Evangelicals, Worship and Participation Alan Rathe, 2016-04-22 In discussions of worship the term participation covers a lot of ground It refers not only to concrete acts in gathered liturgy but also to some of the loftiest claims of Christian theology In this book Alan Rathe probes the ways in which North American evangelicals have in recent years regarded the landscape of participation Rathe presents a broad review of evangelical worship literature through a lens borrowed from medieval theology This brings into surprising focus not only evangelical understandings but also evangelical identities and the historical traditions they reflect and offers fresh perspectives on such current theological concerns as God's triunity missio Dei and the practical theology of participation Offering a fresh contribution to a young but important discipline the liturgically informed study of evangelical worship practice this book reconnects the evangelical tradition to the Great Tradition and in the process re appropriates classic concepts that are full of promise for contemporary ecumenical dialogue

The Spirit Is Moving: New Pathways in

Pneumatology, 2019-02-26 The work of the Spirit of God is a vibrant and much discussed topic in many contemporary Christian communities worldwide Apparently the Spirit is moving Theological reflection on this phenomenon has even given rise to what is often called a pneumatological renaissance This volume not only takes stock of these remarkable developments but also probes some of their hidden aspects and highlights avenues for future exploration It contains a wide ranging but coherent assortment of essays covering the five relations of the Holy Ghost distinguished already in the Nicene Constantinopolitan Creed how does the Spirit of God relate to the Bible to the Christ to the human person to the church and to the world These essays are written as a tribute to the many inspiring theological contributions of prof Cornelis van der Kooi on the occasion of his retirement as Professor of Systematic Theology at the Faculty of Religion and Theology Vrije Universiteit Amsterdam where he taught from 1992 until 2018 Contributors are Henk A Bakker Abraham van de Beek Erik A de Boer Carl J Bosma Gijsbert van den Brink Martien E Brinkman Gerard C den Hertog Arnold Huijgen Gerrit C van de Kamp Miranda Klaver Akke van der Kooi Margriet van der Kooi Dijkstra Bruce L McCormack Richard J Mouw Bert Jan Lietaert Peerbolte Eveline van Staalduine Sulman Eep Talstra Benno van den Toren Jan Veenhof Willem van Vlastuin Pieter Vos Michael Welker Cory Willson Maarten Wisse **Practical Sacramental Theology** Bruce T. Morrill, 2021-09-09 What motivates practice of the liturgy and sacramental rites of the church Does the worship of God begin and end within each ritual enactment or does the truth and value of sacramental celebration reside in the broader context of Christian life in church and society For more than two decades prominent Jesuit sacramental liturgical theologian Bruce Morrill has explored the promise and problems inherent in the Second Vatican Council's call to renew liturgy's basic purpose namely the glorification of God and the sanctification of people Morrill's fundamental argument is that this ancient Christian principle is of a piece that divine glory and human holiness are so to speak two sides of a single coin The value of liturgy and sacraments is depleted if not lost unless they function within a holistic practice of faith that seeks the upbuilding of ethical lives personal and social With numerous real life examples plus references to current sociological studies the chapters address both modern challenges to and biblical and traditional resources for the celebration of sacramental rites today T&T Clark Handbook of Sacraments and Sacramentality Martha Moore-Keish, James Farwell, 2022-12-29 Introducing readers to the contemporary field of sacramental theology this volume covers the biblical and historical foundations a survey of the state of the discipline and a collection of constructive essays representing major themes practices and approaches to sacraments and sacramentality in the contemporary world The volume starts with a set of foundational essays that offer broad introduction to the field of sacramental theology from contemporary scholars analysing a number of historical figures in order to illumine and inform contemporary sacramental theology The second part of the volume is dedicated to a series of essays on sacramentality and includes attention to elements of space time ritual action music and word all as aspects of what Christians have termed sacramental reality The third set of essays includes attention to each of the seven practices that have

most commonly been termed sacraments in Christian traditions baptism eucharist Lord's Supper confirmation confession forgiveness and reconciliation marriage ordination and anointing The final part of this volume features scholars who are working on sacraments in conversation with contemporary academic disciplines critical race theory queer theory comparative theology and disability studies

The Shape of Participation L. Roger Owens, 2010-03-01 *The Shape of Participation* is a work of constructive theology addressed to theologians seminarians and thoughtful pastors Owens engages and deepens recent popular discussions of church practices by approaching practices from the church Fathers understanding of the church's participation in God Through a wide ranging engagement with theologians both ancient and contemporary including Cyril of Alexandria Maximus the Confessor Dietrich Bonhoeffer and Herbert McCabe Owens argues that the embodied practices of the church are the church's participation in the life of God making the church Jesus's own continued peaceable embodiment in and for the world This book is for theologians pastors and anyone who wants a deeper understanding of how the visible presence of God's church is extraordinarily good news in a violent world I'm grateful for this account of the church's relationship to the life of God for refusing the hopelessness of so much contemporary ecclesiology All of us who persist in preaching or hearing the Word and receiving God's good gifts at the table will be strengthened and encouraged by Owens's theocentric understanding of what the church is up to in the world Beth Felker Jones Wheaton College A wonderful book Owens takes the significant interest in practices that has emerged over the last decade engages it theologically in rich ways with attention to specific ecclesial examples and deepens it through insightful analyses of Dietrich Bonhoeffer Herbert McCabe and Maximus the Confessor Pastors and scholars alike will benefit from careful study of Owens's significant argument L. Gregory Jones Duke University By reframing the church's practices as a participation in Christ and indeed as Christ's own practicing in and for the world Owens has brought to the study of Christian practice new theological depth shape and creativity Moreover by doing this in dialogue with ancient as well as contemporary theological and philosophical sources and in a way that takes seriously the concrete embodied church rather than remaining on the level of idealized and abstract ecclesiology he has provided us a helpful new model for thinking about what it means to be the church Bryan Stone Boston University School of Theology

Sacramental Poetics in Richard Hooker and George Herbert Brian Douglas, 2022-06-06 This book explores sacramental poetics through the lens of moderate realism in the thought and work of Anglican theologians Richard Hooker c. 1554-1600 and George Herbert 1593-1633 It does this in relation to the Christian sacraments of baptism and the Eucharist and as a way of exploring the abundance of God Brian Douglas begins in chapter 1 with a general discussion of a sacramental poetic and sacramentality in the Anglican tradition and proceeds to a more

detailed examination of the writings of both Hooker chapter 2 and Herbert chapter 3 Each writer explores in their own way abundant life found as participation in and relationship with Christ and expressed as a sacramental poetic based on moderate realism Douglas goes on in chapter 4 to explore the idea of conversation and dialogue as employed by Hooker and Herbert as part of a sacramental poetic The book concludes in chapter 5 with a more general discussion on the abundance of God and living of the good and abundant life and some of the issues this involves in the modern world **Sacraments of Initiation,**

Second Edition Liam G. Walsh OP, 2022-01-07 This title is no longer available The original edition of this book presented a theology of sacraments that emerged out of a Church stirred into new life by the Second Vatican Council It is a theology that can claim to have been continuously received in the Catholic Church since then It is the theology that has been widely practiced and preached in pastoral life has been given catechetical shape in the Catechism of the Catholic Church However during the past 23 years some trends developed in pastoral theology and practice that were taking directions that seemed hard to reconcile with the decisions of the Council This new edition examines the way some theological counter currents have developed over those years both in theory and in practice The sacramental theology contained in this study maintains the broad ongoing agreement between what it proposes and mainstream Church teaching and practice The book examines the tradition of sacramental practice and teaching Biblical and historical studies continue to uncover new riches of the tradition and recent findings are discussed A careful listening to the tradition of rite and word is truly indispensable for sacramental theology It was out of such listening that Vatican II teaching on sacraments emerged and provision was made for recovering the full richness of the tradition Not all of the recent theological speculations and pastoral strategies given an equally serious acknowledgement to the tradition The liturgies that are studied in this book have been given to the Church in the wake of Vatican II The historical chapters will show the liturgies to be a contemporary expression of fidelity to core values of the Apostolic Tradition The chapters on the rite of each sacrament are mainly descriptive and historical but also include anthropological reflections that unveil the human significances of the various rites The chapters on the word examine the biblical and traditional word spoken in the churches about each sacrament and conclude with what is called a systematic essay The bibliography has updated to reflect the development in the field *The Oxford Handbook of Sacramental Theology* Hans Boersma, Matthew Levering, 2015 This Handbook introduces the theology of the sacraments from a variety of perspectives It contains historical overviews biblical discussion philosophical and theological reflection as well as ecumenical discussion It is one of the most comprehensive overviews of the sacraments throughout the tradition of the Christian church

and Prayer Catechist's Guide Patricia Clement,2009-02 This faith formation program introduces young Catholic adolescents to Jesus Christ in a new way and inspires them to follow him Fostering the faith of young adolescents involves helping them to make connections between the Catholic faith and everyday life Toward a Trinitarian Theology of Liturgical Participation R. Gabriel Pivarnik,2013-01-01 Half a century after the Second Vatican Council called for the active participation of the laity in the liturgy a comprehensive theology of what liturgical participation actually means remains elusive While most sacramental studies have highlighted the role and action of Christ the conciliar reform and the theology that emanated from it call for a deeper trinitarian understanding of the liturgy and sacraments In this fascinating new work Gabriel Pivarnik identifies the major theological developments in the concept of active participation of the last century most notably in Mediator Dei and the Vatican II documents He also considers the reception of those developments Drawing especially on the work of Cipriano Vagaggini and Edward Kilmartin Pivarnik offers a lucid demonstration of how liturgical participation can be viewed in metaphysical soteriological and ecclesiological terms through the lens of a trinitarian narrative

Christian Sacraments in a Postmodern World Kenan B. Osborne,1999 Christian Sacraments in a Postmodern World offers a fresh perspective on the sacramental event by bringing together two generally unrelated subjects in a new way sacramental theology and postmodern philosophical thought Osborne shows in an innovative way how these two factors of third millennium life can be positively united to encourage powerful new thinking on the ways we Christians not only theorize about sacraments but also live sacraments Using a key section on sacraments from the Catechism of the Catholic Church and by employing foundational concepts of postmodern philosophy and several issues from medieval Franciscan philosophy the author develops a distinctly different approach to sacrament events Here is a visionary thoughtful work by a major theologian writer and educator It is sure to stir thinking and discussion among theologians philosophers liturgists and religious educators

The Active Participation of the Faithful in the Eucharist on the Basis of Common Priesthood Stella Adamma Nneji, 2018-06-15 One of the significant points of the Second Vatican Council is its emphasis on the status of the lay faithful in the church which includes active participation in the life of faith The council spoke of the active participation of all the faithful in liturgical celebrations on the basis of the common priesthood of the faithful which is conferred during baptism and through which every believer shares in the priestly kingly and prophetic offices of Christ In this book Stella Nneji develops an ecclesiological critical reflection on the teaching of the Second Vatican Council with regard to active participation Focusing especially on the church as people of God Nneji shows how the idea of participation is not merely a passive action but an active one Based on the ecclesiological reflection on the church as people of God and its relevance for active participation she maintains that Vatican II's vision on active participation is relevant to the upbuilding of the body of Christ church This vision integrates a critical thinking especially regarding those places where the implementation of Vatican II's teachings seems difficult
