## **Religious Symbolism And Its Universal Character:**

**Symbols (Routledge Revivals)** Raymond Firth, 2013-01-11 This book first published in 1973 offers a broad survey of the study of symbolic ideas and behaviour. The study of symbolism is popular nowadays and anthropologists have made substantial contributions to it. Raymond Firth has long been internationally known for his field research in the Solomons and Malaysia and for his theoretical work on kinship, economics and religion. Here from a new angle he has produced a broad survey of the study of symbolic ideas and behaviour. Professor Firth examines definitions of symbol. He traces the history of scientific inquiry into the symbolism of religious cults, mythology and dreams back into the eighteenth century. He compares some modern approaches to symbolism in art, literature and philosophy with those in social anthropology. He then cites examples in anthropological treatment of symbolic material from cultures of varying sophistication. Finally he offers dispassionate analyses of symbols used in contemporary Western situations, from hair styles to the use and abuse of national flags, from cults of Black Jesus to the Eucharistic rite. In all this Professor Firth combines social and political topicality with a scholarly and provocative theoretical inquiry. **Writings in the Philosophy of Religion / Religionsphilosophische Schriften**

John P. Clayton, 2020-03-23 No detailed description available for Writings in the Philosophy of Religion. **Religionsphilosophische Schriften** **The Principle of Analogy in Protestant and Catholic Theology** Battista Mondin, 2013-06-29 In recent years there has been a remarkable revival of interest in the doctrine of analogy and many important studies on this doctrine have appeared in the form of articles and books. Today many of the greatest living philosophers and theologians consider some sort of analogy to be an indispensable tool for any fruitful research in metaphysics and theology. In this atmosphere we are sure that a study of the history of the principle of analogy in Protestant and Catholic theology is welcome. This is one of the reasons for the present undertaking. A second reason for this study is to seek to divert the ecumenical dialogue from secondary questions and to direct it to an area where it is necessary to agree in order to be one. The title of our work is somewhat misleading; it may lead one to believe that it deals with all Catholic and Protestant theologians of past and present. Actually it does not. It deals only with some of the major figures of Catholic and Protestant theology. It concentrates especially on Aquinas' analogy of intrinsic attribution, on Barth's analogy of faith and on Tillich's symbolic analogy. It attempts to compare and evaluate these three theological methods from the standpoint of determining their adequacy to interpret the God-creature relation and to justify the use of theological language. *God's Wounds: Hermeneutic of the Christian Symbol of Divine Suffering, Volume One* Jeff B. Pool, 2009-01-01 This book constitutes the first volume of a three-volume study of Christian testimonies to divine suffering: God's Wounds: Hermeneutic of the Christian Symbol of Divine Suffering. Divine Vulnerability and Creation. This study first develops an approach to interpreting the contested claims about the suffering of God. Thus the larger study focuses its inquiry into the testimonies to divine suffering themselves, seeking to allow the voices that attest to divine suffering to speak freely to discover and elucidate the internal

logic or rationality of this family of testimonies rather than defending these attestations against the dominant claims of classical Christian theism that have historically sought to eliminate such language altogether from Christian discourse about the nature and life of God Through this approach this volume of studies into the Christian symbol of divine suffering then investigates the two major presuppositions that the larger family of testimonies to divine suffering normally hold an understanding of God through the primary metaphor of love God is love and an understanding of the human as created in the image of God with a life though finite analogous to the divine life the imago Dei as love When fully elaborated these presuppositions reveal the conditions of possibility for divine suffering and divine vulnerability with respect to creation

Jung** Jolande Jacobi, 2020-05-05 As an associate of C G Jung for many years Jolande Jacobi is in a unique position to provide an interpretation of his work In this volume Dr Jacobi presents a study of three central interrelated concepts in analytical psychology the individual complex the universal archetype and the dynamic symbol

**95 Theses on Humanism** Ignace Demaerel, 2018-08-02 Since the rise and growth of secularization the place of God and religion is becoming increasingly problematic in our Western culture But what is the alternative to its Christian heritage Humanism puts man at the center of everything but can you believe in man just as much as you can believe in God Is this secular worldview really rational based on science consistent and durable And above all does our society become more humane because of it Can you simply obliterate God from our culture and values without these collapsing like a pudding Secular humanism has always been extremely critical of the church and in itself that is allowed but what if we judge and measure it with the same criteria

*God and Reason, Second Edition* Ed L. Miller, 2015-10-20 This book provides a concise introduction to the main ideas and issues in philosophical theology While covering a wide range of classic and contemporary perspectives the text stresses a

historical approach focussing primarily on the development of philosophical theology in the Judeo Christian tradition

Ritual Practices in Congregational Identity Formation Timothy D. Son, 2014-05-08 Ritual Practices in Congregational Identity Formation investigates the educational roles of ritual practices in the process of congregational identity formation Son identifies and analyzes various kinds of Christian rituals with respect to how rituals influence the formational processes of a congregation's identity Based on Victor Turner's ritual theory this book also investigates the pedagogical and transformative efficacies of ritual practices within the dynamics of congregational education

**Public Theology in the Post-Secular Age** Dominic Budhi-Thornton, 2025-07-31 As religion's status and place within society is contested in the post secular age Manchester Cathedral is a fascinating case study of the potential role that cathedrals and other religious institutions may be able to play in various public settings While the church's membership declines in the UK Manchester Cathedral operates as a spiritual hub in the area of Greater Manchester Using primary data gathered on the ground this work explores Manchester Cathedral's public theologies of inclusion which lie at the heart of its various activities and practices Focusing most explicitly on the cathedral's interfaith work anti racism work and its theology of LGBTQIA inclusion the author explores the potential strengths and weaknesses of religious engagement in the contemporary post secular age In this book Budhi Thornton seeks to contribute to questions about the relationship between the religious and the secular tradition and innovation inclusion and distinctiveness Drawing on a wide range of theological and philosophical traditions Budhi Thornton puts forward a case for the development of a public theological hospitality that remains open to the work of the Spirit in the life of the Other
