Renaissance Paris David Thomson,1984-01-01 *The Vision of Rome in Late Renaissance France* Margaret M. McGowan,2000-01-01 The French vision of Rome was initially determined by travel journals guide books and a rapidly developing trade in antiquities Against this background Margaret McGowan examines work by writers such as Du Bellay Grevin Montaigne and Garnier and by architects and artists such as Philibert de L Orme and Jean Cousin showing how they drew upon classical ruins and reconstructions not only to re enact past meanings and achievements but also more dynamically to interpret the present She explains how Renaissance Rome enhanced by the presence of so many signs of ancient grandeur provided a fertile source of artistic creativity Study of the fragments of the past tempted writers to an imaginative reconstruction of whole forms while the new structures they created in France revealed the artistic potency of the incomplete and the fragmentary The Louvre and Versailles Christopher Tadgell,2020-05-01 In tracing the evolution of the Louvre from fortress to palace and of Versailles from hunting domain to dynastic capital Dr Tadgell s detailed architectural analysis of many projects external and internal realised and unrealised is set in the context of the development of the medieval monarchy towards absolutism of the development of the medieval chateau towards precedents for the seat of absolutism and of the effect of the French monarchy s financial incontinence on the realisation of royal building ambitions In particular Tadgell challenges received opinion on the introduction of Hispano Burgundian court etiquette to French palace design relates the court front of Lescot s Renaissance Louvre to the iconography of apotheosis revises the current ordering of Francois Mansart s designs for the Louvre and reassesses the subsequent contribution of Claude Perrault to the completion of the east front in respect for the opinion of 17th and 18th century commentators After surveying the various phases of work for Louis XIV at Versailles he traces the evolution of Ange Jacques Gabriel s grand projet for rebuilding the town side of the palace for Louis XV noting the influence of Bernini on the definitive phase and he masters the intricacies of the incessant changes to the royal apartments which inhibited rebuilding Finally the book looks at the influence of the great French palaces on those seeking to emulate their ambition from Stockholm in the late 17th century to the deliriously opulent late 19th century palace of Ludwig II of Bavaria at Herrenchiemsee A wealth of illustrative material and supporting documents bring this comprehensive and authoritative text to life **The Renaissance** Iain Fenlon,1990-02-15 From the series examining the development of music in specific places during particular times this book looks at European countries at the time of the Renaissance concentrating on Italy It is to be published in conjunction with a television series **Catherine de'Medici** R J Knecht,2014-07-16 Catherine de Medici 1519 89 was the wife of one king of France and the mother of three more the last sorry representatives of the Valois who had ruled France since 1328 She herself is of preeminent importance to French history and one of the most controversial of all historical figures Despised until she was powerful enough to be hated she was in her own lifetime and since the subject of a Black Legend that has made her a favourite subject of historical

novelists most notably Alexandre Dumas whose *Reine Margot* has recently had new currency on film Yet there is no recent biography of her in English This new study by a leading scholar of Renaissance France is a major event Catherine a neglected and insignificant member of the Florentine Medici entered French history in 1533 when she married the son of Francis I for short lived political reasons her uncle was pope Clement VII who died the following year Now of no diplomatic value Catherine was treated with contempt at the French court even after her husband's accession as Henry II in 1547 Even so she gave him ten children before he was killed in a tournament in 1559 She was left with three young boys who succeeded to the throne as Francis II 1559-60 Charles IX 1560-74 and Henry III 1574-89 As regent and queen mother a woman and with no natural power base of her own she faced impossible odds France was accelerating into chaos with political faction at court and religious conflict throughout the land As the country disintegrated Catherine's overriding concern was for the interests of her children She was tireless in her efforts to protect her sons inheritance and to settle her daughters in advantageous marriages But France needed more Catherine herself was both peace loving and in an age of frenzied religious hatred unbigoted She tried to use the Huguenots to counterbalance the growing power of the ultra Catholic Guises but extremism on all sides frustrated her She was drawn into the violence Her name is ineradicably associated with its culmination the Massacre of St Bartholomew 24 August 1572 when thousands of Huguenots were slaughtered in Paris and elsewhere To this day no one knows for certain whether Catherine instigated the massacre or not but here Robert Knecht explores the probabilities in a notably level headed fashion His book is a gripping narrative in its own right It offers both a lucid exposition of immensely complex events with their profound impact on the future of France and also a convincing portrait of its enigmatic central character In going behind the familiar Black Legend Professor Knecht does not make the mistake of whitewashing Catherine but he shows how intractable was her world and how shiftily or intransigent the people with whom she had to deal For all her flaws she emerges as a more sympathetic and in her pragmatism more modern figure than most of her leading contemporaries
