Religion And Scientific Naturalism Overcoming The Conflicts:

Religion and Scientific Naturalism David Ray Griffin, 2000-05-11 Winner of the 2000 Scientific and Medical Network Book Prize In this book David Ray Griffin argues that the perceived conflict between science and religion is based upon a double mistake the assumption that religion requires supernaturalism and that scientific naturalism requires atheism and materialism *Beyond Conflict and Reduction* William Desmond, John Steffen, Koen Decoster, 2001 While much attention has been devoted to the conflicts between religion and science in the modern age less rarely has sufficient attention been devoted to the complex interplay between religion science and philosophy This book offers a set of wide ranging essays in which the interplay between all these three is the explicit focus of attention The essays reflect a desire to think of this interplay in terms other than conflict and reduction The book also represents a pluralism of approaches to reflection on this interplay Part I represents a more idealistic orientation in which religion philosophy and science are seen to enjoy a complementarity Part II formulates the interplay more from the standpoint of process philosophy Part III explores the issue with primary emphasis on the contributions of science In Part IV the essays reflect a desire to take the religious on its own terms and explore the interplay with philosophy and science with the proper seriousness solicited by these terms

three topics broadly covered herein can heighten the understanding of the Sacred by those who study them As to a few preliminaries what is faith Further what is belief Which one comes first in a person s journey toward the Sacred Moreover does religion factor into these two terms and if so where and how Does Augustine s well worn line faith seeking understanding mean anything today If it does would it mean belief comes prior to faith and or religion One can argue both sides of this debate and still be considered orthodox seemingly Perhaps it is the case that belief precedes faith most of the time but not all of the time Perhaps it is the other way around What exactly is the demarcation between belief and faith Many a person believes a thing to be true in their very bones such a stance borders on what is commonly referred to as faith Is religion the combination of belief and faith together into a coherent system of thought or is it emergent from the two existing as a separate mental or spiritual entity Explore these questions and more

David Ray Griffin, 2018-08-06 The process philosophy of Alfred North Whitehead and Charles Hartshorne has made many distinctive contributions to the philosophy of religion David Ray Griffin now offers the first full scale philosophy of religion written from this perspective discussing such topics as the relationship between science and religion the validity of religious experience the nature and existence of God religious pluralism creation and evolution and the problem of evil Griffin s clear and comprehensive book also serves as a valuable introduction to process philosophy itself In his vigorous defense of a worldview that is fully naturalistic and fully religious Griffin shows not only how this position reconciles naturalism with freedom genuine religious experience and even life after death but also how its naturalistic theism reenchants the world in the sense of providing cosmic support for moral values Highly original and sometimes controversial Griffin s book develops its stance in conversation with influential proponents of other philosophical positions including William P Alston Jürgen Habermas John Hick Colin McGinn Alvin Plantinga Hilary Putnam Willard Quine Ninian Smart Jeffrey Stout and Bernard Williams

9/11 Ten Years Later David Ray Griffin, 2012-04-10 On the tenth anniversary of the September 11 2001 terrorist attacks David Ray Griffin reviews the troubling questions that remain unanswered *9 11 Ten Years Later* is David Ray Griffin s tenth book about the tragic events of September 11 2001 Asking in the first chapter whether 9 11 justified the war in Afghanistan he explains why it did not In the following three chapters devoted to the destruction of the World Trade Center Griffin asks why otherwise rational journalists have endorsed miracles understood as events that contradict laws of science Also introducing the book s theme Griffin points out that 9 11 has been categorized by some social scientists as a state crime against democracy Turning next to debates within the 9 11 Truth Movement Griffin reinforces his claim that the reported phone calls from the airliners were faked and argues that the intensely debated issue about the Pentagon whether it was struck by a Boeing 757 is quite unimportant Finally Griffin suggests that the basic faith of Americans is not Christianity but nationalist faith which most fundamentally prevents Americans from examining evidence that 9 11 was orchestrated by U S leaders and argues that the success thus far of the 9 11 state crime against democracy need not be permanent The
