**Forthcoming Books** Rose Army, 2001      **The Publishers Weekly**, 2002      *The Boom in Contemporary Israeli Fiction* Alan L. Mintz, 1997 Five essays explore facets of what Mintz calls the complexity of cultural reverberations in Israeli fiction of the past two decades      Bulletin of the Atomic Scientists, 1970-06 The Bulletin of the Atomic Scientists is the premier public resource on scientific and technological developments that impact global security Founded by Manhattan Project Scientists the Bulletin's iconic Doomsday Clock stimulates solutions for a safer world      **Witness & Legacy** Yehudit Shendar, Matthew Baigell, Minnesota Museum of Art, 1995 Witness Legacy is an examination of Holocaust related art produced by American artists with a variety of mediums painting sculpture photography graphic design needlepoint and multimedia this impressive collection of artwork attempts to relate the multitude of emotions that the Holocaust inspired with incredibly vivid and clear reproductions of each piece of art readers will be drawn to the stunning powerful and often disturbing pieces that are beautifully presenting in this touching account      **Historical Memory in Africa** Mamadou Diawara, Bernard Lategan, Jörn Rüsen, 2010-06-01 A vast amount of literature both scholarly and popular now exists on the subject of historical memory but there is remarkably little available that is written from an African perspective This volume explores the inner dynamics of memory in all its variations from its most destructive and divisive impact to its remarkable potential to heal and reconcile It addresses issues on both the conceptual and the pragmatic level and its theoretical observations and reflections are informed by first hand experiences and comparative reflections from a German Indian and Korean perspective A new insight is the importance of the future dimension of memory and hence the need to develop the ability to remember with the future in mind Historical memory in an African context provides a rich kaleidoscope of the diverse experiences and perspectives and yet there are recurring themes and similar conclusions connecting it to a global dialogue to which it has much to contribute but from which it also has much to receive      **Belonging without Othering** John A. Powell, Stephen Menendian, 2024-04-23 The root of all inequality is the process of othering and its solution is the practice of belonging We all yearn for connection and community but we live in a time when calls for further division along the well wrought lines of religion race ethnicity caste and sexuality are pervasive This ubiquitous yet elusive problem feeds on fears created inherited of the other While the much touted diversity equity and inclusion initiatives are undeniably failing and activists narrowly focus on specific and sometimes conflicting communities Belonging without Othering prescribes a new approach that encourages us to turn toward one another in unprecedented and radical ways The pressures that separate us have a common root our tendency to cast people and groups in irreconcilable terms or the process of othering This book gives vital language to this universal problem unveiling its machinery at work across time and around the world To subvert it John A. Powell and Stephen Menendian make a powerful and sweeping case for adopting a paradigm of belonging that does not require the creation of an other This new paradigm hinges on transitioning from narrow to expansive identities even if that means challenging seemingly benevolent

forms of community building based on othering As the threat of authoritarianism grows across the globe this book makes the case that belonging without othering is the necessary but not the inevitable next step in our long journey toward creating truly equitable and thriving societies The authors argue that we must build institutions cultivate practices and orient ourselves toward a shared future not only to heal ourselves but perhaps to save our planet as well Brimming with clear guidance sparkling insights and specific examples and practices Belonging without Othering is a future oriented exploration that ushers us in a more hopeful direction
