

Why the reluctant radicals?

- The uncommitted, soft supporters of right-wing populism
- Two reasons to focus on them.
- (1) They make up a significant proportion of the right-wing populist electorate

Reluctant Radicals

Francis J. Bremer

Reluctant Radicals:

Youth, Education, and Islamic Radicalism Mun'im Sirry, 2024-03-15 *Youth Education and Islamic Radicalism* offers groundbreaking analysis of religious intolerance and radicalization among high school and university students in modern day Indonesia. Indonesia is one of the most diverse countries in the world in terms of religion, ethnicity, and socioeconomic status, but also in the complexity of its education system. *Youth Education and Islamic Radicalism* examines the roots of religious intolerance among young Indonesians and explores the various ways in which educated youth navigate radical ideologies amid growing religious conservatism. The book presents nuanced explanations as to why one person becomes radicalized while another does not, calling into question the common assumption that religious radicalism is directly connected to terrorism. It problematizes the notion that the university is a significant hub, trigger, or birthplace of radicalization by asking: What makes education attractive for extremist recruitment? What shapes students' views? Under what circumstances do radicalization and deradicalization processes of educated youth take place? *Youth Education and Islamic Radicalism* identifies a constellation of factors that shape young people's views of religious diversity in Indonesia, demonstrating the ways in which they become radicalized in the first place and how, in some cases, they deradicalize themselves.

Unrespectable Radicals?

Paul A. Pickering, 2016-02-24 In 1988 Iain McCalman's seminal work *Radical Underworld* unravelled the complex and clandestine revolutionary networks of democrats that operated in London between 1790 and the beginnings of Chartism, to reveal an urban underworld of prophets, infidels, pornographers, and rogue preachers where powerful satirical and subversive subcultures were developed. This present volume reflects and builds upon the diversity of McCalman's discoveries to present fresh insights into the culture and operation of popular politics in the age of reform. It is a coherent and integrated treatment of the subject that offers a window into this unrespectable underworld and questions whether it was a blackguard subculture or a more complex and rich counter culture with powerful literary, legal, and political implications. This book brings together an international team of experienced scholars to explore the concepts and subjects pioneered by McCalman. The volume presents a focused and coherent review of popular politics from the meeting rooms of a reform society and the theatre stage to the forum of the courtroom and the depths of prison.

Radical Critiques of the Law Stephen M. Griffin, Robert C. L.

Moffat, 1997 The past two decades have seen an outpouring of work in legal theory that is self-consciously critical of aspects of American law and the institutions of the liberal state. In this lively volume, eminent scholars in philosophy, law, and political science respond to this recent scholarship by exploring what constitutes a radical critique of the law, examining such theories as critical legal studies, feminist theory, and theories of difference and critical race theory. The authors consider whether the critiques advanced in recent legal theory can truly be called radical and what form a radical critique of American law should take. Writing at the cutting edge of the critique of critical legal theory, they offer insights first on critical legal scholarship, then on feminist political and legal theory. A third group of contributions questions the radicalness of these approaches in

light of their failure to challenge fundamental aspects of liberalism while a final section focuses on current issues of legal reform through critical views on criminal punishment including observations on rape and hate speech Each major essay describes the underlying principles in the development of a radical legal theory and addresses unresolved questions relating to it while accompanying commentaries present conflicting views The resulting dialogue explores wide ranging issues like equity value relativism adversarial and empathic legal advocacy communitarianism and the social contract impartiality and contingency natural law and corrective justice A common thread for many of the articles is a focus on the social dimension of society and law which finds the individualism of prevailing liberal theories too limiting Radical Critiques of the Law is particularly unique in presenting critical and feminist approaches in one volume along with skeptical commentary about just how radical some critiques really are Proposing alternative critiques that embody considerably greater promise of being truly radical it offers provocative reading for both philosophers and legal scholars by showing that many claims to radicalism are highly problematic at best

Vampire Capitalism Paul Kennedy, 2016-12-25 This book argues that in recent decades an unrestrained vampire capitalism has emerged disengaged from the needs of citizens and workers leading to a deepening of social class generational gender educational and ethnic divisions The author explores how our cultural obsession with self realization undermines our capacity for collective action and ability to confront threats such as climate change and the impact of the rapid advance of technology on labour Drawing on sociology and political economy as well as worldwide case studies the chapters interrogate how we arrived at these dilemmas and how we might escape them through establishing alternative social economies Vampire Capitalism will be of interest to students and scholars across a range of disciplines including sociology social theory globalisation studies development studies political economy geography politics and social policy

Algebra II Essentials For Dummies Mary Jane Sterling, 2010-05-17 Passing grades in two years of algebra courses are required for high school graduation Algebra II Essentials For Dummies covers key ideas from typical second year Algebra coursework to help students get up to speed Free of ramp up material Algebra II Essentials For Dummies sticks to the point with content focused on key topics only It provides discrete explanations of critical concepts taught in a typical Algebra II course from polynomials conics and systems of equations to rational exponential and logarithmic functions This guide is also a perfect reference for parents who need to review critical algebra concepts as they help students with homework assignments as well as for adult learners headed back into the classroom who just need a refresher of the core concepts The Essentials For Dummies Series Dummies is proud to present our new series The Essentials For Dummies Now students who are prepping for exams preparing to study new material or who just need a refresher can have a concise easy to understand review guide that covers an entire course by concentrating solely on the most important concepts From algebra and chemistry to grammar and Spanish our expert authors focus on the skills students most need to succeed in a subject

Between Extremes Jack Furniss, 2024-11-06 Between 1861 and 1865 northern voters fortified Abraham Lincoln s

administration as it oversaw the end of the institution of slavery and an unprecedented expansion in the size and scope of the federal government Since the United States never considered suspending the democratic process during the Civil War these revolutionary developments indeed the entire war effort depended on ballots as much as bullets Why did civilians who at the start of the conflict had not anticipated or desired these transformations to their society nonetheless vote to uphold them Jack Furniss's *Between Extremes* proposes an answer to this question by revealing a potent strand of centrist politics that took hold across the Union and provided the conservative rationales that allowed most northerners to accept the war's radical outcomes

Fighting Words Marc W. Steinberg, 2018-05-31 A key component of social life discourse mediates the processes of class formation and social conflict Drawing on dialogic theory and building on the work of E P Thompson Marc W Steinberg argues for the importance of incorporating discursive analysis into the historical reconstruction of class experience Amending models of collective action he offers new insights on how discourse shapes the dynamics of popular protest To support his thesis he presents studies of two English trade groups in the 1820s cotton spinners from Lancashire factory towns and London silk weavers For each case Steinberg closely examines the labor process industrial organization social life community politics discursive struggles and collective actions By describing how workers shared experiences of exploitation and oppression in their daily lives he shows how discourses of contention were products of struggle and how they framed possibilities for collective action Embracing work in literary theory sociocultural psychology and cultural studies *Fighting Words* claims a middle ground between postmodern and materialist analyses

The Education of a Reluctant Radical Carl Marzani, 1992 Carl Marzani was imprisoned in 1950 as one of the first victims of the gathering cloud of McCarthyism his case a cause celebre He would subsequently become one of New York's foremost left publishers and as a writer and polemicist a distinctive voice of the Cold War years This final volume of his memoirs includes his Prison Notebooks confiscated by the prison authorities in 1949 and retrieved from the FBI files in the 1980s Publisher web site

Roots of Radicalism Stanley Rothman, 2018-04-27 When *Roots of Radicalism* first appeared Nathan Glazer noted this is a major work on the relationship between radical politics and psychological development He went on to predict no one will be able to write about the left and radicalism without taking it into account Now finally available in a paperback edition with a new introduction the reader can evaluate just how prescient the authors are in their review of the student radical movement Replete with interviews of radical activists their provocative book paints a disturbing picture The book raises critical questions about much previous social science research and ultimately about the reason an entire generation of Americans was so infatuated with the radical mystique Robert A Nisbet called the book an extraordinarily skilled fusion of historical and psychological approaches to one of the most explosive decades in American social history Robert E Lane added it will be prudent to read Rothman and Lichter along with our well worn copies of Keniston and Fromm Writing in *Political Psychology* Dan E Thomas argued the book is arguably the most important and definitely the most provocative book in the field of

personality and politics to have appeared in the past several years Recently in Forbes Peter Brimelow referred to Roots of Radicalism as Rothman's main achievement as a political scientist his definitive study of the 1960s New Left In the new introduction the authors review the initial reception of Roots of Radicalism and its subsequent treatment They also review the major literature on the causes course and consequences of the student movement of the 1960s which has appeared since the publication of the book Finally they update their own analysis Reconstruction in the United States David Lincove,2000-01-30 The only comprehensive bibliography on Reconstruction this book provides the definitive guide to literature published from 1877 to 1998 In over 2 900 entries the work covers a broad range of topics including politics agriculture labor religion education race relations law family gender studies and local history It encompasses the years of the Civil War through the conclusion of the 1876 election and the end of the federal government's official role in reforming the postwar South and protecting the rights of Black citizens In detailed annotations the book covers a range of literature from scholarly and popular studies to published memoirs letters and documents as well as reference sources and teaching tools The issues of Reconstruction civil rights states rights and federal state relations racism nationalism government aid to individuals continue to be relevant today and the literature on Reconstruction is large This book provides a systematic and comprehensive bibliographic guide to that literature It is organized by topics and geographical regions and states thereby emphasizing the local diversity in the South In addition to a variety of literature it covers the relevant Supreme Court cases through 1883 provides full citations to federal acts and cases cited and includes the texts of the 13th 14th and 15th Amendments to the Constitution The book will be useful to scholars and students researching a wide range of topics in Southern history constitutional history and national politics in post Civil War United States The National Review ,1885

Psychological Jurisprudence Bruce A. Arrigo,2012-02-01 Psychological jurisprudence or the use of psychology in the legal realm relies on theories and methods of criminal justice and mental health to make decisions about intervention policy and programming While the intentions behind the law psychology field are humane the results often are not This book provides a radical agenda for psychological jurisprudence one that relies on the insights of literary criticism psychoanalysis feminist theory political economy analysis postmodernism and related strains of critical thought Contributors reveal the roots of psycholegal logic and demonstrate how citizen justice and structural reform are displaced by so called science and facts A number of complex issues in the law psychology field are addressed including forensic mental health decision making parricide competency to stand trial adolescent identity development penal punitiveness and offender rehabilitation In exploring how the current resolution to these and related controversies fail to promote the dignity or empowerment of persons with mental illness this book suggests how the law psychology field can meaningfully contribute to advancing the goals of justice and humanism in psycholegal theory research and policy **The Fortnightly** ,1900 *Ecocritique* Timothy W. Luke,1997 Discord in Zion Tai Liu,2012-12-06 With the decline of the Whig interpretation of history historians in the

past few decades have re examined the origins and the nature of the English Revolution from various perspectives The constitutional conflict 1 between the crown and parliament has been analyzed The Puritan mind 2 has been explored Social change in England during the century prior 3 to the outbreak of the Civil War has been anatomized The composition 4 of the Long Parliament has been dissected Every student of the English Revolution is now well aware that the crisis in seventeenth century Eng land like all other major events in history was a complex phenomenon in which men as well as ideas religious convictions as well as economic interests all came into play For all students of this period the works of Samuel R Gardiner amplified by Sir Charles H Firth remain the chief source of knowledge and 1 It should be noted that while former historians from Hallam and Macaulay to G M Trevelyan and J R Tanner all interpreted the English Revolution in terms of the constitution recent historical scholarship in this respect is more concerned with the evolution and functioning of the constitution rather than the constitutional rights and wrongs of either party in the conflict See Wallace Notestein *The Winning of the Initiative by the House of Commons* London 1924 Margaret A **The Fortnightly Review** ,1900

National and English Review ,1885 Congregational Communion Francis J. Bremer,1994 Puritan studies is one of the most heavily researched areas of scholarship in both England and the United States In this in depth exploration of the relationship between Puritans in England and New England Francis J Bremer challenges the view that the colonists turned away from English Puritans in the 1640s Rather he convincingly demonstrates that the two communities retained a complex symbiotic connection a communion throughout the seventeenth century and that the clergy on both sides of the Atlantic saw themselves as closely linked in their spiritual mission Focusing on the interaction between social experience and the shaping of belief Bremer thoroughly analyzes how Puritan clergymen of a congregational persuasion came together in a godly communion and examines how that communion sustained them in times of trouble and physical dispersal He explains the social forces that led to the articulation of early Congregationalism and details the significance of trans Atlantic religious exchanges through correspondence associations publications and other devices Bremer traces the first generation Puritans from their formative years at Cambridge University through the creation of a network of clerical friendships through the flight to Holland and to New England to the death of Oliver Cromwell and the beginnings of division within Congregationalism This thought provoking volume makes a solid contribution to Puritan studies and offers a basis for further discussions of the trans Atlantic aspects of the Congregational community *The International Judge* Daniel Terris,Cesare P. R. Romano,Leigh Swigart,2007 An interdisciplinary introduction to international judges and their work Philosophy of Law Larry May,Jeff Brown,2009-05-18 Philosophy of Law provides a rich overview of the diverse theoretical justifications for our legal rules systems and practices Utilizes the work of both classical and contemporary philosophers to illuminate the relationship between law and morality Introduces students to the philosophical underpinnings of International Law and its increasing importance as we face globalization Features concrete examples in the form of cases significant to the evolution of

law Contrasts Anglo American law with foreign institutions and practices such as those in China Japan India Ireland and Canada Incorporates diverse perspectives on the philosophy of law ranging from canonical material to feminist theory critical theory postmodernism and critical race theory

Eventually, you will categorically discover a further experience and capability by spending more cash. nevertheless when? do you recognize that you require to get those all needs in the manner of having significantly cash? Why dont you attempt to acquire something basic in the beginning?
