As Alice remarked in *Through the Looking-Glass*:

'What curious attitudes he goes into!'

'Not at all,' said the King. 'He's an Anglo-Saxon Messenger – and those are Anglo-Saxon attitudes. He only does them when he's happy.'

Between English and Russian literary attitudes there is a similar looking-glass difference: they may appear to be the same thing, save that, if the Anglo-Saxon attitudinises when he's happy, then the Russian usually does so when he's not. But the fact remains that every literary attitude involves some degree of attitudinising. The chief difference between one cultural response and another to literary attitudes is often no more than a degree of seriousness. The Russian response to literature demands of the writer that his social commitment should be manifest and his political position unambiguous. Russian literary attitudes are frequently surrounded by fierce public debate and far from disinterested official concern. They are never frivolous. They are often tragically enmeshed with government policy. In certain notorious cases they have become the pretext for persecution, exile or death.

We have grown used to expecting Russian writing to encroach on areas of learning and experience which are not, strictly speaking, the concern of literature. Politics, sociology, philosophy, psychology, religion, not to mention history or economics, are areas of knowledge which Russian literature has readily assimilated. It is arguable that the history of the Russian intelligentsia, perhaps even the history of Russian national consciousness, was first chronicled in the pages of the Russian novel. What has therefore chiefly excited Russian sensibilities in determining standards of literary excellence has been not how such-and-such is written, nor whether it should be written in this way or that, but its relevance to living experience, its concern for reality. As mere Anglo-Saxons we may have our own preferences and dislikes in assessing the greatest representatives of Russian writing, and we may assume that historical and geographical distance makes it relatively easy for us to pass objective judgement on the phenomenon, but it is still essential for us to realise that attitude as well as
