Jewish Renaissance ,2005 The Mysterious and the Foreign in Early Modern England Helen Ostovich,Mary V. Silcox,Graham Roebuck,2008 The essays collected in this volume explore many of the most interesting and some of the more surprising reactions of English people in the early modern period to their encounters with the mysterious and the foreign In this period the small and peripheral nation of English speakers first explored the distant world from the Arctic to the tropics of the Americas to the exotic East and snowy wastes of Russia recording its impressions and adventures in an equally wide variety of literary genres Nearer home fresh encounters with the mysterious world of the Ottoman Empire and the lure of the Holy Land and of course with the evocative wonders of Italy provide equally rich accounts for the consumption of a reading and theatergoing public This growing public proved to be in some cases naive and gullible in others urbanely sophisticated in its reactions to otherness or frankly incredulous of travelers tales BOOK JACKET **Early Modern Histories of Time** Kristen Poole,Owen Williams,2019-10-11 Early Modern Histories of Time examines how a range of chronological modes intrinsic to the sixteenth and seventeenth centuries shaped the thought worlds of those living during this time and explores how these temporally indigenous models can productively influence our own working concepts of historical period This innovative approach thus moves beyond debates about where we should divide linear time and what to call the ensuing segments to reconsider the very concept of period Bringing together an eminent cast of literary scholars and historians the volume develops productive historical models by drawing on the very texts and cultural contexts that are their objects of study What happens to the idea of period when English literature is properly placed within the dynamic currents of pan European literary phenomena How might we think of historical period through the palimpsested nature of buildings through the religious concept of the secular through the demographic model of the life cycle even through the repetitive labor of laundering From theology to material culture to the temporal constructions of Shakespeare and from the politics of space to the poetics of typology the essays in this volume take up diverse complex models of sixteenth and seventeenth century temporality and contemplate their current relevance for our own ideas of history The volume thus embraces the ambiguity inherent in the word contemporary moving between our subjects sense of self emplacement and the historiographical need to address the questions and concerns that affect us today Contributors Douglas Bruster Euan Cameron Heather Dubrow Kate Giles Tim Harris Natasha Korda Julia Reinhard Lupton Kristen Poole Ethan H Shagan James Simpson Nigel Smith Mihoko Suzuki Gordon Teskey Julianne Werlin Owen Williams Steven N Zwicker **The Dangerous Philosophies of Michael Jackson** Elizabeth Amisu,2016-09-26 An essential companion to Michael Jackson s music films and books this work offers 21 original academic essays on all things Jackson from film music and dance to fashion culture and literature Going well beyond the average celebrity biography this comprehensive book looks at why Jackson is regarded as one of the most important musicians of our time offering insights into every facet of his art life and artistic afterlife It looks at the methods by which his

work was created presented received and appropriated discusses Jackson's varied personas along with his public and private appearances albums conceptual art short films and dance and considers his use of costume makeup and reinvention To help readers understand the phenomenon that was and is Michael Jackson the book focuses on Jackson's historical context through an analysis of his films songs and books examining him as an artist and shedding light on the political and ideological debates that surrounded him Not shying away from the controversial aspects of Jackson's life and legacy it also tackles questions of sexuality and racism gender and class comparing Jackson to artists ranging from J S Bach to Andy Warhol Through its examination of Jackson's entire catalog the work connects all the aspects of his art and life to exemplify and explain the performer's unparalleled influence in the 20th and 21st centuries **Art in England** Sara N. James, 2016-10-31

Art in England fills a void in the scholarship of both English and medieval art by offering the first single volume overview of artistic movements in Medieval and Early Renaissance England Grounded in history and using the chronology of the reign of monarchs as a structure it is contextual and comprehensive revealing unobserved threads of continuity patterns of intention and unique qualities that run through English art of the medieval millennium By placing the English movement in a European context this book brings to light many ingenious innovations that focused studies tend not to recognize and offers a fresh look at the movement as a whole The media studied include architecture and related sculpture both ecclesiastical and secular tomb monuments murals panel paintings altarpieces and portraits manuscript illuminations textiles and art by English artists and by foreign artists commissioned by English patrons **The Culture of Translation in Early Modern England and France, 1500-1660** T. Demetriou, R. Tomlinson, Tania Demetriou, 2015-03-18

This book explores modalities and cultural interventions of translation in the early modern period focusing on the shared parameters of these two translation cultures Translation emerges as a powerful tool for thinking about community and citizenship literary tradition and the classical past certitude and doubt language and the imagination **Architectural Rhetoric in Shakespeare and Spenser** Jennifer C. Vaught, 2019-09-23

Jennifer C. Vaught illustrates how architectural rhetoric in Shakespeare and Spenser provides a bridge between the human body and mind and the nonhuman world of stone and timber The recurring figure of the body as a besieged castle in Shakespeare's drama and Spenser's allegory reveals that their works are mutually based on medieval architectural allegories exemplified by the morality play *The Castle of Perseverance* Intertextual and analogous connections between the generically hybrid works of Shakespeare and Spenser demonstrate how they conceived of individuals not in isolation from the physical environment but in profound relation to it This book approaches the interlacing of identity and place in terms of ecocriticism posthumanism cognitive theory and Cicero's art of memory *Architectural Rhetoric in Shakespeare and Spenser* examines figures of the permeable body as a fortified yet vulnerable structure in Shakespeare's comedies histories tragedies romances and Sonnets and in Spenser's *Faerie Queene* and *Complaints* Lines Drawn across the Globe Mary C. Fuller, 2023-07-15 Around 1600 the English geographer and cleric Richard Hakluyt sought to honour his

nation by publishing a compilation of every document he could find relating to its voyages and trade beyond the boundaries of Europe The resulting collection of travel narratives royal letters ships logs maps lists and commentaries was published as *Principal Navigations Voyages Traffiques and Discoveries of the English Nation* Spanning two thousand pages and documenting more than two hundred voyages *Principal Navigations* is a window onto how the world appeared to England in 1600 *Lines Drawn across the Globe* unlocks Richard Hakluyt's work for modern readers Mary Fuller traces the history of the book's compilation and gives order and meaning to its famously diverse contents From Sierra Leone to Iceland from Spanish narratives of New Mexico to French accounts of the Saint Lawrence and Portuguese accounts of China Hakluyt's shaping of this many authored book provides a conceptual map of the world's regions and of England's real and imagined relations to them exchange alliance aggression extraction translation imitation always depending on the needs of the moment At the height of the British imperial project *Principal Navigations* came to be seen and valued as a founding document of English national identity It remains a crucial piece of evidence on the history of empire the nation and the world Yet after a century and a half of modern scholarship Hakluyt's book needs to be disentangled from the perspectives of the nineteenth century and read anew *Lines Drawn across the Globe* works across the scales of Hakluyt's collection to deliver a dazzling account of an editorial project that was fundamental to England's encounter with the world and the nation's idea of itself

Architectures of Festival in Early Modern Europe J.R. Mulryne, Krista De Jonge, Pieter Martens, R.L.M.

Morris, 2017-10-25 This fourth volume in the *European Festival Studies 1450-1700* series breaks with precedent in stemming from a joint conference Venice 2013 between the Society for European Festivals Research and the PALATIUM project supported by the European Science Foundation The volume draws on up to date research by a Europe wide group of academic scholars and museum and gallery curators to provide a unique intellectually stimulating and beautifully illustrated account of temporary architecture created for festivals of the sixteenth and seventeenth centuries together with permanent architecture pressed into service for festival occasions across major European locations including Italian French Austrian Scottish and German Appealing and vigorous in style the essays look towards classical sources while evoking political and practical circumstances and intellectual concerns from re-shaping and re-conceptualizing early sixteenth century Rome through providing for the well being and political allegiance of Medici era Florentines and exploring the teasing aesthetics of performance at Versailles to accommodating players and spectators in seventeenth century Paris and at royal and ducal events for the Habsburg French and English crowns The volume is unique in its field in the diversity of its topics and the range of its scholarship and fascinating in its account of the intellectual and political life of Early Modern Europe [Making Magic in Elizabethan England](#) Frank Klaassen, 2019-07-26 This volume presents editions of two fascinating anonymous and untitled manuscripts of magic produced in Elizabethan England the *Antiphoner Notebook* and the *Boxgrove Manual* Frank Klaassen uses these texts which he argues are representative of the overwhelming majority of magical practitioners to

explain how magic changed during this period and why these developments were crucial to the formation of modern magic The Boxgrove Manual is a work of learned ritual magic that synthesizes material from Henry Cornelius Agrippa the Fourth Book of Occult Philosophy Heptameron and various medieval conjuring works The Antiphoner Notebook concerns the common magic of treasure hunting healing and protection blending medieval conjuring and charm literature with materials drawn from Reginald Scot's famous anti magic work Discoverie of Witchcraft Klaassen painstakingly traces how the scribes who created these two manuscripts adapted and transformed their original sources In so doing he demonstrates the varied and subtle ways in which the Renaissance the Reformation new currents in science the birth of printing and vernacularization changed the practice of magic Illuminating the processes by which two sixteenth century English scribes went about making a book of magic this volume provides insight into the wider intellectual culture surrounding the practice of magic in the early modern period
