Renaissance Debate:

The Renaissance Debate Denys Hay, 1965 The Renaissance Debate Denys Hay, 1976-07-01 **Renaissance Debates on Rhetoric** Wayne A. Rebhorn, 2018-07-05 Throughout the European Renaissance authors famous and obscure debated the nature goals and value of rhetoric In a host of treatises handbooks letters and orations written in both Latin and the vernacular they attempted to assess the central role that rhetoric clearly played in their culture Was rhetoric a valuable tool of legitimation for rulers or a dangerous instrument of resistance to political and religious authority Would its employment maintain the social hierarchy or foster social mobility Was rhetoric merely the art of lies or was it a means to arrive at the only form of truth available to human beings In this fascinating volume Wayne A Rebhorn enables modern day readers to follow Renaissance thinkers as they struggle with these and other crucial questions about rhetoric Arranged chronologically the twenty five selections in this anthology most of which have never before appeared in English include key texts by Petrarch Valla Erasmus Vives Melanchthon Ramus Wilson Amyot and Bacon All the selections have been fully annotated and have headnotes providing essential background information In addition the volume features a biographical glossary of frequently mentioned historical and mythological figures a comprehensive index and a detailed bibliography **The Debate over the Origin of Genius during the Italian Renaissance** N.L. Brann, 2001-12-13 This study explores a prominent Italian Renaissance theme the origin of genius revealing how the coalescence of a Platonic theory of divine frenzy and an Aristotelian theory of melancholy genius eventually disintegrated under the force of late Renaissance events The Humanist-scholastic Debate in the Renaissance & Reformation Erika Rummel, 1995 Erika Rummel delves into the extensive primary sources of the times bringing the issues and their continuing legacy to light and making a valuable contribution to our understanding of the intellectual climate of early modern Europe **Debate Index** , 1919 The Humanist-Scholastic Debate in the Renaissance and the Reformation Erika Rummel, 2013-10-01 In the last half of the fifteenth century the classic Platonic debate over the respective merits of rhetoric and philosophy was replayed in the debate between humanists and scholastics over philology and dialectic The intense dispute between representatives of the two camps fueled many of the most important intellectual developments of the Renaissance and Reformation Erika Rummel delves into the extensive primary sources of the times bringing the issues and their continuing legacy to light and making a valuable contribution to our understanding of the intellectual climate of early modern Europe Rummel demonstrates how the passionately fought issue of the period changed focus as humanists such as Lorenzo Valla and Desiderius Erasmus applied philological skills to Scripture The controversy over form versus content entered a new phase pitting humanists trained as philologists against scholastic theologians trained as dialecticians Rummel shows us the framework for the debate still intact as the medium message dichotomy and traces its development into quarrels over qualification and entitlement in the academy as theologians and humanists disputed the intellectual and territorial boundaries of their respective disciplines Finally in the

first half of the sixteenth century we see the controversy entering the sphere of doctrinal dispute The question of authority became centered not only on professional competence but also on the more explosive issues of faith and Christian teaching This in depth study will reclaim the attention of those who believe these debates were merely personal and episodic Rummel s innovative research provides ample evidence that the polemics of the age arose from a fundamental conflict over methodology and the freedom to pursue research

Gender in Debate From the Early Middle Ages to the Renaissance T. Fenster, C. Lees, 2016-04-30 Modern scholarship generally treats the debate about women *querelle des femmes* as a late medieval phenomenon perhaps touched upon by canonic authors like Chaucer but truly begun by Christine de Pizan 1364-1429 and therefore primarily of English and French origin That emphasis has obscured the ways in which both writers were participating in a much wider much older cultural phenomenon with varied and intractable roots Articles in this collection explore how gender is put into debate in Anglo Saxon German Spanish and Italian cultures and they re-examine French and Middle English debate literature The collection is carefully planned to be accessible to students seeking an idea of the debate s motifs and contours while maintaining the high level of issue involvement necessary to commanding a more seasoned audience Contributors include Pamela Benson Alcuin Blamires

Margaret Franklin Roberta Krueger Clare Lees and Gillian Overing Ann Matter Karen Pratt Helen Solterer Julian Weiss and
Barbara Weissberger **Debate Index** Carnegie Library of Pittsburgh, 1911
