poet and psychologist bring to this book is especially productive The interweaving of substantial practice examples based on conversations with people with dementia give persuasive authority to the careful exposition and detailed analysis The book is much more than an exhortation to carers about how they should communicate It challenges them to understand themselves and shows how they might use themselves to engage with people with dementia Faith Gibson Emeritus Professor of Social Work Communication and the Care of People with Dementia is a key resource for students and professionals in health and social care work including those in such fields as social work nursing occupational therapy speech therapy physiotherapy clinical psychology geriatric medicine and the management of services **Subject Guide to Books in Print** ,2001
