many people are reluctant to use the term queer because they view it as theoretical colonialism or a concept that loses its specificity when applied to a culture that signifies and uses the body differently *Translating the Queer* focuses on the dissemination of queer knowledge concepts and representations throughout Latin America a migration that has been accompanied by concomitant processes of translation adaptation and epistemological resistance

Queering the Chilean Way Carl Fischer, 2016-11-11 This book examines and critiques the fact that Chile's claims to economic exceptionalism have been embodied often quite aggressively in a heterosexual and primarily male ideal Despite the many shifts Chilean economics and politics have undergone over the past fifty years the country's view of itself as a model in contrast to other Latin American countries has remained constant By deploying an artistic literary and cinematic archive of queer figures from this period this book draws parallels among the exceptionalisms of Chile's economic discourse the subjects deemed most and least apt to embody it and the maneuvers of its cultural production between local and global ideas of gender and politics to delineate its place in the world *Queering the Chilean Way* thus sheds light on the sexual economic and aesthetic dimensions of exceptionalism at its heart a discourse of exclusion that often comprises a major element of nationalism in Chile and

unprecedented way. Importantly, it makes accessible a new space of missing theorization for further developments and inquiries in the field.
