Religion As Revealed By The Material:

Materiality in Religion and Culture Saburo Shawn Morishita, 2017 This book examines the significance of the material dimensions of religion and culture By looking at how scholars have researched religious materiality in the past and focusing especially upon the variety of ways objects are handled in contemporary religious life the reader will discover some insight into the interplay between the material and the immaterial Case studies analyze the use of things in rituals and sacred places as well as ways in which they are appropriated for religious and academic instruction The book attempts to reinterpret what the materiality in religion and culture might signify in light of multidisciplinary methodological approaches and helps to gain some ground on the abstract perspective of religions Series Marburg Religious Science in Discourse Marburger Religionswissenschaft im Diskurs Vol 2 Subject Religious Studies Sociology **A Synopsis of the Moral Theology of**

Peter Dens Pierre Dens, 1856 *Kant's Critical Religion* Stephen R. Palmquist, 2019-06-11 This title was first published in 2000 Applying the new perspectival method of interpreting Kant he expounded in earlier works Palmquist examines a broad range of Kant's philosophical writings to present a fresh view of his thought on theology religion and religious experience

A Unique God, A Universal Religion, Routledge Library Editions: 19th Century Religion Various Authors, 2021-07-09 Reissuing works originally published between 1973 and 1997 Routledge Library Editions 19th Century Religion 18 volumes offers a selection of scholarship covering historical developments in religious thinking Topics include the origin of Catholicism in America sexual liberation and religion in Europe and the emergence of Atheism in Victorian England This set also includes collections of sermons and essays from some of the most influential preachers of the nineteenth century John Henry Newman John R. Connolly, 2005 As one of the most outstanding Christian thinkers in history John Henry Newman continues to influence theology especially Catholic theology long after his death in 1890 Yet his writings on faith particularly *The Grammar of Assent* are difficult to read without guidance and direction John Henry Newman *A View of Catholic Faith for the New Millennium* provides both a comprehensive introduction to Newman's theology and a thorough analysis of its relevance for the Church today The first systematic analysis of Newman's thought this book skillfully weaves together the Cardinal's diverse writings on faith with seminal secondary sources and presents an integrated view of his mature notion of Catholic faith Enhanced by a detailed introduction biographical sketch and bibliography this book explores John Henry Newman's teaching on the relationship between faith and doubt the role of the will in certitude the relationship between faith and reason the personal nature of faith the function of the magisterium the importance of dialogue and the role of the conscience in decision making The concluding chapter examines the significance of Newman's thought for Catholic theology today **John Henry Newman on Truth and its Counterfeits** Reinhard Hutter, 2020-02-21 Reinhard Hutter's main thesis in this third volume of the *Sacra Doctrina* series is that John Henry Newman in his own context of the nineteenth century a century far from being a foreign one to our own faced the same challenges as we do today the problems then and

now differ in degree not in kind Hence Newman s engagement with these problems offers us a prescient and indeed prophetic diagnosis of what these problems or errors if not corrected will lead to consequences which have more or less come to pass and furthermore an alternative way which is at once thoroughly Catholic and holds contemporary relevance The introduction offers a survey of Newman s life and works and each of the subsequent four chapters addresses one significant aspect of Christianity that is not only contested or rejected by secular unbelief but also has a counterfeit for which not only Christians but even Catholics have fallen The counterfeit of conscience is the conscience of the sovereign subject Ch 1 the counterfeit of faith is the faith of one who does not submit to the living authority through which God communicates but rather adheres to the principle of private judgment in matters of revealed religion Ch 2 the counterfeit of doctrinal development is twofold i paying lip service to development while only selectively accepting its consequences on the grounds of a specious antiquarianism and ii invoking development theory to justify all sorts of contemporary changes according to the present Zeitgeist Ch 3 Finally the counterfeit of the university are all those universities whose end is not to educate and thereby to perfect the intellect but rather to feed more efficiently the empire of desire that is informed by the techno consumerism of today Ch 4 The book concludes with an epilogue on H tter s journey to Catholicism
