Comparative Information Technology Joseph Zajda, Donna Gibbs, 2009-04-21 Comparative Information Technology Languages Societies and the Internet which is the fourth volume in the 12 volume series Globalisation Comparative Education and Policy Research offers a critique of the nexus between ICT and its impact on society individuals and educational institutions One of the most significant dimensions of globalisation has been the rapid development of information and communications technologies ICTs Our lives have been changed by this in numerous ways and the implications for education are enormous The ICTs have transformed the linguistic cognitive and visual dimensions of human communication as well as our perceptions of the self and social identity in the global culture The ICTs have facilitated the development of new dimensions of digital literacy such as blogging and sms messaging In this sense cyberlanguage continues to evolve by borrowing and adapting familiar words coining new expressions and embracing particular styles Gibbs Krause 2006 2007 However information technology can be both empowering and disempowering Individuals use the Internet notebooks and their BlackBerries and communicate via email If clothing is an extension of one's skin then the ICT has become an extension of our bodies In a globalised world linked through the Internet a formed identity can lead to a multiplicity of identities some contradictory to each other and some taking place primarily in the virtual communities of cyberspace

Collecting for the Curriculum Amy J. Catalano, 2015-09-28 If you're a librarian charged with collecting curriculum materials and children's literature to support the Common Core State Standards then this book the only one that offers explicit advice on collection development in curriculum collections is for you While there are many publications on the Common Core for school librarians and K 12 educators no such literature exists for curriculum librarians at the post secondary level This book fills that gap standing alone as a guide to collection development for curriculum librarians independent of the Common Core State Standards CCSS The book provides instruction and guidance to curriculum librarians who acquire and manage collections so you can develop a collection based on best practices The book begins with a primer on the CCSS and how curriculum librarians can support them Discussion of the Standards is then woven through chapters arranged by content area that share research based

practices in curriculum development and instruction to guide you in curriculum selection Material types covered include games textbooks children s literature primary sources counseling and nonfiction Additional chapters cover the management of curriculum collections testing collections and instruction and reference as well as how to support and collect for special needs learners Current practices in collection development for curriculum materials librarians are also reviewed The book closes with a discussion of the future of curriculum materials
