Fantastic Fiction Allen A. Debus, 2013-03-25 From the first illustrated edition of Jules Verne's *Journey to the Center of the Earth* in 1867 dinosaurs and prehistory have fascinated readers. Writers would time and again come back to dinosaurs as an element of fantastic fiction often using these creatures through the venue of the written word to reflect the world of the writers' own time. This literary survey examines how paleoliterature originated, developed, and matured to the present day. Also discussed are the ways in which dinosaur fiction mirrors contemporary ideas about subjects such as geology, the Cold War, environmentalism, time travel, evolution, and bioengineering. Featured authors include Ray Bradbury, H. G. Wells, and Poul Anderson among others. In select cases the novelizations of movie scripts are also examined. An appendix provides brief summaries of deserving dinosaur texts. *Reimagining Dinosaurs in Late Victorian and Edwardian Literature* Richard Fallon, 2021-11-04 *Reimagining Dinosaurs* argues that transatlantic popular literature was critical for transforming the dinosaur into a cultural icon between 1880 and 1920.
