Cultural Change in Modern World History Peter N. Stearns,2018-12-13 In this innovative textbook leading world historian Peter Stearns analyses key examples of culture change from around the world highlighting what culture change involves and how it can be explained and assessed both historically and in the contemporary world Culture change is one of the most interesting and significant features of human society but until now there has been no book for the classroom which looks explicitly at this phenomenon Cultural Change in Modern World History covers different kinds and levels of culture change since 1500 from colonial culture contact in British India to modernization in Meiji Japan and changing attitudes towards gay marriage in the past decade considering how we should define culture change how to deal with causation and how to evaluate continuities and consequences Stearns addresses fundamental questions why do groups of people change their beliefs and values and what happens when they do Conversely why do some groups resist culture change and how do some manage to combine novel and more traditional cultural components Figuring out how better to understand why groups or societies change their minds or refuse to do so provides a crucial perspective on human behaviors and values As the first book to explore this important question Cultural Change in Modern World History is a ground breaking text for students of world history cultural history and anthropology **The Round Table** ,1917 *Bifurcation Analysis* Michiel Hazewinkel,R. Jurkovich,J.H.P. Pealinck,2012-12-06 Bifurcation theory has made a very fast upswing in the last fifteen years Roughly speaking it generalises to dynamic systems the possibility of multiple solutions a possibility already recognised in static systems physical chemical social when operating far from their equilibrium states It so happened that quite a few staff members of the Erasmus University Rotterdam were thinking along those lines about certain aspects of their disciplines To have a number of specialists and potential fans convene to discuss various aspects of bifurcation al thinking seemed a natural development The resulting papers were judged to be of interest to a larger public and as such are logically regrouped in this volume one in a series of studies resulting from the activities of the Steering Committee on Interdisciplinary Studies of the

Erasmus University Rotterdam Although the volume is perhaps multidisciplinary rather than interdisciplinary the interdisciplinary aspect being only latent as a soft interdisciplinary exercise the application of formal structures of one discipline to another it has a right to interdisciplinary existence This book could not have been published without a generous grant of the University Foundation of the Erasmus University Rotterdam which allowed the conference to be held and the resulting papers to be published that generosity is gratefully acknowledged

[Imperial Boundaries](#) Brian J. Boeck, 2010-02-17 Imperial Boundaries is a study of imperial expansion and local transformation on Russia's Don Steppe frontier during the age of Peter the Great Brian Boeck connects the rivalry of the Russian and Ottoman empires in the northern Black Sea basin to the social history of the Don Cossacks who were transformed from an open democratic multiethnic male fraternity dedicated to frontier raiding into a closed ethnic community devoted to defending and advancing the boundaries of the Russian state He shows how by promoting border patrol migration control bureaucratic regulation of cross border contacts and deportation of dissidents Peter I destroyed the

world of the old steppe and created a new imperial Cossack order in its place In examining this transformation Imperial Boundaries addresses key historical issues of imperial expansion the delegitimization of non state violence the construction of borders and the encroaching boundaries of state authority in the lives of local communities
