- In 1903, Russian Marxists split into two groups. Moderate revolutionaries were known as Mensheviks. The more radical Bolsheviks- were a small group of revolutionaries willing to sacrifice everything for change. Led by Vladimir Lenin-(1870-1924)he fled Russia in early 1900 to avoid arrest. He maintained contact with the Bolsheviks and waited until he could safely return.

Oittinen,2023-05-17 This book discusses Marx's relations with Russia which have always been ambivalent. In his youth and indeed a good way into the 1860s Marx might even be called a Russophobe. Around 1870 however his views on Russia undergo a change: he becomes acquainted with a new kind of Russian radical and revolutionary movement and begins to study Russian. It becomes clear that Marx begins to feel that Russia is some kind of a touchstone for his theories. Offering a new and original interpretation of Marx's theoretical development, Marx's Russian Moment analyzes the following themes: Marx's concept of ideology as developed in the German Ideology and its fortunes in Russia; Marx's encounter with Bakunin and Russian nihilism; Marx's and Engels's studies of primitive societies; Engels's views of the developmental perspectives of small Slavic nations and Marx's views on Finland the Russian Grand Duchy. Considering these topics as case studies, Oittinen argues that Marx's encounter with Russia substantially influenced Marx's and Engels's views not just on current political and economic matters but also on a philosophical and methodological level. Marxism and the Philosophy of Science Helena

Sheehan,2018-01-23 Skillfully deploying a large cast of characters, Sheehan retraces the development of Marxist philosophy of science through detailed and highly readable accounts of the debates that have characterized it. Approaching Marxism from the perspective of the philosophy of science, Sheehan shows how Marx's and Engels's ideas on the development and structure of natural science had a crucial impact on the work of early twentieth-century natural philosophers, historians of science, and natural scientists. From the ideas of Marx and Engels to those of the Marxist theoreticians of the Second International to the debates within Russian Marxism up to World War II, Sheehan masterfully surveys the history of Marxist philosophy of science, concluding with a close analysis of the development of the debate among non-Soviet Marxists, placing particular emphasis on the contributions of leading British Marxists in the 1930s. **A History of Russian Thought**

William Leatherbarrow, Derek Offord,2010-04-01 The history of ideas has played a central role in Russia's political and social history. Understanding its intellectual tradition and the way the intelligentsia have shaped the nation is crucial to understanding the Russia of today. This history examines important intellectual and cultural currents: the Enlightenment, nationalism, nihilism, and religious revival, and key themes: conceptions of the West and East, the common people, and attitudes to capitalism and natural science in Russian intellectual history. Concentrating on the Golden Age of Russian thought in the mid-nineteenth century, the contributors also look back to its eighteenth-century origins in the flowering of culture following the reign of Peter the Great and forward to the continuing vitality of Russia's classical intellectual tradition in the Soviet and post-Soviet eras. With brief biographical details of over fifty key thinkers and an extensive bibliography, this book provides a fresh, comprehensive overview of Russian intellectual history. **The Russian Revolution** Sheila Fitzpatrick,2001 The Russian Revolution had a decisive impact on the history of the twentieth century. Now following the collapse of the Soviet regime and the opening of its archives, it is possible to step back and see the full picture. In this classic work, the author incorporates data from archives that were previously inaccessible not only to Western but also to Soviet historians as well as

drawing on important recent Russian publications such as the memoirs of one of the great survivors of Soviet politics Vyacheslav Molotov Impeccable in its scholarship and objectivity the book tells a gripping story of a Marxist revolution that was intended to transform the world visited enormous suffering on the Russian people and like the French Revolution before it ended up by devouring its own children In a concluding section that will be of great interest to scholars in the field as well as the general reader the author treats the Stalinist Great Purges as the last act of the drama of the Russian Revolution

Varieties of Marxism Shlomo Avineri, 2012-12-06 The essays included in this volume are based on papers delivered at the International Symposium on Varieties of Marxism held at the Van Leer Jerusalem Foundation on June 16 19 1974 and dedicated to the memory of George Lichtheim When the idea of such a symposium was first raised the organizers planned to have George Lichtheim as one of the main speakers at the event In our last and brief meeting in London I suggested this to him and Lichtheim gave his consent to attend the symposium though at that time no date was yet fixed His tragic death a few months later left a gap not only in the program of the symposium but in Marxist studies generally it was felt that perhaps one way of paying tribute to his contribution to the study of a subject so near to his mind would be to name the symposium in his memory and devote an introductory paper to an intellectual portrait of George Lichtheim as an historian of ideas The volume as published includes all papers delivered at the symposium with the exception of the papers of J L Talmon Jerusalem on Marxism and Nationalism and Gajo Petrovic Zagreb on Yugoslav Marxism Appended is also a short obituary written by me on Lichtheim for the journal Political Science published by the American Political Science Association

**Marxism & Nationalism** Vladimir Il'ich Lenin, 2002

*Demythologizing Marxism* F.J. Adelman, 2012-12-06 This second volume of the Boston College Studies in Philosophy commemorates the one hundred and fiftieth anniversary of the birth of Karl Marx This dedication bespeaks the evolution permeating the entire world today not only in the sense of a development of ideas but more especially of the inner and sincere quest for peace intensifying in the hearts of all men We Christians rejoice in the drive onward toward the fulfillment of peace on earth We are sorry however that it is so late in Christian history and that it received its impulse more from the fear of nuclear armaments than from the development of Christian ideas Nonetheless here in the midst of so much bewilderment we can find an optimistic note in the realization that these ideas can now touch at long last offer hope for a peaceful future Strange as it may seem there is currently a new interest in the philosophy of Marxism This stems in part from the renewed study of the writings of the young Marx and a concentration on that aspect of his work which is more philosophical than politico economic such as is more prominent in the later *Das Kapital* But even more our interest in Marxism has occurred because of what has happened to the contemporary Marxists themselves First of all after Stalin's time a certain new openness not yet perfect but nonetheless real has developed in Russia to the benefit of scholars
