Religion In A Changing Society:

Religion and Family in a Changing Society Penny Edgell, 2013-12-03 The 1950s religious boom was organized around the male breadwinner lifestyle in the burgeoning postwar suburbs But since the 1950s family life has been fundamentally reconfigured in the United States How do religion and family fit together today This book examines how religious congregations in America have responded to changes in family structure and how families participate in local religious life Based on a study of congregations and community residents in upstate New York sociologist Penny Edgell argues that while some religious groups may be nostalgic for the Ozzie and Harriet days others are changing knowing that fewer and fewer families fit this traditional pattern In order to keep members with nontraditional family arrangements within the congregation these innovators have sought to emphasize individual freedom and personal spirituality and actively to welcome single adults and those from nontraditional families Edgell shows that mothers and fathers seek involvement in congregations for different reasons Men tend to think of congregations as social support structures and to get involved as a means of participating in the lives of their children Women by contrast are more often motivated by the quest for religious experience and can adapt more readily to pluralist ideas about family structure This Edgell concludes may explain the attraction of men to more conservative congregations and women to nontraditional religious groups Beyond Tradition and Modernity R. J. Zwi Werblowsky, 1976 *Religion in a Changing Workplace* Elaine Howard Ecklund, Denise Daniels, Christopher P. Scheitle, 2024-09-27 Drawing on more than 15 000 surveys and 300 in depth interviews on the subject of faith at work in the US this book shows how a wide range of workers understand their work vis a vis their faith and makes the case that employers should accommodate religious self expression at work **Values, Religions and Education in Changing Societies** Karin Sporre, Jan Mannberg, 2010-09-24 Education is a societal matter and takes place in relation to societal changes Today in many countries it has to grapple with diversity and differences brought about by migration and changes in gender relations Questions of values human rights and the role of religions are raised In this book scholars from Sweden Norway Germany Great Britain Canada Namibia and South Africa discuss the issues above Similarities as well as differences are highlighted The varied contributors engage in a North South dialogue Among the questions addressed are Can the Scandinavian countries be understood as more religious than their up to date seemingly secularist reputation has led us to believe How do some European Muslim Christian and secular pupils understand the religious education they receive Could a global citizenship education with a gendered understanding as an integral part be accomplished Diversity and social justice what does it take to theoretically integrate these two crucial parameters in education in South Africa and in Sweden The role of religious and values education under changing circumstances is explored through the diverse contributions that also challenge the hegemony of a Western understanding of democracy among other values The purpose of this is to assess what could now constitute global educational common ground Religion, Media, and Social Change Kennet

Granhölm, Marcus Moberg, Sofia Sjö, 2014-09-19 In an era of heightened globalization macro level transformations in the general socioeconomic and cultural makeup of modern societies have been studied in great depth Yet little attention has been paid to the growing influence of media and mass mediated popular culture on contemporary religious sensibilities life and practice Religion Media and Social Change explores the correlation between the study of religion media and popular culture and broader sociological theorizing on religious change Contributions devote serious attention to broadly defined media including technologies institutions and social and cultural environments as well as mass mediated popular culture such as film music television and computer games This interdisciplinary collection addresses important theoretical and methodological questions by connecting the study of media and popular culture to current perspectives approaches and discussions in the broader sociological study of religion **Religion and the Transformation of Society** Monica Wilson, 1971-07-02 Professor Wilson examines the changes isolated communities undergo when they come into contact with the outside world Religion, Social Change, and Fertility Behaviour R. Jayasree, 1989 This Book Based On A Study Carried Out In The Travancore Region Of Kerala Attempts To Explain The Differential Influences Of Many Demographic Developmental And Cultural Variables That Influence Social Change Among Different Religious Groups And Also Ultimately The Fertility Behaviour **The Pastor in a Changing Society** Zawadi Job Kinyamagoha, 2014-10-07 This book examines how social change affects the role of the pastor in an African context Through field study in African churches author Zawadi Job Kinyamagoha explores how pastors work amid the tensions of rapid social change and suggests how pastors can constructively respond to social change by using it as an opportunity in their pastoral ministry Contemporary society is characterized by three cultural spheres the economic sphere the public sphere and the democratic or self governance rule the realities of which many pastors seem to overlook Church authorities seem to adhere rigidly to strict principles and rules without accommodating the realities of society Conversely a changing society demands that pastors work with the reality at hand leaving pastors caught between two conflicting tensions the pressure from church authorities and from a changing social reality The Pastor in a Changing Society seeks to help Tanzanian and African pastors rethink existing doctrines and practices in order to better respond to the reality of a changing society Religion and Social Change Gerhard Falk, 2018-12-01 Despite America's famous separation of Church and State religion obviously holds an enormous influence on nearly all aspects of society Prof Falk looks at major traditional religious groupings in the US and discusses how they influence the family education government the economy philanthropy violence music and the media Western society is becoming less religious more secular every day as science answers some of the profound questions that inspired a belief in the supernatural But society requires more than the laws of physics to hold it together of course and so far religion is the institution that has provided the most clear cut moral guidelines even for non believers Religion has also inspired many of our greatest artistic endeavors But religion can also be used for crass commercial interests or worse to divide people and fuel

violence Drawing parallels and contrasts between Catholicism mainline Protestantism and Judaism Dr Falk talks about history and philosophy political campaigns social movements popular music literature and life He shows how religious traditions influence us and how they impact politics social stratification and even the military

Studying Religion and Society Titus Hjelm, Phil Zuckerman, 2013 How do you study religion and society In this fascinating book some of the most famous names in the field explain how they go about their everyday work of studying religions in the field They explain how the ideas for their projects and books have come together how their understanding of religion has changed over the years and how their own beliefs have affected their work They also comment on the changing nature of the field the ideas which they regard as most important and those which have not stood the test of time Lastly they offer advice to young scholars and suggest what needs to be done to enable the field to grow and develop further

Critical Essays on Edward Schillebeeckx's Theology Cornelius C. Simut, 2010-02-18 This book presents the main teachings of Edward Schillebeeckx widely considered one of the most important Catholic thinkers of the twentieth century Schillebeeckx is known for his radical departure from traditional theology which he saw as no longer relevant to the modern world Because today's world has been shaped by a process of secularization heavily based on reason and progress in science technology economics urbanism etc modern people seek relevant answers to their deep existential questions that can be explained rationally In his quest to foster relevant and meaningful answers for today's world Schillebeeckx changed the traditional metaphysical content of Christian theology into explanations that radically reinterpret traditional Christian doctrines Primarily the supernatural essence of Christianity is given up as irrelevant and is replaced by a natural perspective on the world In Schillebeeckx's thoroughly historical and truly immanent theology God is man's terrestrial future Christ the symbol of universal human values and the Church is identified with the world as those communities which share these universal human values Schillebeeckx is convinced that these explanations emptied of metaphysical content can help today's people understand their existence in a new relevant and meaningful way

THE EVOLUTION OF RELIGION Sulabh Jain, 15-06-09 History has an unsettling effect on religion Like science history is fundamentally nothing more than a range of theories based on objective evidence Mythology becomes a byword for a tradition's history and history in the objective sense that we understand it today becomes distorted Thus through time both myth and history blend into an entertaining story of

the world around them and their role in that world

Confucianism as a World Religion Anna Sun, 2013-04-21 Is Confucianism a religion If so why do most Chinese think it isn't From ancient Confucian temples to nineteenth century archives to the testimony of people interviewed by the author throughout China over a period of more than a decade this book traces the birth and growth of the idea of Confucianism as a world religion The book begins at Oxford in the late nineteenth century when Friedrich Max Müller and James Legge classified Confucianism as a world religion in the new discourse of world religions and the emerging discipline of comparative religion Anna Sun shows how that decisive moment continues to influence the understanding of Confucianism in the contemporary world not only in the West but also in China where the politics of Confucianism has become important to the present regime in a time of transition Contested histories of Confucianism are vital signs of social and political change Sun also examines the revival of Confucianism in contemporary China and the social significance of the ritual practice of Confucian temples While the Chinese government turns to Confucianism to justify its political agenda Confucian activists have started a movement to turn Confucianism into a religion Confucianism as a world religion might have begun as a scholarly construction but are we witnessing its transformation into a social and political reality With historical analysis extensive research and thoughtful reflection Confucianism as a World Religion will engage all those interested in religion and global politics at the beginning of the Chinese century

Religion and Politics in the United States Kenneth D. Wald, Allison Calhoun-Brown, 2018-01-23 Using an evidenced based social scientific approach to religion Kenneth D Wald and Allison Calhoun Brown challenge the perception that religious influence in American politics is a problem to be solved Instead they contend that religion is a form of social identification that not only shapes our ideas about politics but it also shapes the behavior of political elites and ordinary citizens the interpretation of public laws and the development of government programs Ultimately the authors show how religion plays a fascinating and crucial role in our nation's political process and in our culture at large The eighth edition of Religion and Politics in the United States has been fully updated to include the latest scholarship and coverage of the 2016 presidential election It also features a new discussion of the religious right center and left as well as the impact of religion on the fight for equality based on gender and sexual orientation Additional student resources include all new discussion questions and further readings at the end of each chapter as well as a companion website featuring self quizzes

Religious Freedom, Multiculturalism, Islam Tuula Sakaranaho, 2006-11-01 This is a comparative study of Muslims in Finland and the Republic of Ireland from the perspective of religious freedom and multiculturalism The book consists of three parts the first part discusses religious freedom and multiculturalism from a conceptual point of view and mainly within the context of Western Europe culminating in the cases of Finland and Ireland the second part deals with the establishment of Muslim communities in Europe in general and in Finland and Ireland in particular and the third part concerns Islam and education in these respective countries

Religion And Modernization In The Soviet Union Dennis J. Dunn, 2019-06-18 To the surprise of many students of the

Soviet Union religion has shown itself to be a force still powerful in Soviet society In contrast the impact of religion in developed Western societies has declined Dr Dunn points out that the study of this antinomy can shed light on the entire concept of modernization in the U S S R The study of the *Gender, Religion and Education in a Chaotic Postmodern World* Zehavit Gross,Lynn Davies,Al-Khansaa Diab,2012-12-04 The immense changes that the world is undergoing in terms of globalization and migration of peoples have had a profound effect on cultures and identities The question is whether this means shifts in religious identities for women and men in different contexts whether such shifts are seen as beneficial negative or insufficient or whether social change actually means new conservatism or even fundamentalisms Surrounding these questions is the role of education is in any change or new contradiction This unique book enhances an interdisciplinary discourse about the complex intersections between gender religion and education in the contemporary world Literature in the social sciences and humanities have expanded our understanding of women s involvement in almost every aspect of life yet the combined religious educational aspect is still an under studied and often under theorized field of research How people experience their religious identity in a new context or country is also a theme now needing more complex attention Questions of the body visibility and invisibility are receiving new treatments This book fills these gaps The book provides a strong comparative perspective with 15 countries or contexts represented The context of education and learning covers schools higher education non formal education religious institutions adult literacy curriculum and textbooks Overall the book reveals a great complexity and often contradiction in modern negotiations of religion and secularism by girls and boys women and men and a range of possibilities for change It provides a theoretical and practical resource for researchers religious and educational institutions policy makers and teachers
