Religious Experience And Mysticism Otherness As Experience Of Transcendence:

Religious Experience and Mysticism Jose C. Nieto, 1997-05-22 Drawing from sacred scriptures world religions literature philosophy and psychology this monograph explores them as universal sources of religious experience and mysticism It systematically establishes the similarities and differences between them as well as their distinctions from aesthetic experiences and mystical thought Examples from religious experience show that it is perceived in space time categories while mystical experience transcends all these experiencing union It is this characteristic of mysticism which unifies World Mysticism regardless of the religious cultural or philosophical background This book is divided into three major parts Part I focuses on Religious Experience Part II on Mysticism and Part III integrates the results within the larger scope of the awareness of the diversity of Transcendence The introduction and conclusion structure both the inquiry and results

Transformative Religious Experience Joshua Iyadurai, 2015-04-30 What makes a priest of one religion become a preacher of another religion How could a person embrace a religion suddenly that he or she had up to then opposed Why would young women risk their reputation and endanger their lives for the sake of newfound faith How could an alcoholic detest a sip of wine all of a sudden What drives an atheist to become an ardent worshiper of God How could an intelligent person relate to God as to an adult human being Transformative Religious Experience answers these questions with fascinating narratives of conversion These narratives together show how the transforming effects of conversion permeate the daily lives of converts in a multireligious context Joshua Iyadurai analyzes psychologically the mystical turning point in the conversion process and finds that the divine human encounter entails a cognitive restructuring a new set of beliefs values and desires replaces previously held religious beliefs values and desires By drawing insights from the fields of psychology sociology anthropology and theology Iyadurai develops an interdisciplinary step model from a phenomenological perspective to explain the conversion process that incorporates the religious practices and social psychological factors while giving a central place to religious experience

On Sharing Religious Experience, 2024-08-26 **Psychosis or Mystical Religious Experience?** Susan L. DeHoff, 2018-02-13 This book presents a new paradigm for distinguishing psychotic and mystical religious experiences In order to explore how Presbyterian pastors differentiate such events Susan L DeHoff draws from Reformed theology psychological theory and robust qualitative research Following a conversation among multidisciplinary voices she presents a new paradigm considering the similarities differences and possible overlap of psychotic and mystical religious experiences

Religious Experience and Contemporary Theological Epistemology Lieven Boeve, Yves De Maeseneer, Stijn Van den Bossche, 2005 In this volume we present the proceedings from the fourth international Leuven Encounters in Systematic Theology LEST IV November 5 8 2003 which focussed on a critical investigation of the place and role of religious experience in the legitimation structures of contemporary theological thinking patterns In the first part the keynote lectures including the responses are gathered among others from L Boeve F Fiorenza L Hemming G Jantzen S

Painadath S Robert R Schaeffler and S Van den Bossche In the second part a selection of the contributions offered in the thematic seminars is presented **The Oxford Handbook of Mystical Theology** Edward Howells, Mark A.

McIntosh, 2020-02-25 The Oxford Handbook of Mystical Theology provides a guide to the mystical element of Christianity as a theological phenomenon It differs not only from psychological and anthropological studies of mysticism but from other theological studies such as more practical or pastorally oriented works that examine the patterns of spiritual progress and offer counsel for deeper understanding and spiritual development It also differs from more explicitly historical studies tracing the theological and philosophical contexts and ideas of various key figures and schools as well as from literary studies of the linguistic tropes and expressive forms in mystical texts None of these perspectives is absent but the method here is more deliberately theological working from within the fundamental interests of Christian mystical writers to the articulation of those interests in distinctively theological forms in order finally to permit a critical theological engagement with them for today Divided into four parts the first section introduces the approach to mystical theology and offers a historical overview Part two attends to the concrete context of sources and practices of mystical theology Part three moves to the fundamental conceptualities of mystical thought The final section ends with the central contributions of mystical teaching to theology and metaphysics Students and scholars with a variety of interests will find different pathways through the Handbook

Phenomenology of Religion Archana Barua, 2009-01-01 Out of the wide variety of themes covered by Husserl's phenomenology and later developed by Heidegger Merleau Ponty and others in different possible directions the present work attempts to indicate the few features of the method that derives from Edmund Husserl's basic themes of the phenomenological movement and its methodology Barua explores the manner in which this method has been applied to the study of art and religion by other phenomenologists and accordingly introduces the problem of this profound bulk namely the phenomenological approach to religion mostly in their terms *Transcendent Experiences* Louis Roy, 2001-01-01 Roy discusses the validity of transcendent experiences and the reasons why they can be considered non illusory *The Feeling of Transcendence, an Experience of God?* Louis Roy, 2021-04-15 In this book Louis Roy takes account of the fact that in the last fifty years numerous people in the secularized West have responded yes to surveys that asked Are you aware of having had an experience during which you felt in the presence of a dimension or a reality very different from ordinary human life Are such experiences mere illusions Some thinkers like Feuerbach and Freud believed so Are such experiences encounters with God Karl Barth a great Protestant theologian did not think much of their worth On this issue psychologists and theologians are divided Roy argues that those experiences are valid that they possess a real potential and that they can open their recipients to a genuine wisdom He reports on eight narratives spells out their constitutive elements classifies them into four categories aesthetic ontological ethical and interpersonal and suggests criteria to assess their concrete authenticity Thus this book will appeal to educated readers interested in spirituality philosophy of religion psychology literature theology

and pastoral ministry *Encyclopedia of Theology* Karl Rahner, 1975-01-01 An essential and reliable reference work and manual of the Christian faith this book provides both students and interested readers with a basic text presenting the findings of modern scholarly thought and research Ecumenical in spirit and approach no responsible and inquiring Christian can afford to be without it
