Remembering For The Future The Holocaust In An Age Of Genocides:

Remembering for the Future John K. Roth, 2001

Remembering for the Future J. Roth, E. Maxwell, 2017-02-13

Focused on The Holocaust in an Age of Genocide *Remembering for the Future* brings together the work of nearly 200 scholars from more than 30 countries and features cutting edge scholarship across a range of disciplines amounting to the most extensive and powerful reassessment of the Holocaust ever undertaken In addition to its international scope the project emphasizes that varied disciplinary perspectives are needed to analyze and to check the genocidal forces that have made the Twentieth century so deadly Historians and ethicists psychologists and literary scholars political scientists and theologians sociologists and philosophers all of these and more bring their expertise to bear on the Holocaust and genocide Their contributions show the new discoveries that are being made and the distinctive approaches that are being developed in the study of genocide focusing both on archival and oral evidence and on the religious and cultural representation of the Holocaust

Holocaust Remembrance between the National and the Transnational Larissa Allwork, 2015-07-30

Holocaust Remembrance Between the National and the Transnational provides a key study of the remembrance of the Jewish Catastrophe and the Nazi era past in the world arena It uses a range of primary documentation from the restitution conferences speeches and presentations made at the Stockholm International Forum of 2000 SIF 2000 a global event and an attempt to mark a defining moment in the inter cultural construction of the political and institutional memory of the Holocaust in the USA Europe and Israel Containing oral history interviews with delegates to the conference and contemporary press reports this book explores the inter relationships between global and national Holocaust remembrances The causes consequences and cosmopolitan intellectual context for understanding the SIF 2000 are discussed in great detail Larissa Allwork examines this seminal moment in efforts to globally promote the important if ever controversial topics of Holocaust remembrance worldwide Genocide prevention and the commemoration of the Nazi past Providing a balanced assessment of the Stockholm Project this book is an important study for those interested in the remembrance of the Holocaust and the Third Reich as well as the recent global direction in memory studies

Genocide in the Age of the

Nation State Mark Levene, 2005-08-26 How should we understand genocide in the modern world As an aberration from the norms of a dominant liberal international society Or rather as a guide to the very dysfunctional nature of the international system itself *The Meaning of Genocide* is the first work of its nature to consider the phenomenon within a broad context of world historical development In this book Mark Levene sets out the conceptual issues in the study of genocide addressing the fundamental problems of defining genocide and understanding what we mean by perpetrators and victims before placing the phenomenon in the context of world history In an original and compelling argument Levene seeks to explain how state violence against a range of groups has emerged in tandem with the rise of the West to global dominance and the emergence of increasingly streamlined homogenous states Levene contends that it is in the relationship of these nation states to each

other that we will find the well springs of some of the most poisonous tendencies in the modern world Thought provoking and beautifully constructed *The Meaning of Genocide* is the first of a major four volume survey *Genocide in the Age of the Nation State* which examines its subject within an extensive global and historical framework and which will become the definitive work on the subject *The Double Binds of Ethics after the Holocaust* J. Geddes,J. Roth,2009-04-26 *The Double Binds of Ethics after the Holocaust* advances the idea that the Holocaust undermined confidence in basic beliefs about human rights and shows steps of salvage and retrieval that need to be taken if ethics is to be a significant presence in a world still besieged by genocide and atrocity *Global Approaches to the Holocaust* Mark Celinscak,Mehnaz Afridi,2025-11 In this volume contributors examine the Holocaust from a global perspective presenting a diverse set of Jewish and non Jewish voices that add to the subject s historical and memorial reach *Genocide and Human Rights* J. Roth,2005-07-27 *Genocide is evil or nothing could be* It raises a host of questions about humanity rights justice and reality which are key areas of concern for philosophy Strangely however philosophers have tended to ignore genocide Even more problematic philosophy and philosophers bear more responsibility for genocide than they have usually admitted In *Genocide and Human Rights A Philosophical Guide* an international group of twenty five contemporary philosophers work to correct those deficiencies by showing how philosophy can and should respond to genocide particularly in ways that defend human rights *The Laws of Genocide* Thomas W. Simon,2007-06-30 The tools of reason offer the best hope for the international community to confront the increasing incidents of hate throughout the world A historically informed normative examination of the elements of the crime of genocide provides an excellent case study of how the law reason s handmaiden enhances understanding and improves practical ways of dealing with global injustices How should we confront hate As political activists we could resort to fighting hate with hate As concerned citizens we could consciously ignore or actively protest hate As committed educators we could put the implements and survivors of hate on display As committed scholars we could resuscitate the idea of evil As humanitarian jurists we could put individual hate mongers on trial Part I of this book makes a case for making the maximum use of reason to deal with hate This means that we should actively debate those who promote hate Further as a close look at the history of applying law to incidents of hate and violence illustrates the courtroom proves to be an excellent place to demonstrate the virtues of applying the tools of reason not to global evils but to the grave injustices of the world In Part II Simon demonstrates the power of legal analysis in enhancing our understanding of genocide probably the worst injustice imaginable A close examination of each purported element of the crime of genocide redirects misguided turns taken by international jurists Contrary to a more realistic perspective adopted at the Nuremberg trials jurists have mistakenly modeled international criminal law on national criminal law which focuses on individual responsibility However the cases of grave injustices throughout the 20th century amply demonstrate the primary collective responsibility underlying incidences of genocide The failure to prosecute criminal organizations for genocide has and will continue to have disastrous results

While the Nuremberg tribunal at least disbanded the responsible Nazi organizations current war crimes tribunals have allowed organizations responsible for the Rwandan genocide to continue to wreak havoc throughout Central Africa If the international community cannot forge a common understanding of genocide then it has little hope of establishing an international legal order or a global ethics **The New Berlin** Karen E. Till, An innovative exploration of German memory national identity and modernity embodied in the public spaces of the new capital **Disrupting Pathways to Genocide** E. Murray, 2015-03-17 How does ideology in some states radicalise to such an extent as to become genocidal Can the causes of radicalisation be seen as internal or external Examining the ideological evolution in the Armenian genocide the Holocaust and during the break up of Yugoslavia Elisabeth Hope Murray seeks to answer these questions in this comparative work
