Philanthropy and the Funding of the Church of England, 1856-1914 Sarah Flew, 2015-10-06 The changing relationship between the church and its supporters is key to understanding changing religious and social attitudes in Victorian Britain Using the records of the Anglican Church's home missionary organizations Flew charts the decline in Christian philanthropy and its connection to the growing secularization of society

Men and Aging Edward H. Thompson, 1996-01-30 Until recently older men were not a social phenomenon commanding great attention Older men are a distinct minority among men accounting for 15 percent of the adult male population Among elders older men are still outnumbered by older women three to two and there are only two men for every five women over age 85 However the importance of gender to age and age to gender is being acknowledged by gerontologists as well as gender scholars This work is the first thorough study of the research examining older men as men Thompson was able to locate more than 750 articles which are organized by subject Gendered Aging Health and Well Being Sexuality Suicide and Alcohol Religiosity and Spirituality Stereotypes and Social Constructions Relationships and Social Life Family Relations Caregiving Economics and Retirement Living Arrangements and Resources and Needs and selectively annotated Access is also aided by extensive subject and author indexes This groundbreaking volume will be of great interest to gerontologists sociologists and all researchers concerned with gender issues

Religious Change in America Andrew M. Greeley, 1989 Many observers assume that America is a much less religious nation than it was forty years ago According to Andrew Greeley however this is simply not true Carefully analyzing surveys conducted over the past half century Greeley concludes that rates of church attendance prayer church membership activity in church organizations belief in life after death and other measures of religious involvement have remained surprisingly constant

The Churches and the Working Classes Patricia Midgley, 2012-12-21 Contrary to our perception of the centrality of the churches in English life in the nineteenth century the disappointing results of the 1851 Religious Census led religious leaders to seek a variety of ways to increase religious allegiance as the century progressed The apparent apathy and lack of interest in formal religion on the part of the working classes was particularly galling and the various denominations tried hard to attract them through evangelical missions as well as social and charitable ventures which sometimes competed with religious concerns to the latter's detriment This book traces the motivations concerns and efforts of the churches particularly in the period between 1870 and 1920 and the ambivalent responses of ordinary people The Education Act of 1870 led to the churches losing their hold on the education of the young a consequence foreseen by many church leaders but unable to be prevented By 1920 it was apparent that the churches' optimism regarding an increased role with a war weary population would not be fulfilled The focus is on the city of Leeds representative of the industrialised urban areas with burgeoning populations which proved to be such a challenge to the churches at the same time stimulating them to ever greater efforts

The Passing of Protestant England S. J. D. Green, 2010-12-09 In this book S J D Green offers an important account of the causes courses and consequences of the secularisation of English society He argues that the critical cultural transformation of modern English society was forged in the agonised abandonment of a long domesticated Protestant Christian tradition between 1920 and 1960 Its effects were felt across the nation and among all classes Yet their significance in the evolution of contemporary indigenous identities remains curiously neglected in most mainstream accounts of post Victorian Britain Dr Green traces the decline of English ecclesiastical institutions after 1918 He also investigates the eclipse of once common moral sensibilities during the years up to 1945 Finally he examines why subsequent efforts to reverse these trends so comprehensively failed His work will be of enduring interest to modern historians sociologists of religion and all those concerned with the future of faith in Britain and beyond
