Perspectives on Russian Foreign Policy (Enlarged Edition) Stephen J. Blank, Strategic Studies Institute, U.S. Army War College, 2013-05-21 The essays gathered here represent a panel at SSI s annual Russia conference in 2011 They focus on the analysis of Russian foreign policy both on its material side or actual conduct as well as on the cognitive bases of Russian thinking about international affairs and Russian national security They span much of the gamut of that foreign policy and also show its strong linkages to the Russian historical tradition and to the imperatives of Russian domestic development

Denying History: The United States' Policies Toward Russia in the Caspian Sea Region, 1991-2001. Bradley Axmith, 2013-08 The historical record seen through Offensive Realism presents evidence illustrating that the United States approach toward the Caspian Sea region between 1991 and 2001 was governed by idealistic principles rather than balance of power considerations That was led by the false notion that democratic Russia would act in accordance with US goals The United States denied the competitive nature of international politics refusing to criticise abuses by Moscow in the region and failing to intervene when US interests were marginalised The US failed to prevent Russia from refashioning conditions conducive to the re absorption of the Caucasus and Central Asia as a sphere of influence nor did it account for China s expanded role and trajectory as a challenge to US power This analysis shows for example that Russia s proximity and willingness to use force exceeded the

capabilities of the US use of its global predominance to shape regional events *Perspectives on Russian Foreign Policy*, 2012 These chapters aimed at analyzing not just the day to day diplomacy but some of the deeper structures of Russian foreign policy both their material basis in actual policy and the cognitive structures or mentality that underlies it P v The NATO-Russia Partnership Stephen Blank, 2006 Four years after the NATO Russia Council came into being it represents a picture in ambivalence and incomplete realization of partnership This monograph focuses on the Russian side of this growing estrangement It finds the Russian roots of this ambivalence or alienation in the increasingly visible manifestations of an autocratic and neo imperial Russian state and foreign and defense policy These strong trends in Russian policy inhibit the formation of a genuine security partnership that can provide for Eurasian security in the face of multiple contemporary threats Indeed it is debatable whether Russia really wants a comprehensive partnership with NATO The author examines Russia s perspectives in this relationship and this growing estrangement between the West and Russia tracing it to trends in Russian domestic defense and foreign policies Baku-Tbilisi-Kars Railroad: The Iron Ground for the Silk Road Mahir Humbatov, Nivedita Das Kundu, Murat Yulek, 2014-09-09 After centuries long neglect land transportation corridors connecting Asia and Europe are on the brink of a re awakening From a level of practically zero a revived network of these land corridors is likely to garner a considerable share of the freight revenues emanating from increasing trade between Asia and Europe Therefore there is competition among major players for control in shaping of the Asia Europe railway transportation corridors However possibilities for cooperation exist as well In this book transportation corridors joining Asia and Europe are examined and evaluated at a general level Moreover the Baku Tbilisi Kars railway project is assessed from the perspectives of the 3 countries involved Azerbaijan Georgia and Turkey Further it has been proved that the road will strengthen regionalism and will increase the prospects for the three host countries to become a part of the corridors that are being developed globally Besides Baku Tbilisi Kars railway road will play a key role in helping to revive the Silk Road connection shaping common vision and facilitating in transforming the region The BTK transport corridor will be able to stimulate the development of non oil economy reviving the non oil trade and economic activities in the region restoring the historical position of the region as a commercial hub along the ancient silk ways By 2025 this region is expected to become prosperous financial sector for which comprehensive strategy is being formulated by the regional countries for sustainable growth

After Two Wars: Reflections on the American Strategic Revolution in Central Asia, 2005 Since September 11 2001 the United States has fought two wars in Iraq and Afghanistan In these wars the United States has accomplished or more precisely revealed a strategic revolution Most notably U S led coalitions sustained forces in Central Asia and the Caucasus over an extended period by sea and air for the rst time in history Thus American leaders and commanders revealed that the new military capabilities hitherto associated with the Revolution in Military Affairs RMA could be deployed anywhere in the world that U S forces would and could be optimized for global power projection capabilities and that new theaters like

Central Asia were of considerable strategic importance to Washington Their actions rejected a parallel to the ongoing Revolution in Strategic Affairs RSA that reaffirmed the importance of that area as a potential theater of strategic operations a term taken originally from Soviet military thought ... Towards a New Russia Policy Stephen Blank, 2008 It is obvious that U S Russian relations and East West relations more broadly have recently deteriorated Yet analyses of why this is the case have often been confined to American policy The author examines some of the key strategic issues at stake in this relationship and traces that decline to Russian factors which have been overlooked or neglected At the same time he has devoted considerable time to recording some of the shortcomings of U S policy and recommending a way out of the growing impasse confronting both sides **Annual Report** Woodrow Wilson International Center for Scholars, 2002 **Russia and Arms Control** Stephen Blank, 2009 Russo American relations are generally acknowledged to be at an impasse Arms control issues feature prominently in that conflicted agenda Since the outbreak of the Russo Georgian war in August 2008 both Russia and the U S have further hardened positions and raised tensions apart from the war itself and Russia's quite evident refusal to abide by its own cease fire terms Nevertheless and for better or worse arms control and its agenda will remain at the heart of the bilateral Russo American relationship for a long time Arms control and disarmament issues are quintessentially political as well as military issues that are among the most critical components of the bilateral relationship and regional security in both Europe and Asia For these reasons neither the political nor the military aspect can be divorced from the other And for these same reasons we cannot refuse to participate in the bilateral effort to resolve those issues **Slavic Review**, 2005 **BISNIS Bulletin**, 2000 *International Bibliography Of Economics* 2003 Compiled by the British Library of Political and Economic Science, 2004-12 First published in 1952 the International Bibliography of the Social Sciences anthropology economics political science and sociology is well established as a major bibliographic reference for students researchers and librarians in the social sciences worldwide Key features Authority Rigorous standards are applied to make the IBSS the most authoritative selective bibliography ever produced Articles and books are selected on merit by some of the world's most expert librarians and academics Breadth today the IBSS covers over 2000 journals more than any other comparable resource The latest monograph publications are also included International Coverage the IBSS reviews scholarship published in over 30 languages including publications
