Removing Obstacles To Economic Growth:

Removing Obstacles to Economic Growth Michael L. Wachter, Susan M. Wachter, 1984 **Removing Obstacles to Economic Growth** Michael L. Wachter, Susan M. Wachter, 1984 The focus of the volume is on potential policy remedies for the economic problems of slow real output and productivity growth **Removing Obstacles for African Entrepreneurs :** United States. Congress. House. Committee on International Relations. Subcommittee on Africa, Global Human Rights, and International Operations, 2006 **World Economic and Financial Surveys** International Monetary Fund, 1990-01-01 This paper discusses commodity prices might serve as a useful leading indicator of inflation based on the relative importance of flexible auction markets for the determination of these prices They thus may have a tendency to respond relatively quickly especially in response to monetary disturbances Estimation of alternative commodity price indexes in which the weights are chosen so as to minimize the residual variance in aggregate inflation regressions was not fully successful The commodity prices do have a useful role to play as an aid in predicting inflation so long as one is careful to interpret the relationships qualitatively and in the context of more general macroeconomic developments The ratio of consumer to commodity price movements changes over time and the relative price of commodities undergoes long sustained swings nonetheless the qualitative linkages are quite evident in the data Perhaps most importantly turning points in commodity price inflation frequently precede turning points in consumer price inflation for the large industrial countries as a group **From the Active to the Enabling State** E. Page, V. Wright, 2006-10-24 This book surveys the changing role of senior civil servants in Western Europe and explores whether they have kept their central role in government decision making Looking at these issues in comparative perspective the contributors provide an insight into the causes and consequences of the changing role of officials **The New Ordeal by Planning** NA NA, 2015-12-25 *Angeles National Forest (N.F.), Elsmere Solid Waste Management Facility, Angeles National Forest (N.F.) Land Adjustment Plan, Angeles County*, 1995 Responsiveness and Responsibility in the Euro Crisis Lisa Kriegmair, 2025-04-01 Conditionality has become a popular instrument for achieving policy change in the European Union EU EU conditionality in the Euro crisis epitomises the responsiveness responsibility dilemma that comes with increasing supranational influence on national policymaking governments find it increasingly difficult to responsively address the needs of their citizens and simultaneously fulfil their obligations vis vis supranational institutions Blame avoidance strategies are a way to mitigate this problem as they help governments shape public perceptions about who is to be held accountable for unpopular policies During the Euro crisis despite it being an easy target governments facing EU conditionality did not indiscriminately shift blame to the EU Instead they drew on a variety of blame avoidance strategies This book aims to shed light on this observed variation in governments strategy choices during the Euro crisis To do so it investigates the constraints that EU conditionality imposes on governments use of blame avoidance strategies and how governments chose specific strategies from the remaining blame avoidance toolkit **Population**

Change and Economic Development in East Asia Andrew Mason, 2001 The fifteen essays in this volume address from several viewpoints the question of what role population change played in East Asia's rapid economic development

Agrarian Reform & Economic Growth in Developing Countries, 1962 **Hearings**, 1957 **IMF - World Bank and Labor's Burdens in Africa** Kwamina Panford, 2001-08-30 Globalization the return to a multi party system of government and the policies advocated by the IMF and the World Bank have led to near revolutionary labor relations in Ghana As Panford shows these new social and economic forces have unleashed new and even contradictory labor policies and practices which are having profound social political and economic consequences Panford examines how the Ghana Constitution of 1992 led for the first time to new workers rights including the right to affiliate with any local national or international union In response to globalization and policies advocated by the IMF and the World Bank the Ghana government sought to resist worker demands for improved working and living conditions The situation was worsened by the privatization of state owned businesses and severe cuts in public employment In this environment of tense labor relations government hostility and weak employment Panford traces the ways workers are revitalizing unions and developing new sources of jobs and finances These include relatively aggressive systematic organization of women senior staff and the informal agricultural sector One of the most important initiatives of the unions is the creation of a workers trust to establish and finance worker owned enterprises The evidence presented by Panford indicates the failure of IMF and World Bank policies and he calls for new and viable policy alternatives with emphasis on enhancing Ghana's global competitiveness and meeting genuine development needs A thoughtful analysis that will be of interest to scholars and researchers involved with development and international economics labor relations in the developing world and the increased involvement of international financial institutions

Removing Tax Barriers to China's Belt and Road Initiative Michael Lang, Jeffrey Owens, 2018-11-27 Since its announcement in 2013 the Belt and Road Initiative BRI also known as the New Silk Road has gradually gained international recognition The project requires not only extensive investment in infrastructure and transportation but also an acceleration of the internationalization of multinationals and supply chains in Belt and Road countries The project will hopefully lead governments and businesses in countries along the Belt and Road to compete adopt best practices and improve transparency The BRI marks a national push by China to increase economic links to Southeast Asia Central Asia Russia the Baltic region Central and Eastern Europe Africa and Latin America which will have major consequences for the way that tax systems interact Emerging from the research conducted by the WU Global Tax Policy Center in cooperation with several Chinese universities this book offers fourteen policy relevant research papers prepared by international experts on the following issues The New Silk Road Will Tax Be a Facilitator or a Barrier Neo BEPS China's Prescription for International Tax Reform Embodying the Rationality of the Belt International Taxation Coordination under China's Belt and Road Strategy Tax Issues in the Main Belt and Road Countries and Industries of China's Outward Foreign Direct Investment Preferential Arrangements
