The Hidden Form of Capital Peter L. Berger, Gordon Redding, 2011-10-01 The Hidden Form of Capital presents evidence from

several parts of the changing world about how the realm of the spirit affects the economy Instead of adding to the theoretical speculation on the role of culture in economic progress this book provides evidence from recent analytical studies in Europe Asai Africa Russia and the United States Society Shaped by Theology Robin Gill,2013 Society Shaped by Theology explores the possibility that theological concepts may sometimes still be influential in the modern world It follows in the tradition of Max Weber arguing that theological virtues and debates can at times be transposed wittingly or unwittingly into society at large Gill examines the unusual instance of the public debate about Honest to God in the 1960s but then turns to the current debate about faith and social capital adding fresh and unexpected evidence Society Shaped by Theology Professor Robin Gill,2013-05-28 Over the last thirty years a number of theologians have been using aspects of sociology alongside the more traditional resources of philosophy In turn sociologists with an interest in theology have also contributed to an interaction between theology and sociology The time is right to revisit the dialogue between theologians and sociologists In his new trilogy on Sociological Theology Robin Gill makes a renewed contribution to the mapping of three abiding ways of relating theology and sociology with the three volumes covering Theology in a Social Context Theology Shaped by Society Society Shaped by Theology Society Shaped by Theology explores the possibility that theological concepts may sometimes still be influential in the modern world It follows in the tradition of Max Weber arguing that theological virtues and debates can at times be transposed wittingly or unwittingly into society at large Robin Gill examines the unusual instance of the public debate about Honest to God in the 1960s but then turns to the current debate about faith and social capital adding fresh and unexpected evidence Finally Gill argues that bioethics in the public domain especially on global issues such as AIDS can be enriched and deepened by a judicious use of theological virtues Persecution, Persuasion and Power James A. Kelhoffer,2010 James A Kelhoffer examines an often overlooked aspect of New Testament constructions of legitimacy namely the value of Christians withstanding persecution as a means of corroborating their religious identity as Christ s followers The introductory chapter defines the problem in interaction with sociologist Pierre Bourdieu s concept of cultural capital Chapters 2 10 examine the depictions of persecuted Christians in the Pauline letters First Peter Hebrews Revelation the NT Gospels and Acts These exegetical analyses support the conclusion that assertions of standing authority and power claimed on the basis of persecution play a significant and heretofore under appreciated role in much of the NT It is also argued that depictions of persecution can have both positive implications for the persecuted and negative implications for the depicted persecutors in constructions of legitimation An epilogue considers later examples of early Christian martyrs and confessors as well as John Foxe s Book of Martyrs The epilogue also addresses the ethical and hermeneutical problem of asserting the withstanding of persecution as a basis of legitimacy in ancient and modern contexts This problem stems from the observation that although the NT authors present their construals of withstanding persecution as a basis of legitimation as if they were self evident such assertions are actually the culmination of numerous presuppositions and are therefore open

to dissenting viewpoints Yet the NT authors do not acknowledge the possibility of competing interpretations or that oppressed Christians could someday become oppressors Accordingly this exegetical study calls attention to an ethical and hermeneutical problem that the NT bequeaths to the modern interpreter a problem inviting input from ethicists and other theologians

Values and Violence Ibrahim A. Karawan, Wayne McCormack, Stephen E. Reynolds, 2008-10-11 Most books on terrorism deal with descriptions of terrorist organizations and activities some examine privacy and civil liberties issues and others treat terrorism as a series of policy choices Hardly any books deal with the foundational questions of values and violence as they relate to terrorism The two unique features of this book are that it deals with violence at the normative foundations of values and human dignity and that it includes many of the best known authors in the world from a variety of disciplines making it a paradigmatic example of cutting edge study in interdisciplinary scholarship with a focus on bringing theories and policy issues closer together Values and Violence includes chapters by a dozen of the leading scholars in the world on patterns of political violence responses to terrorism and the basic value choices inherent in them

Ecosystems, Society, and Health Lars K. Hallström, Nicholas P. Guehlstorf, Margot W. Parkes, 2015-06-01 International perspectives on the interdependence of ecological health and societal problems

Religion and the Health of the Public G. Gunderson, J. Cochrane, 2012-02-14 The book proposes a critical theory of the role and place of religion in public health and argues for a programmatic reorientation of these two fields of practice and inquiry to more effectively align religious health assets widely present in many contexts and public health services and facilities
