Religion Cultural Memory In The Present:

Religion and Cultural Memory Jan Assmann, Rodney Livingstone, 2006 In ten brilliant essays Jan Assmann explores the connections between religion culture and memory Building on Maurice Halbwachs's idea that memory like language is a social phenomenon as well as an individual one he argues that memory has a cultural dimension too He develops a persuasive view of the life of the past in such surface phenomena as codes religious rites and festivals and canonical texts on the one hand and in the Freudian psychodrama of repressing and resurrecting the past on the other Whereas the current fad for oral history inevitably focuses on the actual memories of the last century or so Assmann presents a commanding view of culture extending over five thousand years He focuses on cultural memory from the Egyptians Babylonians and the Osage Indians down to recent controversies about memorializing the Holocaust in Germany and the role of memory in the current disputes between Israelis and Palestinians in the Middle East and between Protestants and Catholics in Northern Ireland

Religion and Memory in Tacitus' Annals Kelly E. Shannon-Henderson, 2018-11-29 Throughout his narrative of Julio Claudian Rome in the Annals Tacitus includes numerous references to the gods fate fortune astrology omens temples priests the emperor cult and other religious material Though scholars have long considered Tacitus' discussion of religion of minor importance this volume demonstrates the significance of such references to an understanding of the work as a whole by analyzing them using cultural memory theory which views religious ritual as a key component in any society's efforts to create a lived version of the past that helps define cultural identity in the present Tacitus who was not only an historian but also a member of Rome's quindecimviral priesthood shows a marked interest in even the most detailed rituals of Roman religious life yet his portrayal of religious material also suggests that the system is under threat with the advent of the principate Some traditional rituals are forgotten as the shape of the Roman state changes while simultaneously a new form of cultic commemoration develops as deceased emperors are deified and the living emperor and his family members are treated in increasingly worshipful ways by his subjects This study traces the deployment of religious material throughout Tacitus' narrative in order to show how he views the development of this cultic amnesia over time from the reign of the cryptic autocratic and oddly mystical Tiberius through Claudius' failed attempts at reviving tradition to the final sacrilegious disasters of the impious Nero As the first book length treatment of religion in the Annals it reveals how these references are a key vehicle for his assessment of the principate as a system of government the activities of individual emperors and their impact on Roman society and cultural identity

Religion and Media Hent de Vries, Samuel Weber, 2001 Counter The twenty five contributors to this volume who include such influential thinkers as Jacques Derrida Jean Luc Nancy Talal Asad and James Siegel confront the conceptual analytical and empirical difficulties involved in addressing the complex relationship between religion and media The book's introductory section offers a prolegomenon to the multiple problems raised by an interdisciplinary approach to these multifaceted phenomena The essays in the following part provide exemplary approaches

to the historical and systematic background to the study of religion and media The third part presents case studies by anthropologists and scholars of comparative religion The book concludes with two remarkable documents a chapter from Theodor W Adorno s study of the relationship between religion and media in the context of political agitation The Psychological Technique of Martin Luther Thomas s Radio Addresses and a section from Niklas Luhmann s monumental *Die Gesellschaft der Gesellschaft* Society as a Social System

The Future of Religion Richard Rorty, Gianni Vattimo, 2005-02-02 Though coming from different and distinct intellectual traditions Richard Rorty and Gianni Vattimo are united in their criticism of the metaphysical tradition The challenges they put forward extend beyond philosophy and entail a reconsideration of the foundations of belief in God and the religious life They urge that the rejection of metaphysical truth does not necessitate the death of religion instead it opens new ways of imagining what it is to be religious ways that emphasize charity solidarity and irony This unique collaboration which includes a dialogue between the two philosophers is notable not only for its fusion of pragmatism Rorty and hermeneutics Vattimo but also for its recognition of the limits of both traditional religious belief and modern secularism In *Anticlericalism and Atheism* Rorty discusses Vattimo s work *Belief* and argues that the end of metaphysics paves the way for an anti essentialist religion Rorty s conception of religion determined by private motives is designed to produce the gospel s promise that henceforth God will not consider humanity as a servant but as a friend In *The Age of Interpretation* Vattimo who is both a devout Catholic and a frequent critic of the church explores the surprising congruence between Christianity and hermeneutics in light of the dissolution of metaphysical truth As in hermeneutics interpretation is central to Christianity which introduced the world to the principle of interiority dissolving the experience of objective reality into listening to and interpreting messages The lively dialogue that concludes this volume moderated and edited by Santiago Zabala analyzes the future of religion together with the political social and historical aspects that characterize our contemporary postmodern postmetaphysical and post Christian world

The Routledge Handbook of Religion and Journalism Kerstin Radde-Antweiler, Xenia Zeiler, 2020-10-29 The Routledge Handbook of Religion and Journalism is an outstanding reference source to the key topics challenges past and present global issues and debates in this exciting subject The first collection of its kind this volume comprises over 25 chapters by a team of international contributors This Handbook is divided into five parts each taking global developments in the field into account Theoretical Reflections Power and Authority Conflict Radicalization and Populism Dialogue and Peacebuilding Trends Within these sections central issues debates and developments are examined including religious and secular press ethics globalization gender datafication differentiation journalistic religious literacy race and religious extremism This volume is essential reading for students and researchers in journalism and religious studies This Handbook will also be very useful for those in related fields such as sociology communication studies media studies and area studies

Memory and Religion from a Postsecular Perspective Zuzanna Bogumił, Yuliya Yurchuk, 2022-02-27 The book argues that religion is a system of significant

meanings that have an impact on other systems and spheres of social life including cultural memory The editors call for a postsecular turn in memory studies which would provide a more reflective and meaningful approach to the constant interplay between the religious and the secular This opens up new perspectives on the intersection of memory and religion and helps memory scholars become more aware of the religious roots of the language they are using in their studies of memory By drawing on examples from different parts of the world the contributors to this volume explain how the interactions between the religious and the secular produce new memory forms and content in the heterogenous societies of the present day world These analyzed cases demonstrate that religion has a significant impact on cultural memory family memory and the contemporary politics of history in secularized societies At the same time politics grassroots movements and different secular agents and processes have so much influence on the formation of memory by religious actors that even religious ecclesiastic and confessional memories are affected by the secular This volume is ideal for students and scholars of memory studies religious studies and history

Religion without Belief Jean Ellen Petrolle, 2008-06-05 Shows there is a strong religious impulse in postmodern literature and film

Religion in Environmental and Climate Change Dieter Gerten, Sigurd Bergmann, 2011-11-17 Climate change and other global environmental changes deserve attention by the the humanities they are caused mainly by human attitudes and activities and feed back to human societies Focussing on religion allows for analysis of various human modes of perception action and thought in relation to global environmental change On the one hand religious organizations are aiming to become greener on the other hand some religious ideas and practices display fatalism towards impacts of climate change What might be the fate of different religions in an ever warming world This book gathers recent research on functions of religion in climate change from theological ethical philosophical anthropological historical and earth system analytical perspectives Charting the spread from regional case studies to global scale syntheses the authors demonstrate that world religions and indigenous belief systems are already responding in highly dynamic ways to ongoing and projected climate changes in theory and practice for better or for worse The book establishes the research field religion in climate change and identifies avenues for future research across disciplines

Cultural Memory and Early Civilization Jan Assmann, 2011-12-05 Pt 1 The theoretical basis Memory culture Written culture Cultural identity and political imagination pt 2 Case studies Egypt Israel and the invention of religion The birth of history from the spirit of the law Greece and disciplined thinking Cultural memory a summary
