Robert J Flaherty A Biography:

Robert J. Flaherty Paul Rotha, 2015-09-30 Producer of *Nanook of the North* *Moana* *Man of Aran* and other pioneering documentaries between 1920 and 1940 Robert J Flaherty was America's first independent film artist Popular conceptions of Flaherty have led many either to worship his work and regard him in mythical terms or to debunk him as a fraud and castigate him for lack of a social consciousness Rarely has the attempt been made to understand him in the context of his times This captivating study presents Flaherty through the eyes of someone who knew him personally the brilliant British filmmaker and scholar Paul Rotha A colleague and close friend of Flaherty Rotha gives us a powerfully written biography that is a balanced and intimate look at the life and work of an American genius Editor Jay Ruby has restored the Rotha biography including a wealth of anecdotes letters and memoirs that begin to bring Robert Flaherty the man into focus An especially valuable dimension of this work is the appraisal of Flaherty the filmmaker from the viewpoint of a major figure of the British industry He summarizes in detail the critical response to Flaherty of his contemporaries about which only sketchy information has previously been available Flaherty regarded himself as an explorer as well as a filmmaker The exciting story of this biography takes us from the Arctic where Flaherty spent years filming *Nanook* to the South Pacific England the Aran Islands and finally the United States his courage and overarching vision resulted in an unprecedented recording of the human struggle and in documentary films that reached a wider audience than ever before [The Innocent Eye](#) Arthur Calder-Marshall, Paul Rotha, Basil Wright, 1966 *The World of Robert Flaherty* Richard Griffith, 1970 **Robert and Frances Flaherty** Robert J. Flaherty have tended toward the celebration of the legend rather than toward an examination of its sources or an assessment of its validity

The Vision of Robert Flaherty The Artist as Myth and Filmmaker is the first book length critical evaluation of Flaherty s approach working methods and achievements While this is not a biography Barsam s study rests on the proposition that no matter how hard one tries to separate an artist and his work they each inform the other Barsam examines both the form and the content of Flaherty s films with the intention of seeing more clearly the merits of Flaherty s films and thus understanding more deeply his achievements

Sutter,2015-12-15 Providence Canyon State Park also known as Georgia s Little Grand Canyon preserves a network of massive erosion gullies allegedly caused by poor farming practices during the nineteenth century It is a park that protects the scenic results of an environmental disaster While little known today Providence Canyon enjoyed a modicum of fame in the 1930s During that decade local boosters attempted to have Providence Canyon protected as a national park insisting that it was natural At the same time national and international soil experts and other environmental reformers used Providence Canyon as the apotheosis of human and particularly southern land abuse Let Us Now Praise

Famous Gullies uses the unlikely story of Providence Canyon and the 1930s contest over its origins and meaning to recount the larger history of dramatic human induced soil erosion across the South and to highlight the role that the region and its erosive agricultural history played in the rise of soil science and soil conservation in America More than that though the book is a meditation on the ways in which our persistent mental habit of separating nature from culture has stunted our ability to appreciate places like Providence Canyon and to understand the larger history of American conservation *The South Seas* Sean Brawley,Chris Dixon,2015-04-21 The South Seas charts the idea of the South Seas in popular cultural productions of the English speaking world from the beginnings of the Western enterprise in the Pacific until the eve of the Pacific War Building on the notion that the influences on the creation of a text and the ways in which its audience receives the text are essential for understanding the historical significance of particular productions Sean Brawley and Chris Dixon explore the ways in which authors and producers ideas about the South Seas were haunted by others who had written on the subject and how they in turn influenced future generations of knowledge producers The South Seas is unique in its examination of an array of cultural texts Along with the foundational literary texts that established and perpetuated the South Seas tradition in written form the authorsexplore diverse cultural forms such as art music theater film fairs platform speakers surfing culture and tourism **Race in American Film** Daniel Bernardi,Michael Green,2017-07-07 This expansive three volume set investigates racial representation in film providing an authoritative cross section of the most racially significant films actors directors and movements in American cinematic history Hollywood has always reflected current American cultural norms and ideas As such film provides a window into attitudes about race and ethnicity over the last century This comprehensive set provides information on hundreds of films chosen based on scholarly consensus of their importance regarding the subject examining aspects of race and ethnicity in American film through the historical context themes and people involved This three volume set highlights the most important films and artists of the era identifying films actors or characterizations that were considered racist were tremendously popular or hugely influential attempted to be progressive or some combination thereof Readers will not only learn basic information about each subject but also be able to contextualize it culturally historically and in terms of its reception to understand what average moviegoers thought about the subject at the time of its popularity and grasp how the subject is perceived now through the lens of history **Charles Crichton** Quentin Falk,2021-06-29 Charles Crichton is perhaps best remembered as the director of the unlikely blockbuster hit A Fish Called Wanda made when he was seventy seven years old But the most significant part of his career was spent at Ealing Studios in the 1940s and 1950s working on such beloved comedies as Hue and Cry The Lavender Hill Mob and The Titfield Thunderbolt Nonetheless as this pioneering study of Crichton s work reveals his filmmaking skills extended way beyond comedy to wartime dramas and film noir and his adaptability served him well when he made the transition into primetime television working on popular shows such as The Avengers Space 1999 and The Adventures of Black Beauty Featuring first hand
