Liturgy and

Interpretation Kenneth Stevenson,2013-01-07 Kenneth Stevenson is one of the UK s leading liturgical scholars with an international reputation Much of his work is in the borderlands of theology worship and history The essays in this book are worked examples of the importance of interpretation and liturgy particularly in the light of the growing impact in recent years of reception history and how this interacts not only with biblical scholarship but with worship and doctrine as well Interpretation and Liturgy is a big subject and one that is unlikely ever to go away It is part of the twofold movement of divine initiative and human aspiration or to put it yet more directly what some would immediately call the inspiration of the Holy Spirit others would call the religious imagination and others again would call both

Unlocking the Wordhord

Edward Burroughs Irving,2003-01-01 The Anglo Saxons placed a great deal of importance on wisdom and learning something Beowulf makes dramatically clear when he uses his wordhord to command respect and admiration from his friends and foes alike Modern day scholars no longer have recourse to the living language and culture of the Anglo Saxons and as a result must turn to their wordhords the literary historical and cultural artefacts that have survived in various degrees of intactness to learn about life in Anglo Saxon England This collection of essays gathered to honour the memory of the noted Anglo Saxonist Edward B Irving Jr brings together an international group of leading scholars who take the measure of Anglo Saxon literary textual and lexical studies in the present moment Ranging from philological and structural studies to ones that explicitly engage a variety of contemporary theoretical issues they reflect the rich diversity of approaches to be found among Anglo Saxonists Subjects addressed include comparative work on Old English and Latin and on Old English ancient Greek and South Slavic notions of authorship and textual integrity techniques of editing heroic poetry religious verse lexicography oral tradition and material textuality Offering a fresh reading of some popular pieces and inviting attention to some less familiar texts these previously unpublished essays illustrate the latest state of particular techniques for literary critical analysis textual recovery and lexical studies

The Making of the Monastic Community of Fulda, c.744-c.900 Janneke

Raaijmakers,2012-03-01 The monastic community of Fulda was one of the most powerful institutions in early medieval Europe This book traces the development of the community from its foundation in the 740s over one and a half centuries a period richly documented by a variety of texts and archaeological remains These sources reveal how Fulda s success forced the monks to rethink their goals and the ways in which they sought to achieve them Its close connection to the Carolingian royal court also makes Fulda a fascinating case study of how local events influenced life in the palace and vice versa The importance of Fulda and the rich array of sources associated with it have long been recognised but this is the first full study

bringing together theology architectural history and archaeology The result is a vivid picture of life in this monastery and also in early medieval religious communities in general

Pastoral Care in Late Anglo-Saxon England Francesca Tinti, 2005 The role of pastoral care reconsidered in the context of major changes within the Anglo Saxon church The tenth and eleventh centuries saw a number of very significant developments in the history of the English Church perhaps the most important being the proliferation of local churches which were to be the basis of the modern parochial system Using evidence from homilies canon law saints lives and liturgical and penitential sources the articles collected in this volume focus on the ways in which such developments were reflected in pastoral care considering what it consisted of at this time how it was provided and by whom Starting with an investigation of the secular clergy their recruitment and patronage the papers move on to examine a variety of aspects of late Anglo Saxon pastoral care including church due payments preaching baptism penance confession visitation of the sick and archaeological evidence of burial practice Special attention is paid to the few surviving manuscripts which are likely to have been used in the field and the evidence they provide for the context the actions and the verbal exchanges which characterised pastoral provisions

The Kiev Leaflets as Folia Glagolitica Zempliniensia Martin Pukanec, 2020-10-07 This book searches for the origin of the Kiev Leaflets In view of the original text of Prayer 20 in the Glagolitic manuscript which is a prayer for protection from the Hungarians the probable period in which the texts were written was defined as between the years 894 and 900 Therefore as the book argues this oldest of Slavic manuscripts does not originate from the Bulgarian Macedonian linguistic environment Rather it has both West and South Slavic features and no dialect can better explain the manuscript s individual accentological phonological and morphological features than the Common Slavic dialect of the Eastern Obodrites in the Ung Uzhhorod Ukraine Principality This was the seat of the princely Bogat Radvan family who came from Moravia Bohemia This book is thus designed for teachers students and others interested in Slavic languages of all three subgroups as well as those interested in history and literature of East Central Europe

Sent Out into the World Michael McGourty, 2024-01-29 Sent Out into the World contains

a liturgical theology for a parish community and the new evangelization that is derived from a reading of The Order of the Dedication of a Church For this reason its content can be attributed directly to a liturgical rite of the Catholic Church It is not the creation of any one person but rather an exercise in *lex orandi lex credendi* It presents a vision of the parish that comes directly from a rite of the church and focuses the parish community and its members on the mission that it has within the body of Christ Applying the content of the *ordo* to a parish community it presents a theology for those communities in which most Catholics meet the Lord and practice their faith The liturgical theology for a parish community that is presented here focuses all parish communities on Christ and his presence in the liturgical celebrations that take place in the parish churches As this ritual powerfully reminds the baptized from the liturgical and sacramental celebrations in which they encounter Christ in their parish church the faithful are to be sent out into the world as ministers of the new evangelization By reading this book every Christian who practices his or her faith within a parish community will be reminded of the mission which they are called to live as members dismissed to go into the world at the end of every eucharistic celebration

Images of Sainthood in Medieval Europe Renate Blumenfeld-Kosinski, 2019-05-15 This handsomely illustrated book suggests new ways of understanding a cultural institution central to the spiritual and artistic imagination of the Middle Ages Bringing together fourteen essays by contributors representing a number of disciplines it illuminates issues including the place of sanctity in society the role of gender in the representation of sainthood and the use of hagiographic conventions in other genres Anglo-Saxon Exeter Patrick W. Writing the Early Medieval West Elina Screen, Charles West, 2018-05-03 Far from the oral society it was once assumed to have been early medieval Europe was fundamentally shaped by the written word This book offers a pioneering collection of fresh and innovative studies on a wide range of topics each one representing cutting edge scholarship and collectively setting the field on a new footing Concentrating on the role of writing in mediating early medieval knowledge of the past on the importance of surviving manuscripts as clues to the circulation of ideas and political and cultural creativity and on the role that texts of different kinds played both in supporting and in subverting established power relations these essays represent a milestone in studies of the early medieval written word

The Sarum Missal Catholic Church, John Wickham Legg, 1916 *An Inculturation Model of the Catholic Marriage Ritual* David William Antonio, 2002 In *An Inculturation Model of the Catholic Marriage Ritual* David William Antonio presents a model of how the Catholic Ritual of Marriage may be adapted to the language culture and traditions of a particular people specifically the Ilocanos of Northern Luzon in the Philippines Vatican II called for the revision and adaptation of the rite of marriage exhorting local churches to develop their own rites suited to their people's particular customs and traditions The work of preparing a rite of marriage for a particular region cannot be limited to merely translating the typical edition There has to be a thorough examination of both the *editio typica* and the people's religious and

cultural traditions the socio economic and political realities that confront them attending to the positive values expressed therein Only a dialogical process such as this will guarantee a liturgy that is faithful to the Christian tradition and meaningful to a given people An Inculturation Model of the Catholic Marriage Ritual will serve as a model for people of other cultures who have to do similar liturgical preparation and will be important especially to churches whose membership includes people who experienced colonization but never lost the riches of their own cultures in the blending of cultures and beliefs that followed

Invisible Weapons M. Cecilia Gaposchkin, 2017-01-17 Throughout the history of the Crusades liturgical prayer masses and alms were all marshaled in the fight against Muslim armies In *Invisible Weapons* M Cecilia Gaposchkin focuses on the ways in which Latin Christians communicated their ideas and aspirations for crusade to God through liturgy how public worship was deployed and how prayers and masses absorbed the ideals and priorities of crusading Placing religious texts and practices within the larger narrative of crusading Gaposchkin offers a new understanding of a crucial facet in the culture of holy war Open Access edition funded by the National Endowment for the Humanities

The Care of Nuns Katie Ann-Marie Bugyis, 2019-04-01 In her ground breaking new study Katie Bugyis offers a new history of communities of Benedictine nuns in England from 900 to 1225 By applying innovative paleographical codicological and textual analyses to their surviving liturgical books Bugyis recovers a treasure trove of unexamined evidence for understanding these women s lives and the liturgical and pastoral ministries they performed She examines the duties and responsibilities of their chief monastic officers abbesses prioresses cantors and sacristans highlighting three of the ministries vital to their practice liturgically reading the gospel hearing confessions and offering intercessory prayers for others Where previous scholarship has argued that the various reforms of the central Middle Ages effectively relegated nuns to complete dependency on the sacramental ministrations of priests Bugyis shows that in fact these women continued to exercise primary control over their spiritual care Essential to this argument is the discovery that the production of the liturgical books used in these communities was carried out by female scribes copyists correctors and creators of texts attesting to the agency and creativity that nuns exercised in the care they extended to themselves and those who sought their hospitality counsel instruction healing forgiveness and intercession
