Science Information Services Department,1971 Monthly Catalog of United States Government Publications ,2001 Tort Law and the Legislature TT Arvind,Jenny Steele,2012-12-21 The study of the law of tort is generally preoccupied by case law while the fundamental impact of legislation is often overlooked At a jurisprudential level there is an unspoken view that legislation is generally piecemeal and at best self contained and specific at worst dependent on the whim of political views at a particular time With a different starting point this volume seeks to test such notions illustrating among other things the widespread and lasting influence of legislation on the shape and principles of the law of tort the variety of forms of legislation and the complex nature of political and policy concerns that may lie behind their enactment the sometimes unexpected consequences of statutory reform and the integration not only of statutory rules but also of legislative policy into the operation of tort law today The apparently sharp distinction between judicially created private law principles and democratically enacted legislative rules and policies is therefore questioned and it is argued that to describe the principles of the law of tort without referring to statute is potentially highly misleading This book shows that legislation is important not only because of the way it varies or replaces case law but because it also deeply influences the intrinsic character of that law providing some of its most familiar characteristics The book provides the first extended interpretation of legislative intervention in the law of tort Each of the chapters by leading tort scholars deals with an aspect

of the influence of legislation on the law of tort While the nature sources and extent of legislative influence in personal injury law is an essential feature of the collection other significant areas of tort law are explored including tort in the context of commercial law labour law regulation and the welfare state Essays on the Compensation Act 2006 and Human Rights Act 1998 bring the current state of the interplay between tort politics and legislation to the forefront In all of these contexts contributors explore the deeper lessons that can be learned about the nature of the law of tort and its changing role and functions over time Cited with approval in the Singapore Court of Appeal by VK Rajah JA in See Toh Siew Kee vs Ho Ah Lam Ferrocement Pte Ltd and others 2013 SGCA 29
