Social Ontology of Whoness Michael Eldred, 2018-10-26 How are core social phenomena to be understood as modes of being This book offers an alternative approach to social ontology Recent interest in social ontology on the part of mainstream philosophy and the social sciences presupposes from the outset that the human being can be cast as a conscious subject whose intentionality can be collective By contrast the present study insistently poses the crucial question of who the human being is and how they sociate as whos Such whoness is a clean cut departure from the venerable tradition of questioning whatness quidditas essence in philosophical thinking Casting human being hermeneutically as whoness opens up new insights into how human beings sociate in interplays of mutual estimation that are simultaneously social power plays Hitherto the ontology of social power in all its various guises has only ever been implicit This book makes it explicit The kind of social power prevalent in capitalist societies is that of the reified value embodied in commodities money capital co Reified value itself is constituted through an interplay of mutual estimation among things that reflects back on the power interplay among whos In this way a new critique of capitalism becomes possible

Texas Manuel L. English, 2011-06 After a 13 day siege by the Mexican Army in March 1836 the Alamo fell 185 Texans were killed while trying to defend this fortress The Mexican Army marched on to Goliad where they massacred 350 Texans The Texas Army led by General Sam Houston engaged and defeated General Antonio Lopez de Santa Anna's Mexican forces at the Battle of San Jacinto on April 21 1836 Located in present day Harris County Texas it was the decisive battle of the Texas revolution in a fight that lasted just eighteen minutes About 700 Mexican soldiers were killed and 730 captured while only nine Texans died This battle paved the way for the Republic of Texas to become a sovereign nation Sam Houston became a national celebrity and the Texans rallying cries Remember the Alamo and Remember Goliad became etched into history and legend With its sovereignty declared Texas existed as an independent nation state from 1836 to 1846 with a promising healthy economy It had trade relationships with several other nations especially Great Britain When Texas agreed to join the Union of the United States in 1846 it reserved the right under its constitution to secede from the

United States and once more become a nation in itself should its people so decide If this were to happen Texas could be divided into five individual states becoming once again the Republic of Texas The geography natural resources including petroleum agriculture ranching universities and industry of Texas enable it if necessary to be the independent nation that it reserved the right to be At different times by different Texans there have been discussions regarding the need and achievability of Texas seceding from the United States This was generally thought of as all talk and no one publically or seriously considered secession However some Texans now believe recent national politics producing a new federalism have pushed Texas too far from its traditions and beliefs and it s time for the rebirth of the Republic of Texas READ on

Renegades Trevor Boffone,2021 Renegades Digital Dance Cultures from Dubsmash to TikTok explores how hip hop culture principally music and dance is used to construct and perform identity and maintain a growing urban youth subculture This community finds its home on Dubsmash a social media app that lets users record short dance challenge videos before cross sharing them on different social media apps such as Instagram and Snapchat Author Trevor Boffone interrogates the roles that Dubsmash social media and hip hop music and dance play in youth identity formation in the United States These so called Dubsmashers privilege their cultural and individual identities through the use of performance strategies that reinforce notions of community and social media interconnectedness in the digital age These young people create a sense of identity and community that informs and is informed by hip hop culture As such the book argues that Dubsmash serves as a fundamental space to fashion contemporary youth identity To do this the book re appropriates the term Renegade to explain the nuanced ways that Dubsmashers take up visual and sonic space on social media apps to self fashion identity form supportive digital communities and exert agency to take up space that is often denied to them in other facets of their lives

Millennium: an end times novel Jeremy McCollum,2012-01-25 Brett Quinlan is shocked and disturbed by the sudden disappearance of Christians all over the world and he is forced to examine his own faltering faith Soon war earthquakes famine and disease ravage Earth like never before and the young lawyer and part time pastor finds himself leading a remnant and fighting for survival After organizing the Christian Safe House Network the new Global Government goes on the offensive and rounds up the Christians in work camps attempting to force them to give up their faith Brett comes to realize that the only hope for Christians to survive is to flee to the last safe place on Earth for people of faith the tiny embattled nation of Israel Israel doesn t seem to have a chance against the rest of the world but Brett and the Christians know the only true Ruler of this world is about to return defeat the Global Government and usher in a new era the Millennium **Race and Transnationalism in the Americas** Benjamin Bryce,David M. K. Sheinin,2021-05-04 National borders and transnational forces have been central in defining the meaning of race in the Americas Race and Transnationalism in the Americas examines the ways that race and its categorization have functioned as organizing frameworks for cultural political and social inclusion and exclusion in the Americas Because racial categories are invariably generated through reference to

the other the national community has been a point of departure for understanding race as a concept Yet this book argues that transnational forces have fundamentally shaped visions of racial difference and ideas of race and national belonging throughout the Americas from the late nineteenth century to the present Examining immigration exclusion indigenous efforts toward decolonization government efforts to colonize sport drugs music populism and film the authors examine the power and limits of the transnational flow of ideas people and capital Spanning North America Central America South America and the Caribbean the volume seeks to engage in broad debates about race citizenship and national belonging in the Americas

Lived Theology for the Whole of Life Lydia F. Johnson,2024-06-27 This book is an invitation to envision an experiential theology that interconnects the personal the interpersonal the communal the societal and the creational held together by a God who is not removed from creation but who is infused in the very life of all beings and things of the created world Since God has created and continues to create life that is good this prompts us to apply a consistently for life ethic to the issues which confront them in the present day Our for life faith commitments include our personal challenges with alienation fear

and forgiveness how we can live a consistently for life ethic in the face of social challenges such as poverty abortion violence racism and the othering of those who are different the climate crisis and the dangers posed today by imperialism war and contemporary forms of colonialism This attempt to weave together a for life ethic for the whole of life is especially influenced by non Western and indigenous theologies in particular the relational theology that has emerged from Pacific Islander theologians Biological Warfare Testing United States. Congress. House. Committee on Foreign Affairs. Subcommittee on Arms Control, International Security, and Science,1988 **Strategic Review** ,1994 dedicated to the advancement and understanding of those principles and practices military and political which serve the vital security interests of the United States **STAYING HUMAN** K. L. Stubblefield,2023-11-16 Staying Human Within this writing we discuss America s and particularly Black America s slide into decadence depravity and despair and how this will lead to its subjugation to the coming tyranny of Artificial intelligence If we look with an open mind we can see how technology has already led to the breaking down of morality and open rebellion against Godly principles that while not totally adhered to by this nation has been a hedge against all out wickedness Our attempt to at least guide our behavior with the precepts of holiness and godliness has allowed the American nation to receive blessings of wealth and freedom from the Most high That is now changing and God is slowly removing his protection from our nation America s power and influence whether for good or evil was given to us by God It is He who sets up nations and it is He who brings about their fall What is happening to the United States today has happened before with many other kingdoms There is no new thing under the sun Nor was there any respect of persons given from The Most High This nation will and is currently feeling the pains of all the other nations that has fallen before it And just like all the other kingdoms that fell such as Rome Greece Egypt and Babylon America s blind adherence to self promotion and narcissistic hubris has blurred her vision of her plight America is now a weak nation a nation that is living on so called past greatness Militarily America relies on enormous deficit spending on technology and advanced weaponry in order to maintain its power and influence worldwide Yet when engaged in actual combat with weaker nations America still suffers a bloody nose and a black eye Vietnam Somalia Iraq and Afghanistan are modern examples of America s inability to win wars outright These wars and excursions drain the coffers of this nation and force it into deficit spending in order to maintain the false illusion of wealth and power The scepter has been removed from America s hand The royal diadem no longer sits above her brow Yet she does not perceive its removal The once so called democratic form of government in America has now morphed into a technocratic corporate oligarchy The gap between rich and poor is now wider here than in any industrialized nation in the world This leads to those in power creating a culture to maintain their wealth and prevent uprising from the masses This will lead to the use of technological advances such as A I in order to quell any potential rebellions America your once proud land has become a nation of fornicators whiners complainers abusers murderers and politically corrupt parasites America s plight can be summed up in one Phrase ICHABOD THE GLORY OF THE LORD HAS

DEPARTED *Bombs, Bugs, Drugs, and Thugs* Loch K. Johnson, 2002 Johnson author of the acclaimed *Secret Agencies* and an experienced overseer of intelligence Foreign Affairs here examines the present state and future challenges of American strategic intelligence
