Religion Politics And Ideology In The Third Reich

Amit Varshizky

Religion Politics And Ideology In The Third Reich:

Religion, Politics and Ideology in the Third Reich Uriel Tal, 2004 This book is an endeavour by a historian to render explicable the deep ideational structure of the history of Nazi Germany and the Holocaust The book will be essential reading for all scholars and students of the Nazi era Book Jacket

Religion, Politics and Ideology in the Third Reich Uriel Tal, 2004 In a perceptive analysis of diverse source material the essays of the late Uriel Tal in this volume uncover the dynamics of the secularization of religion and the sacralization of politics in the Nazi era Through a process of inversion of meaning concepts such as race blood soil state nation and Führer were brought into the realm of faith mission salvation sacredness and myth thereby acquiring absolute significance Within this Nazi worldview the Jew epitomised the arch enemy both as a symbol and as the concrete embodiment of all that Nazism sought to negate Western civilisation monotheism critical rationalism and humanism

A World Without Jews Alon Confino, 2014-04-15 A groundbreaking reexamination of the Holocaust and how Germans understood their genocidal project Insightful and chilling Kirkus Reviews Why exactly did the Nazis burn the Hebrew Bible everywhere in Germany on November 9 1938 The perplexing event has not been adequately accounted for by historians in their large scale assessments of how and why the Holocaust occurred In this gripping new analysis Alon Confino draws on an array of archives across three continents to propose a penetrating new assessment of one of the central moral problems of the twentieth century To a surprising extent Confino demonstrates the mass murder of Jews during the war years was powerfully anticipated in the culture of the prewar years The author shifts his focus away from the debates over what the Germans did or did not know about the Holocaust and explores instead how Germans came to conceive of the idea of a Germany without Jews He traces the stories the Nazis told themselves where they came from and where they were heading and how those stories led to the conclusion that Jews must be eradicated in order for the new Nazi civilization to arise The creation of this new empire required that Jews and Judaism be erased from Christian history and this was the inspiration and justification for Kristallnacht As Germans entertained the idea of a future world without Jews the unimaginable became imaginable and the unthinkable became real At once so disturbing and so hypnotic to read Deserves the widest possible audience Open Letters Monthly

Histories of the Holocaust Dan Stone, 2010-06-17 A comprehensive and accessible guide to the major themes and debates in Holocaust historiography over the last two decades

Erich Auerbach and the Crisis of German Philology Avihu Zakai, 2016-08-24 This book analyzes and contextualizes Auerbach's life and mind in the wide ideological philological and historical context of his time especially the rise of Aryan philology and its eventual triumph with the Nazi Revolution or the Hitler Revolution in Germany of 1933 It deals specifically with his struggle against the premises of Aryan philology based on völkisch mysticism and Nazi historiography which eliminated the Old Testament from German Kultur and Volksgeist in particular and Western culture and civilization in general It examines in detail his apologia for or defense and justification of Western Judaeo-Christian humanist tradition at its gravest existential

moment It discusses Auerbach s ultimate goal which was to counter the overt racist tendencies and v lkish ideology in Germany or the belief in the Community of Blood and Fate of the German people which sharply distinguished between Kultur and civilization and glorified v lkish nationalism over European civilization The volume includes an analysis of the entire twenty chapters of Auerbach s most celebrated book *Mimesis The Representation of Reality in Western Literature* 1946

The Metaphysics of Race Amit Varshizky,2024-11-04 This book seeks to reframe debates on the conflicting scientific and spiritual traditions that underpinned the Nazi worldview showing how despite the multitude of tensions and rivals among its adherents it provided a coherent conceptual grid and possessed its own philosophical consistency Drawing on a large variety of works the volume offers insights into the intellectual climate that allowed the radical ideology of National Socialism to take hold It examines the emergence of nuanced conceptions of race in interwar Germany and the pursuit of a new ethical and existential fulcrum in biology Accordingly the volume calls for a re examination of the place of genetics in Nazi racial thought drawing attention to the multi register voices within the framework of interwar racial theory Varshizky explores the ways in which these ideas provided new justifications for the Nazi revolutionary enterprise and blurred the distinction between fact and value knowledge and faith the secular and the sacred and how they allowed Nazi thinkers to bounce across these epistemological divisions This volume will be of interest to scholars of Nazi Germany and World War II intellectual and cultural history the history of science and the philosophy of religion

The Aryan Jesus Susannah Heschel,2021-07-13 Was Jesus a Nazi During the Third Reich German Protestant theologians motivated by racism and tapping into traditional Christian anti Semitism redefined Jesus as an Aryan and Christianity as a religion at war with Judaism In 1939 these theologians established the Institute for the Study and Eradication of Jewish Influence on German Religious Life In *The Aryan Jesus* Susannah Heschel shows that during the Third Reich the Institute became the most important propaganda organ of German Protestantism exerting a widespread influence and producing a nazified Christianity that placed anti Semitism at its theological center Based on years of archival research *The Aryan Jesus* examines the membership and activities of this controversial theological organization With headquarters in Eisenach the Institute sponsored propaganda conferences throughout the Nazi Reich and published books defaming Judaism including a dejudaised version of the New Testament and a catechism proclaiming Jesus as the savior of the Aryans Institute members professors of theology bishops and pastors viewed their efforts as a vital support for Hitler s war against the Jews Heschel looks in particular at Walter Grundmann the Institute s director and a professor of the New Testament at the University of Jena Grundmann and his colleagues formed a community of like minded Nazi Christians who remained active and continued to support each other in Germany s postwar years *The Aryan Jesus* raises vital questions about Christianity s recent past and the ambivalent place of Judaism in Christian thought

Charisma and Fascism Antonio Costa Pinto,Roger Eatwell,Stein Ugelvik Larsen,2014-02-25 Fascism remains a topic that fascinates both academic and general audiences This is the first book to look systematically at the leaders of

fascism and related movements in the inter war era It shows how fascist leaders came to personify their movements and why the Führerprinzip was applied in all fascist organizations It also explains how fascist leadership was of a very particular kind It was almost unlimited in political discipline and required complete subordination The legitimacy was based on a very vague notion of the organic unity of the state and the people giving the leaders competence to rule without accountability to a party organization or state bodies Thus we can observe in all fascist parties movements a practical form of leadership where policies of split and rule were common in absence of principles of representation and opposition feedbacks The fascist Führer was the leader the party the ideology and when in power the state itself This book was previously published as a special issue of *Totalitarian Movements and Political Religions* *Clerical Fascism in Interwar Europe* Matthew Feldman, Marius Turda, Tudor Georgescu, 2013-10-31 This edited volume arose from an international workshop convened in 2006 by Feldman and Turda with Tudor Georgescu supported by Routledge and the universities of Oxford Brookes Northampton and CEU Budapest As the field of fascist studies continues to integrate more fully into pan European studies of the twentieth century and given the increasing importance of secular political religion as a taxonomic tool for understanding such revolutionary movements this collection of essays considers the intersection between institutional Christian faiths theology and congregations on the one hand and fascist ideology on the other In light of recent debates concerning the intersecting secularisation of religion and usually Christian based the sacralisation of politics *Clerical Fascism in Interwar Europe* approaches such conundrums from an alternative perspective How in Europe between the wars did Christian clergy laity and institutions respond to the rise of national fascist movements In doing so this volume provides case studies from the vast majority of European countries with analyses that are both original in intent and comprehensive in scope In dealing with the relationship of various interwar fascist movements and their respective national religious institutions this edited collection promises to significantly contribute to relevant academic historiographies and as such will appeal to a wide readership This book was previously published as a special issue of *Totalitarian Movements and Political Religions* **A Companion to the Holocaust** Simone Gigliotti, Hilary Earl, 2020-04-14 Provides a cutting edge nuanced and multi disciplinary picture of the Holocaust from local transnational continental and global perspectives Holocaust Studies is a dynamic field that encompasses discussions on human behavior extremity and moral action A diverse range of disciplines history philosophy literature social psychology anthropology geography amongst others continue to make important contributions to its scholarship A Companion to the Holocaust provides exciting commentaries on current and emerging debates and identifies new connections for research The text incorporates new language geographies and approaches to address the precursors of the Holocaust and examine its global consequences A team of international contributors provides insightful and sophisticated analyses of current trends in Holocaust research that go far beyond common conceptions of the Holocaust's causes unfolding and impact Scholars draw on their original research to interpret current agenda setting historical and historiographical

debates on the Holocaust Six broad sections cover wide ranging topics such as new debates about Nazi perpetrators arguments about the causes and places of persecution of Jews in Germany and Europe and Jewish and non Jewish responses to it the use of forced labor in the German war economy representations of the Holocaust witness and many others A masterful framing chapter sets the direction and tone of each section s themes Comprising over thirty essays this important addition to Holocaust studies Offers a remarkable compendium of systematic comparative and precise analyses Covers areas and topics not included in any other companion of its type Examines the ongoing cultural social and political legacies of the Holocaust Includes discussions on non European and non Western geographies inter ethnic tensions and violence A Companion to the Holocaust is an essential resource for students and scholars of European German genocide colonial and Jewish history as well as those in the general humanities

The Enigmatic Realm of **Religion Politics And Ideology In The Third Reich**: Unleashing the Language is Inner Magic

In a fast-paced digital era where connections and knowledge intertwine, the enigmatic realm of language reveals its inherent magic.
