Eric Voegelin and the Foundations of Modern Political Science Barry Cooper, Eric Voegelin, 1999 Annotation This important new work is a major analysis of the foundation of Eric Voegelin's political science. Barry Cooper maintains that the writings Voegelin undertook in the 1940s provide the groundwork for the brilliant book that is one of his best known, *The New Science of Politics*. At the time of that book's publication, however, few were aware of the enormous knowledge and accomplished scholarship that lay behind its illuminating, although sometimes baffling, formulations. By focusing on several of the key chapters in Voegelin's eight-volume *History of Political Ideas*, especially the studies of Bodin, Vico, and Schelling, Cooper shows how those studies provide the basis for Voegelin's thought. Investigating Voegelin's study of Oriental influences on Western political ideas, especially Mongol constitutional law, and his study of Toynbee, Cooper seeks to demonstrate the vast range of materials Voegelin used. Cooper contends that, as with other great thinkers, political crisis specifically the world war of 1939-1945 stimulated Voegelin's intellectual and spiritual achievement. He provides an analysis of Voegelin's immediate concern with the course of World War II, his ability to understand those dramatic events in a large context, and his ability to provide an insightful account of the causes, the significance, and the consequences of the spiritual and political disorder that was evident all around him. In *Eric Voegelin and the Foundations of Modern Political Science*, Cooper makes the connection between Voegelin's political writings of the 1940s and the meditative interpretations that began to appear with the publication of *Anamnesis* and with the later volumes of *Order and History* much more intelligible than does any existing discussion of Voegelin. Scholars in intellectual history and political science will benefit enormously from this valuable new addition to Voegelin studies.

Mumford, Tate, Eiseley Gale H. Carrithers, Jr., 1992-01-01 Though of diverse backgrounds and training, Mumford, Tate, and Eiseley shared remarkably concordant and convincing views of the state of twentieth-century American society. All three considered America to be benighted by a dominant myth, the myth of the machine. In Mumford's phrase, that resulted in cultural degeneration. Through an examination of selected works of each critic, Carrithers explains how these writers both identified and fought against this myth. Carrithers asserts that Mumford, Tate, and Eiseley, in their essays, revived prophecy as a mode of expression and as a means of appraising culture in a broad historical context. Like the biblical prophets, the three concerned themselves not so much with the future as with the present. They sought to unmask the falseness, the moral emptiness of a reductive, abstract, mechanized model of the world. Carrithers considers Mumford as he moved from conflicted stances in the four volumes of *The Renewal of Life* to the more assured and comprehensive vision of society he portrayed in the two-volume *The Myth of the Machine*. He examines Tate's critique of American culture as it developed from his youthful involvement with the Fugitives and Agrarians to, in later years, an increasingly coherent but comber construal of the world's plight. Finally, he describes Eiseley's fully emergent rejection of reductive scientism and

temporalism a large part of all that is crushing us Easley wrote evident in *The Immense Journey* and other books Mumford Tate and Easley these watchers in the night all wrote against the grain of most of their contemporaries posing questions about generally accepted current values and proffering alternatives that would make the world a more humane and transcendent place Gale Carrithers thoughtful challenging analysis of their efforts will be required reading for anyone who wishes a better understanding of our age

The Invisible Source of Authority David Walsh, 2025-07-15 The Invisible Source of Authority is a philosophical meditation on the secular age and challenges the notion that the secular can be understood without reference to God How does one reject God while denying belief This is the central paradox of our secular age where efforts to erase God only affirm his presence In The Invisible Source of Authority David Walsh examines this paradox and argues that a secular world actually reveals God more clearly rather than bringing about what has been called the death of God Unlike many critics of modernity Walsh argues that secularism is not inhospitable to authentic religious faith and cannot be understood without reference to God Drawing on the writings of early modern thinkers like Montaigne Descartes and Grotius Walsh asserts that God's absence from the secular world is testimony to God's transcendence Because the secular is always that which has withdrawn from serving God Walsh suggests that this presupposition proves that God remains indispensable to the self understanding of secular society The Invisible Source of Authority seeks to remind us that despite his seeming absence the transcendent God remains an essential presence
