

The Alligator River Story

3 pages | 561 words

I think the most unethical person in "The Alligator River Story" is Gregory. On my point of view Gregory is the most unethical person in the story. Because the story tells that Abigail and Gregory are lovers, as the man in the relationship he should have obtain the initiative and made his efforts to cross the river in able to be with her lover Abigail on the opposite shore. Although, Abigail is in loved with her lover, it is unethical for Gregory to just let Abigail take the effort and cross the river to be with him. Therefore, Gregory should recognize his responsibility as the lover of Abigail to protect her from harm.

"The Alligator River Story" is a tale in which reveal different unethical actions on its characters. In the story I have observed more than one unethical issue. The first one is the unethical issue on Gregory, as a man he should have taken the bigger responsibility to cross the river in able to be with her lover Abigail on the other shore of the river. The second one is the unethical issue on Sinbad when he asks Abigail to go with him in bed in exchange for the favor that Abigail raises to him.

Although, Sinbad had fulfilled his pledge to Abigail to take her across the river jam-packed with alligators it is unethical to take advantage on the desperation of Abigail to be with Gregory on the opposite shore of the river. Another unethical issue is the scenario in which Ivan rejected his friend Abigail to help her cross the river and be with Sinbad. As a friend Ivan should have give enough attention on the dilemma of Abigail, it is unethical for him to just refuse right away without trying to help Abigail.

If I were to give advice for Abigail, I will definitely tell her to be very careful on her actions. The focal point of my advice for Abigail will be on decision making. Although, desperate that she is Abigail should not be careless with her decision just to accomplish her dilemma. Abigail should think of what would be the best for her, she should think critically before she makes her decision. Also, Abigail should be aware on the consequences of her decision in able to make the most efficient decision, which will definitely protect her to any harm. With this I am confident that Abigail will be protected from harm and danger.

As a reader, I totally agree to the writer about the analysis of the unethical issues in the story of "The Alligator River Story". In the essay of the writer about this story, I totally agree to the writer on the answer that the most unethical person in "The Alligator River Story" is Gregory, which he supported with reliable reason that Gregory should be the one to cross the river as a man and as the lover of Abigail. Also, I totally agree to the writer that Gregory should be responsible as the man in the relationship...

rivers as examples A Story of Six Rivers considers the place of rivers in our world and emphasizes the inextricable links between history culture and ecology Peter Coates explores six rivers chosen as examples of the types of rivers found on the planet the Danube the second longest river in Europe the Spree which flows through Berlin the Po which cuts eastward across northern Italy the Mersey in northwest England the Yukon which runs through Canada and Alaska and the Los Angeles in California Creating a series of river biographies Coates gives voice to each of these bodies of water exploring how rivers nurture us provide cultural and economic opportunities and pose threats to our everyday lives He challenges recent narratives that paint rivers as the victims of abuse pollution and damage at the hands of humans focusing on change rather than devastation Describing how humans and rivers form a symbiotic and sometimes mutually destructive relationship Coates argues that rivers illustrate the limits of human authority and that their capacity to inspire us is as strong as our ability to pollute them An intimate portrait of the way these bodies of water inform our lives A Story of Six Rivers will make us reconsider the streams and tributaries we traverse each day
