**The Incarnate God** Catherine Aslanoff,1995 A multilevel catechism intended for use in classrooms and study groups or individual edification and growth Two volume set with over 110 iconographic illustrations **Through the Iron Curtain** Silvia Scatena,Dietrich Sagert,2023-12-04 The history of the intertwined relationships woven by the Taiz Community amongst Christians of Eastern European countries in the second half of the last century has not yet been written Yet it is a fundamental chapter for understanding the unique international influence of the community The encounter with the different faces of a Christian youth beyond the Iron Curtain who in Taiz had their first experience of a unified European space was to become one of the main directions of the community s effort from the early 1960s The contributions of this volume intend to throw a first light on this story relying on a completely unpublished documentation and on the testimony of many protagonists involved in the construction of this unique continental and ecumenical network **A Long Walk To Church** Nathaniel Davis,2018-10-08 Making use of the formerly secret archives of the Soviet government interviews and first hand personal experiences Nathaniel Davis describes how the Russian Orthodox Church hung on the brink of institutional extinction twice in the past sixty five years In 1939 only a few score widely scattered priests were still functioning openly Ironically Hitler s invasion and Stalin s reaction to it rescued the church and parishes reopened new clergy and bishops were consecrated a patriarch was elected and seminaries and convents were reinstituted However after Stalin s death Khrushchev resumed the onslaught against religion Davis reveals that the erosion of church strength between 1948 and 1988 was greater than previously known and it was none too soon when the Soviet government changed policy in anticipation of the millennium of Russia s conversion to Christianity More recently the collapse of communism has created a mixture of dizzying opportunity and daunting trouble for Russian Orthodoxy The newly revised and updated edition addresses the tumultuous events of recent years including schisms in Ukraine Estonia and Moldova and confrontations between church traditionalists conservatives and reformers The author also covers battles against Greek Catholics Roman Catholics Protestant evangelists and pagans in the south and east the canonization of the last Czar the church s financial crisis and hard data on the slowing Russian orthodox recovery and growth Institutional rebuilding and moral leadership now beckon between promise and possibility Catholicity and the Church John Meyendorff,1983 Fr Meyendorff affirms that one cannot claim to be a Christian except through concrete membership in the catholic Church and through a continuous effort at manifesting the catholicity of the Church Mathematics and the Divine Teun Koetsier,Luc Bergmans,2004-12-09 Mathematics and the Divine seem to correspond to diametrically opposed tendencies of the human mind Does the mathematician not seek what is precisely defined and do the objects intended by the mystic and the theologian not lie beyond definition Is mathematics not Man s search for a measure and isn t the Divine that which is immeasurable The present book shows that the domains of mathematics and the Divine which may seem so radically separated have throughout history and across cultures proved to be

intimately related Religious activities such as the building of temples the telling of ritual stories or the drawing of enigmatic figures all display distinct mathematical features Major philosophical systems dealing with the Absolute and theological speculations focussing on our knowledge of the Ultimate have been based on or inspired by mathematics A series of chapters by an international team of experts highlighting key figures schools and trains of thought is presented here Chinese number mysticism the views of Pythagoras and Plato and their followers Nicholas of Cusa s theological geometry Spinozism and intuitionism as a philosophy of mathematics are treated side by side among many other themes in an attempt at creating a global view on the relation of mathematics and Man s quest for the Absolute in the course of history Mathematics and man s quest for the Absolute A selective history highlighting key figures schools and trains of thought An international team of historians presenting specific new findings as well as general overviews Confronting and uniting otherwise

relationship between new media and religion focusing on the digital era s impact on the Russian Orthodox Church A believer may now enter a virtual chapel light a candle through drag and drop send an online prayer request or worship virtual icons and relics In recent years however Church leaders and public figures have become increasingly skeptical about new media The internet some of them argue breaches Russia s spiritual sovereignty and implants values and ideas alien to Russian culture This collection examines how Orthodox ecclesiology has been influenced by its new digital environment such as the intersection of virtual religious life with religious experience in the real church the role of clerics on the Russian Web and the transformation of the Orthodox notion of sobornost catholicity asking whether and how Orthodox activity on the internet can be counted as authentic religious practice      **The New Encyclopaedia Britannica: Macropaedia : Knowledge in depth** ,1998

The Russian Orthodox Church Jane Ellis,2016-03-29 The Russian Orthodox Church has survived more than seventy years of the most brutal and sustained attempts to eradicate religion that has ever been Weakened but spiritually alive it is confronted by the demands of a ravaged exhausted society Can it however find the resources and energy to respond to these demands Jane Ellis describes the developments and problems in the Russian Orthodox Church under glasnost and especially

since the new freedoms were granted following the millennium celebrations of 1988 New opportunities mean new challenges and demand huge new resources Old problems in the form of close State and KGB contacts remain and new problems in the form of competition from other denominations and sects arise Traditionally the Orthodox Church has enjoyed a symphony with the State However are unhealthy links with the KGB and the communist past still damaging the Church Is it in danger of becoming a state church

**The Legal Status of the Church in Soviet Russia** Vladimir Gsovski, 1939 **The Congress of Vienna and its Legacy** Mark Jarrett, 2013-09-30 Two centuries ago Europe emerged from one of the greatest crises in its history In September 1814 the rulers of Europe and their ministers descended upon Vienna to reconstruct Europe after two decades of revolution and war with the major decisions made by the statesmen of the great powers The territorial reconstruction of Europe however is only a part of this story It was followed in the years 1815 to 1822 by a bold experiment in international cooperation and counter revolution known as the Congress System The Congress of Vienna and subsequent Congresses constituted a major turning point the first genuine attempt to forge an international order to bring long term peace to a troubled Europe and to control the pace of political change through international supervision and intervention In this book Mark Jarrett argues that the decade of the European Congresses in fact marked the beginning of our modern era with a profound impact upon the course of subsequent developments Based upon extensive research this book provides a fresh look at a pivotal but often neglected period
