## **Russians And Berlin:**

*The Russians and Berlin, 1945* Erich Kuby, 1965      *The Russians in Germany* Norman M. Naimark, 1995 In 1945 when the Red Army marched in eastern Germany was not occupied but liberated This until the recent collapse of the Soviet Bloc is what passed for history in the German Democratic Republic Now making use of newly opened archives in Russia and Germany Norman Naimark reveals what happened during the Soviet occupation of eastern Germany from 1945 through 1949 His book offers a comprehensive look at Soviet policies in the occupied zone and their practical consequences for Germans and Russians alike and ultimately for postwar Europe In rich and lucid detail Naimark captures the mood and the daily reality of the occupation the chaos and contradictions of a period marked by rape and repression the plundering of factories the exploitation of German science and the rise of the East German police state Never have these practices and their place in the overall Soviet strategy particularly the political development of the zone received such thorough treatment Here we have our first clear view of how the Russians regarded the postwar settlement and the German question how they made policy on issues from reparations to technology transfer to the acquisition of uranium how they justified their goals how they met them or failed and how they changed eastern Germany in the process *The Russians in Germany* also takes us deep into the politics of culture as Naimark explores the ways in which Soviet officers used film theater and education to foster the Bolshevization of the zone Unique in its broad comparative approach to the Soviet military government in Germany this book fills in a missing and ultimately fascinating chapter in the history of modern Europe      **Aleksandr Chayanov and Russian Berlin**

Frank Bourgholtzer, 2023-05-31 Aleksandr Chayanov lived and worked in England and Germany in the 1920s when he wrote many letters He was also forced to write autobiographical material after his arrest in 1930 Frank Bourgholtzer uses this material in his account of this Russian utopian      **Die Russen in Berlin, 1945. **Translated by Arnold J. Pomerans. With Plates.** Erich KUBY, Arnold Julius POMERANS, 1968      *Russian-German Special Relations in the Twentieth Century* Karl Schlogel, 2006-08-01 Twentieth century Europe especially Central Eastern Europe has been largely defined by Russia and Germany In this century cultural and economic exchanges between the two countries were as active as the fires of hatred intense The smaller states in between with their unstable borders and internal minorities suffered from the powers alliances and their antagonisms This volume of new research in political and cultural history examines the two powers turbulent relationship including the pre 1914 era of exchange and cooperation the projects of modernity in post revolutionary Russia and Weimar Germany the struggle for dominance over Central Europe in World War II and mutual views of Germans and Russians after 1945 In the wake of the crucial events of 1989 and the transformation of German Russian relations it asks whether the configuration of Russian German relations that once dominated twentieth century Europe has now dissolved leaving us to find new ways of cooperation between New Russia and New Europe      **The Russians and Berlin, 1945, Transl, by Arnold J. Pomerans** Erich Kuby, 1968      **Russian Émigré Culture** Christoph

Flamm, Henry Keazor, Roland Marti, 2014-07-08 A quarter of a century ago glasnost opened the door for a new look at Russian migr culture unimpeded by the sterile concepts of Cold War cultural politics Easier access to archives and a comprehensive approach to culture as a multi faceted phenomenon not restricted to single phenomena or individuals have since contributed to a better understanding of the processes within the migr community of its links with the lost home country and of the interaction with the cultural life of the countries of adoption This volume offers a collection of critical articles that resulted from the international interdisciplinary symposium which was held at Saarland University in November 2011 as part of a one week festival Russian Music in Exile Scholars from around the world contributed essays reflecting current perspectives on Russian migr culture shedding new light on cultural diplomacy literature art and music and covering essentially the whole 20th century from pre revolutionary movements to the present The interdisciplinary approach of the volume shows that migr networks were not confined to a particular segment of culture but united composers artists critics and even diplomats On the whole the contributions to this volume document the fascinating diversity the internal contradictions as well as the impact that the largest and most durable migr movement of the 20th century had on European cultural life **Russian Thinkers**

**Germany and Eastern Europe** ,2023-08-14 The opening up and subsequent tearing down of the Berlin Wall in 1989 effectively ended a historically unique period for Europe that had drastically changed its face over a period of fifty years and redefined in all sorts of ways what was meant by East and West For Germany in particular this radical change meant much more than unification of the divided country although initially this process seemed to consume all of the country's energies and emotions While the period of the Cold War saw the emergence of a Federal Republic distinctly Western in orientation the coming down of the Iron Curtain meant that Germany's relationship with its traditional neighbours to the East and the South East which had been essentially frozen or redefined in different ways for the two German states by the Cold War had to be rediscovered This volume which brings together scholars in German Studies from the United States Germany and other European countries examines the history of the relationship between Germany and Eastern Europe and the opportunities presented by the changes of the 1990's drawing particular attention to the interaction between the willingness of German and its Eastern neighbours to work for political and economic integration on the one hand and the cultural and social problems that stem from old prejudices and unresolved disputes left over from the Second World War on the other
