Revitalizing The Us Economy:

Revitalization and the U.S. Economy United States. Congress. House. Committee on Banking, Finance, and Urban Affairs. Subcommittee on Economic Stabilization, 1981 Revitalizing the U.S. Economy F. Stevens Redburn, Terry F. Buss, Larry Ledebur, 1986-04-22 This collection of essays explores the fundamental sources of U S economic performance and the public policies that sustain or weaken that performance Revitalizing the U S Economy explores such issues as stimulating and channelling private investment modifying rules of competition and reconceptualizing the economy and economic policy This book surveys industrial policy from a national perspective examines development policies at the subnational level analyzes issues in human resources policy and critiques the policy making process Revitalizing the U.S. Economy F. Stevens Redburn, Terry F. Buss, Larry C. Ledebur, 1986 REVITALIZATION AND THE U.S. ECONOMY , 1981 *Revitalizing America's manufacturers* United States. Congress. House. Committee on Small Business, 2003 **America's Great-Power Opportunity** Ali Wyne, 2022-04-07 It has become axiomatic to contend that U S foreign policy must adapt to an era of renewed great power competition The United States went on a quarter century strategic detour after the Cold War the argument goes basking in triumphalism and getting bogged down in the Middle East Now China and Russia are increasingly challenging its influence and undercutting the order it has led since 1945 How should it respond to these two formidable authoritarian powers In this timely intervention Ali Wyne offers the first detailed critique of great power competition as a foreign policy framework warning that it could render the United States defensive and reactive He exhorts Washington to find a middle ground between complacency and consternation selectively contesting Beijing and Moscow but not allowing their decisions to determine its own course Analyzing a resurgent China a disruptive Russia and a deepening Sino Russian entente Wyne explains how the United States can seize the great power opportunity at hand to manage all three of those phenomena confidently while renewing itself at home and abroad Also available as an audiobook **Revitalizing American Cities** Susan M. Wachter, Kimberly A. Zeuli, 2014 Revitalizing American Cities explores the historical regional and political factors that have allowed some small industrial cities to regain their footing in a changing economy and considers strategies cities can use for successful rebuilding *President's Economic Revitalization Program* United States. Congress. House. Committee on the Budget, 1980 **Revitalizing America's Economically-distressed Communities Hearing** United States. Congress. House. Committee on Small Business, 1998 **Revitalization of the American Passenger Fleet** United States. Congress. Senate. Committee on Commerce, Science, and Transportation. Subcommittee on Merchant Marine and Tourism, 1979 *Revitalizing America's Cities* Michael H. Schill, Richard P. Nathan, 1984-06-30 In many American cities middle and upper income people are moving into neighborhoods that had previously suffered disinvestment and decay The new residents renovate housing stimulate business and contribute to the tax base These benefits of neighborhood revitalization are in some cases achieved at a potentially serious cost the displacement of existing neighborhood residents by

eviction condominium conversion or as a result of rent increases Revitalizing America's Cities investigates the reasons why the affluent move into revitalizing inner city neighborhoods and the ways in which the new residents benefit the city It also examines the resulting displaced households Data are presented on displacement in nine revitalizing neighborhoods of five cities the most comprehensive survey of displaced households conducted to date The study reveals characteristics of displaced households and hardships encountered as a result of being forced from their homes Also featured is an examination of federal state and local policies toward neighborhood reinvestment and displacement including various alternative approaches for dealing with this issue Revitalizing America's Economically Distressed Communities United States. Congress. House. Committee on Small Business,1998 The Socio-economics of Conversion from War to Peace Lloyd J. Dumas,Amitai Etzioni,2016-09-17 This text discusses the economic social and political implications of redirecting labour and capital from a military based to a post Cold War economy Competitiveness and American Society Steven L. Goldman,1993 The claim that U S industry is in a crisis that it stands at a turning point in its competitiveness with foreign rivals seems on the face of it an objective description of the prevailing state of affairs But what does competitiveness mean when it is used to describe an entire industry an economy a nation What is the relationship between industrial competitiveness and the personal and social value placed on competition What are the social roots of competition that have made it an enduring American value How does the current competitiveness debate serve special interests seeking to preserve or extend their social power The essays presented in Competitiveness and American Society all written especially for this volume address these and related questions The answers they offer reveal the political character of the competitiveness debate as well as the complexity and ambiguity of the value judgments with which competitiveness issues are entangled The perspectives taken by the authors range from the austere economic through the political and managerial to the richly sociological The opening essay rejects the possibility let alone the factuality of a national competitiveness crisis the closing essay explicitly identifies the root causes of the crisis as national Other essays look to relationships among culture society and industry in the U S and Japan as factors shaping America's competitiveness crisis and the Western European response to that crisis One essay explores mechanisms that would allow the public to play a constructive role in managerial decision making another explores the complications that have followed from mandating the management of resources in accordance with social values The common denominator of all of the essays is an engagement with the role that social value judgments play in determining the competitiveness of individual firms For some this role is broad and definitive for others it is narrowly circumscribed Taken together the essays in Competitiveness and American Society establish the need for wider participation in the debate over the competitiveness of U S industry than has been held so far What is needed is a debate that addresses the quality of American life and the health of the industrial sector of the economy a debate that opens for public deliberation the changes in personal and social values and institutions that will be required to shape that interdependence
