Road To War 1933 39

Robin Higham

Road To War 1933-39:

Two Roads to War Robin Higham, 2012-06-15 Noted aviation historian Robin Higham has written this comparative study of the evolution of the French and British air arms from 1918 to 1940 to determine why the Armée de l'Air was defeated in June 1940 but the Royal Air Force was able to win the battle over Britain in September. After analyzing the structure, men and matériel of the air arms and the government and economic infrastructure of both countries, he concludes that the French force was dominated by the Armée de Terre, had no suitably powerful aero engines and suffered from the chaos of French politics. In contrast, the independent RAF evolved into a sophisticated scientifically based force supported by consistent government practices. Higham's thorough examination, however, finds the British not without error. **The Road to War, 1933-1939** Andrew Hunt, 2000 This text uses a source-based approach to study the origins of World War II. Activities and end of chapter questions are pitched at Intermediate level 1 and 2, and exam structure and extended response questions are also covered. **The People's Dictatorship** Alan E. Steinweis, 2023-01-26 An up-to-date succinct and highly readable survey of a compelling subject, making accessible classic and recent research on Nazi Germany. *My Revision Notes: Edexcel AS/A-level History: Germany and West Germany, 1918-89* Barbara Warnock, 2017-05-22 Exam Board Edexcel Level AS/A level Subject History First Teaching September 2015 First Exam June 2016 Target success in Edexcel AS/A level History with this proven formula for effective structured revision: key content coverage is combined with exam preparation activities and exam style questions to create a revision guide that students can rely on to review, strengthen and test their knowledge. In the 3rd edition of this popular volume, Keith Eubank seeks answers to the questions that have plagued us: Why, after the ghastly ordeal of World War I, did Western powers undervalue the threat from Hitler? Why was there so much reluctance on the part of Britain and France to confront Germany? Why had Germany been permitted to rearm and to occupy independent nations without a struggle? What was the policy of appeasement? Why did the appeasers fail to perceive Hitler's intentions? In addition to a re-examination of these questions and an effort to dispel the enduring myths surrounding the history of this era, Keith Eubank has enhanced this new edition by including an analysis of the motivations and actions of central figures such as Neville Chamberlain and Joseph Stalin, as well as a re-assessment of Soviet policies in the light of recent research that reveals their leaders as far less

altruistic than some have imagined With an expanded conclusion a new photo section and an updated bibliographic essay this book remains an excellent brief overview of the period between 1918 and 1939 *The Origins of the Second World War: An International Perspective* Frank McDonough, 2011-09-22 Many major world events have occurred since the last key anniversary of the beginning of the Second World War and these events have had a dramatic impact on the international stage 9 11 the Iraq War climate change and the world economic crisis This is an opportune moment to bring together a group of major international experts who will offer a series of new interpretations of the key aspects of the origins of the Second World War Each chapter is based on original archival research and written by scholars who are all leading experts in their fields This is a truly international collection of articles with wide breadth and scope which includes contributions from historians and also political scientists gender theorists and international relations experts This is an important contribution to scholarly debate on one of the most important events of the 20th century and a subject of major interest to the general reader historians students and researchers policy makers and conflict prevention experts

geographical areas involved in the war as well as the nations remaining neutral wartime alliances and conferences significant civilian and military leaders and major ground naval and air operations This book is an excellent access point for students researchers and anyone wanting to know more about World War II **The Origins of the Second World War** R. J.

Overy,2014-01-14 The book explores the reasons why the Second World War broke out in September 1939 and not sooner and why a European war expanded into world war by 1941 The war has usually been seen simply as Hitler s war and yet the wider conflict that broke out when Germany invaded Poland was not the war that Hitler wanted He had hoped for a short war against Poland instead Britain and France declared war on Germany Richard Overy argues that any explanation of the outbreak of hostilities must therefore be multi national and he shows how the war s origins are to be found in the basic instability of the international system that was brought about by the decline of the old empires of Britain and France and the rise of ambitious new powers Italy Germany and Japan keen to build new empires of their own *Combined Statement of*

Receipts, Expenditures and Balances of the United States Government (varies Slightly) ,1939 **Combined Statement of Receipts, Expenditures and Balances of the United States Government** United States. Department of the Treasury. Bureau of Accounts,1941 Barbarism and Civilization Bernard Wasserstein,2009 History Stalin and the Cold War in

Europe Gerhard Wettig,2008 The Cold War was a unique international conflict partly because Josef Stalin sought socialist transformation of other countries rather than simply the traditional objectives This intriguing book based on recently accessible Soviet primary sources is the first to explain the emergence of the Cold War and its development in Stalin s lifetime from the perspective of Soviet policy making The book pays particular attention to the often neglected societal dimension of Soviet foreign policy as a crucial element of the genesis and development of the Cold War It is also the first to put German postwar development into the context of Soviet Cold War policy Stalin vainly tried to mobilize the Germans with slogans of national unity and then to discredit the West among the Germans by forcing the surrender of Berlin Further attempts to prevail deadlocked him into a confrontation with the newly united Western powers Comparing Stalin s internal statements with Soviet actions Gerhard Wettig draws original conclusions about Stalin s meta plans for the regions of Germany and Eastern Europe This fascinating look at Soviet politics during the Cold War provides readers with new insights into Stalin s willingness to initiate crisis with the West while still avoiding military conflict Combined Statement of the

Once war broke out in September 1930 the Nazi Party newspaper V lkischer Beobachter sent its first representative to London Soon afterwards German residents in London established an Ortsgruppe or local Nazi group which provided Party members with a place to congregate and support the new movement By 1933 more than 100 members belonged to the London group The Nazis in pre war London created a dilemma for the Foreign Office and the Home Office who were divided

as to how best to treat residents whose allegiance was to the German Reich Some felt that all Nazi organizations should be banned and Party Members should not be allowed to enter the UK Others including MI5 argued that it would be easier to keep track of Nazis if they were in country Previously unpublished German documents reveal the fate of German diplomats journalists and professionals many of whom were interned in Britain or deported to Nazi Germany once war broke out on 3 September 1939 Nazis in Pre War London is the first book to study the history of the Nazis in Britain An Appendix lists the details concerning the nearly 400 German Party members as well as Nazi journalists who spent time in Britain prior to the war

Russia in the Age of Wars, 1914-1945 Silvio Pons, Andrea Romano, 2000

The Soviets, the Munich Crisis, and the Coming of World War II Hugh Ragsdale, 2004-01-22 The Munich crisis is everywhere acknowledged as the prelude to World War II If Hitler had been stopped at Munich then World War II as we know it could not have happened The subject has been thoroughly studied in British French and German documents and consequently we know that the weakness in the Western position at Munich consisted in the Anglo French opinion that the Soviet commitment to its allies France and Czechoslovakia was utterly unreliable What has never been seriously studied in the Western literature is the whole spectrum of East European documentation This book targets precisely this dimension of the problem The Romanians were at one time prepared to admit the transfer of the Red Army across their territory The Red Army mobilised on a massive scale was informed that its destination was Czechoslovakia The Polish consul in Lodavia reported the entrance of the Red Army into the country In the meantime Moscow focused especially on the Polish rail network All of these findings are new and they contribute to a considerable shift in the conventional wisdom on the subject

Global Great Depression and the Coming of World War II John E. Moser, 2015-11-17 The Global Great Depression and the Coming of World War II demonstrates the ways in which the economic crisis of the late 1920s and early 1930s helped to cause and shape the course of the Second World War Historian John E Moser points to the essential uniformity in the way in which the world's industrialized and industrializing nations responded to the challenge of the Depression Among these nations there was a move away from legislative deliberation and toward executive authority away from free trade and toward the creation of regional trading blocs away from the international gold standard and toward managed national currencies away from chaotic individual liberty and toward rational regimentation in other words away from classical liberalism and toward some combination of corporatism nationalism and militarism For all the similarities however there was still a great divide between two different general approaches to the economic crisis Those countries that enjoyed easy unchallenged access to resources and markets the United States Great Britain the Soviet Union and France tended to turn inward erecting tariff walls and promoting domestic recovery at the expense of the international order On the other hand those nations that lacked such access Germany and Japan sought to take the necessary resources and markets by

force The interplay of these powers then constituted the dynamic of international relations of the 1930s have nots attempting to achieve self sufficiency through aggressive means challenging haves that were too distrustful of one another and too preoccupied with their own domestic affairs to work cooperatively in an effort to stop them
