Russian Orthodoxy On The Eve Of Revolution:

Russian Orthodoxy on the Eve of Revolution Vera Shevzov, 2004 Explores sacred community and how it functioned or sometimes did not in Russian Orthodoxy before the fateful historic events of the 1917 Russian Revolution **Tolstoy and the Religious Culture of His Time** Inessa Medzhibovskaya, 2009-07-15 The first book length study on the subject in any language Tolstoy and the Religious Culture of His Time treats Tolstoy's experience as a massive philosophical and religious project rather than a crisis laden tragedy Inessa Medzhibovskaya explains the evolution of Tolstoy's religious outlook based on his ongoing dialogue with the tradition of conversion in Europe and Russia as well as on the demands of his own heart mind and spirit The author contextualizes Tolstoy's conversion comparing his pattern of religious conversion with that of other notable religious converts Saint Paul Saint Augustine Luther Pascal Rousseau as well with that of Tolstoy's countrymen Pushkin Gogol Chaadaev Stankevich Belinsky Herzen and Dostoevsky Stressing the importance of the religious culture of his time for Tolstoy this study investigates the nineteenth century debates that inspired and repelled Tolstoy as he weighed arguments for or against faith in his dialogues with the culture of his time covering widely differing fields and disciplines of experimental knowledge The author considers German Romantic philosophy the natural sciences pragmatist religious solutions theories of social progress and evolution and the historical school of Christianity Medzhibovskaya stresses the fact that influential intellectual currents were as important to Tolstoy as believers and nonbelievers were from and beyond his immediate environment The author argues that in this sense Tolstoy's conversion emerges as deeply intertextual and this surprising discovery should not diminish our trust in Tolstoy's sincerity during his religious evolution which occurred both spontaneously as well as deliberately The polyphony of discreet spiritual moments that Tolstoy created by fusing in his narratives of conversion religious and artistic realms is arguably his greatest contribution to spiritual autobiography

The Tsar's Foreign Faiths Paul W. Werth, 2014-03-21 The Russian Empire presented itself to its subjects and the world as an Orthodox state a patron and defender of Eastern Christianity Yet the tsarist regime also lauded itself for granting religious freedoms to its many heterodox subjects making religious toleration a core attribute of the state's identity The Tsar's Foreign Faiths shows that the resulting tensions between the autocracy's commitments to Orthodoxy and its claims to toleration became a defining feature of the empire's religious order In this panoramic account Paul W Werth explores the scope and character of religious freedom for Russia's diverse non Orthodox religions from Lutheranism and Catholicism to Islam and Buddhism Considering both rhetoric and practice he examines discourses of religious toleration and the role of confessional institutions in the empire's governance He reveals the paradoxical status of Russia's heterodox faiths as both established and foreign and explains the dynamics that shaped the fate of newer conceptions of religious liberty after the mid nineteenth century If intellectual change and the shifting character of religious life in Russia gradually pushed the regime towards the acceptance of freedom of conscience then statesmen's nationalist sentiments and their fears of politicized religion impeded this development Russia's religious order thus remained beset by contradiction on the eve of the Great War Based on archival research in five countries and a vast scholarly literature The Tsar's Foreign Faiths represents a major contribution to the history of empire and religion in Russia and to the study of toleration and religious diversity in Europe

The Dangerous God Dominic Erdozain, 2017-10-02 At the heart of the Soviet experiment was a belief in the impermanence of the human spirit souls could be engineered conscience could be destroyed The project was in many ways chillingly successful But the ultimate failure of a totalitarian regime to fulfill its ambitions for social and spiritual mastery had roots deeper than the deficiencies of the Soviet leadership or the chaos of a command economy Beneath the rhetoric of scientific communism was a culture of intellectual and cultural dissidence which may be regarded as the prehistory of perestroika This volume explores the contribution of Christian thought and belief to this

culture of dissent and survival showing how religious and secular streams of resistance joined in an unexpected and powerful partnership The essays in *The Dangerous God* seek to shed light on the dynamic and subversive capacities of religious faith in a context of brutal oppression while acknowledging the often collusive relationship between clerical elites and the Soviet authorities Against the Marxist notion of the ideological function of religion the authors set the example of people for whom faith was more than an opiate against an enduring mythology of secularization they propose the centrality of religious faith in the intellectual political and cultural life of the late modern era This volume will appeal to specialists on religion in Soviet history as well as those interested in the history of religion under totalitarian regimes *Law and the Christian Tradition in Modern Russia* Paul Valliere,Randall Poole,2021-09-15 This book authored by an international group of scholars focuses on a vibrant central current within the history of Russian legal thought how Christianity and theistic belief generally has inspired the aspiration to the rule of law in Russia informed Russian philosophies of law and shaped legal practices Following a substantial introduction to the phenomenon of Russian legal consciousness the volume presents twelve concise non technical portraits of modern Russian jurists and philosophers of law whose thought was shaped significantly by Orthodox Christian faith or theistic belief Also included are chapters on the role the Orthodox Church has played in the legal culture of Russia and on the contribution of modern Russian scholars to the critical investigation of Orthodox canon law The collection embraces the most creative period of Russian legal thought the century and a half from the later Enlightenment to the Russian emigration following the Bolshevik Revolution This book will merit the attention of anyone interested in the connections between law and religion in modern times **Russian Bible Wars** Stephen K. Batalden,2013-03-14 This first comprehensive history of the Russian Bible demonstrates how scriptural translation exposed serious divisions in modern Russian religious culture **Modern Occultism in Late Imperial Russia** Julia Mannherz,2012-10-15 *Modern Occultism in Late Imperial Russia* traces the history of occult thought and practice from its origins in private salons to its popularity in turn of the century mass culture In lucid prose Julia Mannherz examines the ferocious public debates of the 1870s on higher dimensional mathematics and the workings of seance phenomena discusses the world of cheap instruction manuals and popular occult journals and looks at haunted houses which brought together the rural settings and the urban masses that obsessed over them In addition Mannherz looks at reactions of Russian Orthodox theologians to the occult In spite of its prominence the role of the occult in turn of the century Russian culture has been largely ignored if not actively written out of histories of the modern state For specialists and students of Russian history culture and science as well as those generally interested in the occult Mannherz s fascinating study remedies this gap and returns the occult to its rightful place in the popular imagination of late nineteenth and early twentieth century Russian society *Late Tsarist Russia, 1881-1913* Beryl Williams,2020-09-17 This book brings together the large volume of work on late Tsarist Russia published over the last 30 years to show an overall picture of Russia under the last two tsars before the war brought down not only the Russian empire

but also those of Germany Austria Hungary and Turkey It turns the attention from the old emphases on workers revolutionaries and a reactionary government to a more diverse and nuanced picture of a country which was both a major European great power facing the challenges of modernization and industrialization and also a multi ethnic and multi confessional empire stretching across both Europe and Asia

Question and Russian Imperial Governance Elena I. Campbell,2015-01-26 A major contribution to the history of nationality religious identity and governance in late imperial Russia William G Rosenberg coauthor of *Processing the Past* From the time of the Crimean War through the fall of the Tsar the question of what to do about the Russian empire's large Muslim population was a highly contested issue among educated Russians both inside and outside the government As formulated in the nineteenth and early twentieth centuries the Muslim Question comprised a complex set of ideas and concerns that centered on the problems of reimagining and governing the tremendously diverse Russian empire in the face of the challenges presented by the modernizing world Basing her analysis on extensive research in archival and primary sources Elena I Campbell reconstructs the issues debates and personalities that shaped the development of Russian policies toward the empire's Muslims and the impact of the Muslim Question on the modernizing path that Russia would follow Readable original and endlessly interesting Campbell's book deserves the very highest praise *Journal of Islamic Studies*

Campbell's book shows how profound official Islamophobia paradoxically led to the preservation of earlier confessional structures grudging non interference with the spiritual and social life of most Muslim communities a restraining hand on the actions if not the rhetoric of Orthodox missionaries and a certain uneasy toleration Slavonic and East European Review A major contribution to the understanding of Russia's Muslim Question past and present Recommended Choice
