Sindima,1998-04-23 This volume investigates the causes of the political economic and moral problems of today s Africa and provides a framework for the reconstruction of modern African states The author focuses on the interaction between religion and politics throughout history and on the role of the Church in postcolonial Africa In order to develop a basis for African political and religious ethics he uses an interdisciplinary approach that draws from political theory history and social and religious ethics Among the issues discussed are ethnicity mismanagement corruption and the African concept of power **African Christian Ethics** Samuel Waje Kunhiyop,2008 This introduction to African Christian Ethics for Christian colleges and Bible schools is divided into two parts The first deals with the theory of ethics while the second discusses practical issues With questions at the end of each chapter for discussion or reflection often asking how the chapter applies to their ministry situation African Religion Laurenti Magesa,2014-07-30 Describes the moral teachings values norms and principles to follow so that life might be abundant for all of the African religion as it relates to individuals and community **Christian Ethics in an African Context** Dick Allen Rader,1991 For 150 years Africans have been longing for a Christianity which is not the White man s religion Missionaries have often failed to strip the Western cultural garb from their presentation of the gospel Emerging African theologians in rapidly expanding congregations are beginning to formulate an explicitly African theology The Christian message must be contextualized within the local culture if it is to be communicated effectively in the daily life of the African Christian This book shows how missionaries and African Christians can work together to find timeless biblical principles and allow those principles to directly impact African culture *Religious Ethics in Africa* Peter Kasenene,1998 Africa is a religiously plural society with interaction between people of different religions and diverse value systems The author Professor of Comparative Religion in Uganda describes and compares the position of traditional African religion Christianity Islam and Baha i Faith on selected moral issues relevant to Africa today His central argument is that in order to maintain their identity African people must rediscover their ethical and moral heritage He also argues that the new African ethical and moral systems must take into account the ethics of Christianity Islam and the Baha i Faith without embracing the cultures of the societies where those religions originated

African Spirituality and Ethics Munyaradzi Felix Murove, 2023-12-28 This book explores the symbiotic relationship that exists between African spirituality and ethics Felix Murove discusses how these two concepts are entwined and illustrates how they play a role in applied ethical issues He argues that the general understanding of spirituality in Africa stems from Christianity which has had a negative impact on African indigenous spirituality The conceptual tools that run throughout the book are considerably Afro-centric a methodological strategy which inevitably requires the reader to adopt some prior willingness to learn these Afro-centric concepts without easily resorting to western Christian and philosophical categories of thought The book advocates for an Afro-centric conceptualization of spirituality and ethics and encourages the reader to adopt a more holistic approach to African spirituality
