in Employment Discrimination Law Oana ?tefan,2012-11-01 Drawing on a data set of 696 documents competition and
state aid judgments orders and opinions of the European Courts and Advocates General opinions referring to various soft law
instruments this detailed textual and doctrinal analysis investigates the way in which the EU Courts deal with soft law how
the normative status of these instruments is acknowledged and how their effects are recognized It reveals that several
champion instruments feature frequently in the case law the guidelines on fines and the leniency notice in competition law
the state aid instruments on aid to be granted to enterprises in difficulty regional aid de minimis aid and aid to be granted to
SMEs all of them having in common the fact that they regulate highly litigated areas The analysis treats issues such as the
following the pathway from judicial ignorance to judicial acknowledgement of soft law the judicial creation of legal hybrids
the judicial review of soft law the potential use of soft law as a sword or as a shield in a court of law the distinction between
legally binding force and legal effects how soft law can produce legal effects through the operation of general principles of
law such as legitimate expectations legal certainty or human rights and how the Courts locate soft law on a strong
constitutional pluralist background Although the analysis might appear to relate to a fairly narrow spectrum of EU law in fact
the interaction of soft law and legal principles reaches into many diverse areas of law and increasingly so in the twenty first
century Consequently this ground breaking book will prove immeasurably valuable to any practitioner academic or
policymaker interested in how the EU Court is fulfilling once again its constitutionalizing role even in an area traditionally
lacking formalism and conventions that of soft instruments of governance **Procedures and Preferences** George
Rutherglen,1985 Labor and Employment Law Initiatives and Proposals Under the Obama Administration Zev J.
Eigen,Samuel Estreicher,2011-01-01 Barack Obama s famous Blueprint for Change part and parcel of the campaign that
culminated in his historic election as U S president in November 2008 openly announced his support for the Employee Free
Choice Act H R 1409 suggesting that major change was imminent in U S labor and employment law Although promised
legislative change has yet to materialize there appears to be a growing consensus that the current system for addressing
employment disputes in union represented and non union workplaces deserves renewed attention and needs significant
restructuring Thus the issues taken up by this prominent U S conference remain relevant to policy debates which will likely
continue to rage in the United States for years to come Based on papers delivered at the 2009 conference of the New York
University School of Law s Center on Labor and Employment Law the 62nd in this venerable and highly influential series the

book presents articles updated by the authors to reflect more recent developments as well as new papers to ensure a comprehensive and current analysis of both what has actually changed and which trends seem to be gaining momentum. Twenty two outstanding scholars and practitioners in U S labor law and practice pay special attention to such issues as the following: mandatory arbitration of employment disputes in non union sector; call for improved administration of the National Labor Relations Act in expediting elections and reinstating discriminatees; more privatized forms of dispute resolution such as arbitration and mediation; card check and neutrality agreements bypassing government processes; proposed reform of the Age Discrimination in Employment Act; evaluating market based defenses to pay equity claims; EEOC initiatives in public enforcement of equality law and challenges to labor relations in state and local governments.

The Crusade for Equality in the Workplace Robert Belton, 2014-04-14

On March 8 1971 the Supreme Court of the United States decided a case *Griggs v Duke Power Co* brought by thirteen African American employees who worked as common laborers and janitors at one of Duke Power's facilities. The decision in plaintiffs favor marked a profound and enduring challenge to the dominance of white males in the workplace. In this book Robert Belton who represented the plaintiffs for the NAACP Legal Defense Fund and argued the case in the lower courts gives a firsthand account of legal history in the making and a behind the scenes look at the highly complex process of putting civil rights law to work. Title VII of the Civil Rights Act of 1964 eliminated much blatant discrimination but after its enactment and before *Griggs* businesses held the view that a commitment to equality required only eliminating policies and practices that were intentionally discriminatory: the disparate treatment test. In *Griggs v Duke Power Co* the Supreme Court ruled that a disparate impact test could also apply: that the 1964 Civil Rights Act extended to practices with a discriminatory effect. In tracing the impact of the *Griggs* ruling on employment practices this book documents the birth maturation death and rebirth of the disparate impact theory including its erosion by later Supreme Court decisions and its restoration by congressional action in the Civil Rights Act of 1991. Belton conducts us through this historic case from the original lawsuit to the Supreme Court decision in *Griggs* and beyond as he traces the post *Griggs* developments in the lower courts the Supreme Court and Congress he provides informed insights into both litigators and judges perspectives and decision making. His work situates the case in its legal social and historical contexts and explores the relationship between public and private enforcement of the law with a focus on the Legal Defense Fund's litigation campaign against employment discrimination. A detailed examination of the development of legal principles under Title VII this book tells the story of this seminal decision on equal employment law and offers an unprecedented close up view of personal conviction legal strategy and historical forces combining to effect.
