Kar-Kraft Charlie Henry, 2017-06-15 The story of Kar Kraft began as did many others in the automotive industry with an axe to grind In 1963 Ford was seriously interested in purchasing Ferrari Ferrari was a legendary brand with considerable success in racing and Ford saw the acquisition as a great way to be instantly successful in

the racing arena When Enzo Ferrari realized that Ford would not give him complete control of the racing program he backed out of the deal late in the process Ford had spent millions in vetting and audits which then set in motion a vengeful response against Ferrari The result was the unthinkable Ford beat Ferrari at Le Mans Ford wanted to become competitive quickly but it did not have the race history or resources in house To remedy the situation Ford searched the U K for an independent company to help accelerate its race car development It first settled on Lola Cars and set up Ford Advanced Vehicles Later Ford brought its LeMans effort to the U S and the Kar Kraft relationship was established Although Kar Kraft was technically an independent company it really only had one customer Ford Special Vehicles Kar Kraft s story doesn t begin and end with the GT 40 that took the win away from Ferrari at Le Mans Ford expanded upon the program and organized an all out assault on racing in general Cars were prepared for Trans Am NASCAR NHRA and Can Am competition Street versions of the Boss 429 were assembled under its roof And fabled prototypes including the LID Mustang Boss 302 Maverick and Mach 2C were all assembled in Ford s contracted race shop And then out of the blue its doors closed for good on a cold day in 1970 History tells us that Ford won Le Mans the Daytona 500 and the Trans Am championship But it doesn t tell us how this was accomplished Author Charlie Henry a former Kar Kraft employee has enlisted the help of many of his former co workers to bring you the very first book ever published on Ford s all encompassing special projects facility Kar Kraft p p1 margin 0 0px 0 0px 0 0px font 12 0px Arial

The Early Laps of Stock Car Racing Betty Boles Ellison, 2014-09-17 The first organized sanctioned American stock car race took place in 1908 on a road course around Briarcliff New York staged by one of America's early speed maven's William K Vanderbilt Jr. A veteran of the early Ormond Daytona Beach speed trials Vanderbilt brought the Grand Prize races to Savannah Georgia the same year. What began as a rich man's sport eventually became the working man's sport finding a home in the South with the infusion of moonshiners and their souped up cars. Based in large part on statements of drivers, car owners and others garnered from archived newspaper articles this history details the development of stock car racing into a megasport chronicling each season through 1974. It examines the National Association for Stock Car Automobile Racing's 1948 incorporation documents and how they differ from the agreements adopted at NASCAR's organization meeting two months earlier. The meeting's participants soon realized that their sport was actually owned by William H G. Bill France and its consequential growth turned his family into billionaires. The book traces the transition from dirt to asphalt to superspeedways the painfully slow advance of safety measures and the shadowy economics of the sport. **Vintage**

If you are still an amateur you might crib on the fact that you aren't able to choose the best electric powered RC car. You need an assistance to choose the best suitable car to pose against your rivals and this isn't easy as it might sound. Electric RC cars are the ones which run on batteries. The electric batteries are in the form of battery packs. You have a choice while choosing the battery. The ready to run or the batteries which you need to build it yourself are available. The ready to run batteries are preferred as the work load becomes very minimal. Nitro RC cars are the ones which are tougher to maintain and they are quite expensive.

RC cars that run on battery packs are easier to purchase. It is specifically designed for amateurs or beginners. However, RC car fanatics who are quite experienced use these cars for variety and comparison purposes. RC electric cars are user friendly and they are available cheap in the market. This is their main advantage. The difference between the prices of a gasoline powered RC car and an electric RC car goes up to a hundred dollars.

Bronco Racing John Elkin, 2022-06-15 Stuffed with never before seen photography stories and race results, *Bronco Racing Ford's Legendary 4x4 in Off Road Competition* is the most definitive publication ever on this marque's racing success. In 1965, legendary builder and off road aficionado Bill Stroppe was one of the first to test the new Bronco in off road conditions. In March 1966, Stroppe introduced his racing Bronco to the press at the Bronco Roundup where racing ace Ray Harvick pounded the Santa Ana river bottom with his tuned machine to win Top Eliminator at the Four Wheel Drive Grand Prix at Riverside and the rest is history. Ford's Bronco dominated the off road racing scene and captured coveted titles in the Mint 400, Baja 500 and dirt racing's crowning achievement, the Mexican 1000 Baja 1000. As the first generation Bronco gave way to the second generation machine, 1978 racing Broncos continued to devour the competition until Ford pulled the plug on the rig in 1996. Complementing the legendary Broncos featured here, you will also hear the tales of their wranglers including Parnelli Jones, Rod Hall, Larry Minor, Shelby Hall, James Garner, Don Barlow, James Duff, Bill Rush and the aforementioned Ray Harvick and Bill Stroppe. The infamous mounts covered include Big Oly, Crazy Colt, Pony, Big Boss, Crazy Horse, Stove and Colt. Diligently penned by Bronco racing historian John Elkin, this book is the most comprehensive collection of historical accuracy ever authored on this subject. Pull your belts tight and wipe your goggles clean one last time with *Bronco Racing Ford's Legendary 4x4 in Off Road Competition*.
