The Power of the Sacred Hans Joas, 2021 In The Power of the Sacred Hans Joas develops a new sociological theory of religion by reconstructing existing scientific theories of religion from the eighteenth century to the present Through a critical reading and reasssessment of key texts Joas proposes an alternative to the narratives of disenchantment and secularization which have dominated debates on the topic He further offers the most thorough reconstruction of the meaning of this concept demonstrates how problematic it is for an appropriate understanding of religion in modernity and presents the basic features of an alternative **Explaining Evil** J. Harold Ellens, 2011-02-18 In this three volume set international scholars from across a broad spectrum of scholarly fields examine the concept of evil throughout history and world cultures from religious scientific psychological and political perspectives The manifestation of evil has provided a convenient theme for popular culture entertainment ranging from the classic film The Exorcist to almost all of Stephen King's horror novels to video games such as Resident Evil Unfortunately dealing with and attempting to overcome the forces of evil is a pervasive problem in the real world as well Explaining Evil addresses incidents of evil from ancient times to modern day around the globe Concepts of evil within the big three religions Christianity Judaism and Islam are examined as well as in Chinese philosophy and Native American beliefs The political or national expressions of evil are explored such as the axis of evil that culminated in World War II These volumes identify the causes and effects of evil and suggest possible remedies to humanity s The Hindu Caste System: The sacralization of a social order Harold Alton Gould, 1987 **Emile** inescapable flaw Durkheim Stephen Turner, 2003-09-02 International scholarship over the last twenty years has produced a new understanding of Emile Durkheim as a thinker It has contributed to reassembling what for Durkheim was always a whole a sociological selection on morals and moral activism This volume presents an overview of Durkheim's thought and is representative of the best of contemporary Durkheim scholarship **Islam & Politics Afghanistan N** Asta Olesen, 2013-01-11 The years 1978 and 1979 were dramatic throughout south and western Asia In Iran the Pahlavi dynasty was toppled by an Islamic revolution In Pakistan Zulfigar Ali Bhutto was hanged by the military regime that toppled him and which then proceeded to implement an Islamization programme Between the two lay Afghanistan whose Saur Revolution of April 1978 soon developed into a full scale civil war and Soviet intervention The military struggle that followed was largely influenced by Soviet US rivalry but the ideological struggle followed a dynamic of its own Drawing on a wide range of sources including such previously unused archival material as British Intelligence reports this is a detailed study of the Afghan debate on the role of Islam in politics from the formation of the modern Afghan state around 1800 to the present day

<u>Durkheimian Sociology</u> Jeffrey C. Alexander,1990-09-13 The classic works of Emile Durkheim are characterized by a structural approach to the understanding of collective behaviour and it is this element of his writings that has been most taken up by modern social science This volume however rejects the dominant structural approach and draws instead on

Durkheim's later work in which he shifted to a symbolic theory of modern industrial societies that emphasized the importance of ritual and placed the tension between the sacred and the profane at the center of society In so doing the contributors offer both a radically different approach to Durkheimian sociology and a new way of linking the interpretation of culture and the interpretation of society In his introduction to the volume Jeffrey Alexander elaborates the new interpretation of Durkheim that informs the contributions His arguments form a background for the lively and provacative chapters that follow which provide broadly cultural interpretations of such topics as popular upheavals and social movements ranging from the French Revolution to the massive rebellions in Poland and Nicaragua in the 1980s political crisis from Watergate to the crisis of legitimation in contemporary capitalism and the creative and contingent element in symbolic behaviour including the symbolics of intimate friendship and the ritual and rhetoric of media events In addition to re examining Durkheimian sociology the essays also demolish the myth that attention to cultural values implies conservatism or the inability to analyze social change and challenge the common antithesis between normative theory and microsociology Its exploration of the links between Durkheimian sociology and the most important developments in contemporary sociology history anthropology and semiotics will ensure it a broad appeal across the social sciences Movement Or Moment? Patrick Claffey, Joe Egan, 2009 This collection of essays was written to mark the fortieth anniversary of the Second General Conference of Latin American Bishops which convened at Medell n Colombia in 1968 Inspired by the Second Vatican Council and seeking to implement its vision the bishops viewed the occasion as a decisive one for Latin America which they saw as standing on the threshold of a new epoch in the history of our continent It appears to have been a time full of zeal for emancipation of liberation from every form of servitude of personal maturity and of collective integration Forty years later however it is appropriate to remember the event and to review the significance of liberation theology in light of all that has happened during the intervening period The colloquium at the Milltown Institute Dublin which led to this book sought to do precisely that to establish where liberation theology now stands by questioning whether it really is a significant theological and ecclesial movement or merely a moment whose time has passed and to investigate its enduring legacy The Oxford Handbook of the Archaeology of Ritual and Religion Timothy Insoll, 2011-10-28 The Oxford Handbook of the Archaeology of Ritual and Religion provides a comprehensive overview by period and region of the relevant archaeological material in relation to theory methodology definition and practice Although as the title indicates the focus is upon archaeological investigations of ritual and religion by necessity ideas and evidence from other disciplines are also included among them anthropology ethnography religious studies and history The Handbook covers a global span Africa Asia Australasia Europe and the Americas and reaches from the earliest prehistory the Lower and Middle Palaeolithic to modern times In addition chapters focus upon relevant themes ranging from landscape to death from taboo to water from gender to rites of passage from ritual to fasting and feasting Written by over sixty specialists renowned in their respective fields the Handbook presents the very best in current

scholarship and will serve both as a comprehensive introduction to its subject and as a stimulus to further research

Symbols of Defeat in the Construction of National Identity Steven Mock, 2011-12-29 If nationalism is the assertion of legitimacy for a nation and its effectiveness as a political entity why do many nations emphasize images of their own defeat in understanding their history Using Israel Serbia France Greece and Ghana as examples the author argues that this phenomenon exposes the ambivalence that lurks behind the passions nationalism evokes Symbols of defeat glorify a nation s ancient past while reenacting the destruction of that past as a necessary step in constructing a functioning modern society As a result these symbols often assume a foundational role in national mythology Threats to such symbols are perceived as threats to the nation itself and consequently are met with desperation difficult for outsiders to understand \*\*The Moral Neoliberal\*\* Andrea Muehlebach, 2012-06-12 Morality is often imagined to be at odds with capitalism and its focus on the bottom line but in The Moral Neoliberal morality is shown as the opposite an indispensable tool for capitalist transformation The author tracks the phenomenal rise of voluntarism in the wake of the state s withdrawal of social service programmes

By the Grace of God William R. Viestenz, 2014-09-17 Though neither king nor priest Spanish dictator Francisco Franco nevertheless conceptualized his right to sovereignty around a political theology in which national identity resembled a sacred cult Using Franco's Spain and la Espa a sagrada as a counterpoint to European secularity's own development By the Grace of God is the first sustained analysis within Spanish cultural studies of the sacred as a political category and a tool for political organization William Viestenz shows how imagining national identity as a sacred absolute within a pluralistic multicultural state leads to dictatorship scapegoating and exceptional violence Using novels and poetry from the Catalan literary tradition and stalwarts of the Castilian canon his analysis demonstrates that the sacred is a concept that spills over into key areas of secular political imagination By the Grace of God offers an original theory of the sacred that challenges our understanding of Rethinking Materialism Robert Wuthnow, 1995 This collection of essays by ten of the twentieth century political thought nation's prominent social scientists and theologians offers serious commentary on our culture's obsession with material goods and examines the uneasy relation of materialism to religion The contributors assess the ways in which materialism has been understood in recent analyses of American character how the economy shapes our understandings of ourselves the ways in which religious thought is being reshaped by economic circumstances and the nature of consumerism The complement to Wuthnow's God and Mammon in America this volume challenges us all to look at materialism in new ways and suggests viable means for reversing our country's prevailing material fixation and its destructive effects on our spiritual lives

By the Grace of God William Viestenz,2014-01-01 Using Franco's Spain and la Espa a sagrada as a counterpoint to European secularity s own development By the Grace of God is the first sustained analysis within Spanish cultural studies of the sacred as a political category and a tool for political organization Disloyalty and Destruction Rob Barrett,2010-04-01 The goal of the work is a heuristic reading strategy for a modern reader to engage with YHWH s threats against Israel in

Deuteronomy This goal is accomplished in three steps First the biblical text is considered through close reading to discern the logic of YHWH s threats what motivates the threats what form the threats take and what effect the threats expect to produce Second a modern analogy is sought that most helpfully matches the structure and logic observed in the biblical text A number of common modern analogies for the divine human relationship e g parent child master slave husband wife are deemed unhelpful because they cannot support the features of the biblical pattern However the threats of the modern state against those who threaten it are found to bear significant resemblance Finally this analogy is developed for each of several significant passages of Deuteronomy In order to justify and substantiate the analogy this book examines the religious and political background surrounding both Deuteronomy and the modern state through historical reflection Since there are significant differences between the religio political situations sociological perspectives are used to provide patterns that can be applied within both the ancient and modern contexts Finally although the focus of the work is on establishing an analogy between YHWH s threats and those of the modern state the book dedicates one chapter to discussing dis analogous features to avoid over emphasizing the similarity between the two Radicalism and Cultural Dislocation in Ethiopia, 1960-1974 Messay Kebede, 2008 A provocative investigation into the root causes of the Ethiopian political upheavals in the second half of the twentieth century During the 1960s and early 1970s a majority of Ethiopian students and intellectuals adopted a Marxist Leninist ideology with fanatic fervor The leading force in an uprising against the imperial regime of Emperor Haile Selassie they played a decisive role in the rise of a Leninist military regime In this original study Messay Kebede examines the sociopolitical and cultural factors that contributed to the radicalization of the educated elite in Ethiopia and how this phenomenon contributed to the country's uninterrupted political crises and economic setbacks since the Revolution of 1974 Offering a unique insider s perspective garnered from his direct participation in the student movement the author emphasizes the role of the Western education system in the progressive radicalization of students and assesses the impact of Western education on traditional cultures The most comprehensive study of the role of students in modern Ethiopian political history to date Radicalism and Cultural Dislocation in Ethiopia 1960 1974 opens the door for discussion and debate on the issue of African modernization and the effects of cultural colonization Messay Kebede is Professor in the Department of Philosophy at the University of Dayton and is author of Survival and Modernization Ethiopia s Enigmatic Present A Philosophical Discourse 1999 The National Geographical Journal of India ,1988 **Singing for the Gods** Barbara Kowalzig, 2007-12-13 Singing for the Gods develops a new approach towards an old question in the study of religion the relationship of myth and ritual Focusing on ancient Greek religion Barbara Kowalzig exploits the joint occurrence of myth and ritual in archaic and classical Greek song culture She shows how choral performances of myth and ritual taking place all over the ancient Greek world in the early fifth century BC help to effect social and political change in their own time Religious song emerges as integral to a rapidly changing society hovering between local regional and panhellenic identities

and between aristocratic rule and democracy Drawing on contemporary debates on myth ritual and performance in social anthropology modern history and theatre studies this book establishes Greek religion s dynamic role and gives religious song culture its deserved place in the study of Greek history

Scripture and Ethics Jeffrey S. Siker,1997 Siker brings together the history of biblical interpretation and the study of uses of the Bible in Christian ethics to examine how the Bible has actually been used in Christian theological ethics and in the process profiling eight influential twentieth century theologians

Evil in Modern Myth and Ritual Richard Stivers,2020-04-28 Richard Stivers concern is with the social construction of evil that is with how modern societies in a partly unconscious way create evil as a category of the sacred and how symbols myths and rituals of evil are related to this He is interested moreover in how modern societies provoke individuals to commit evil actions This fascinating and stimulating book is the first attempt to work out in detail how the concepts of the sacred symbol myth and ritual form a cultural configuration in modern technological societies and not just in traditional societies
