Sacrifice In Africa A Structuralist Appr:

A Genealogy of Violence and Religion James Bernard Murphy, 2018-04-11 Why are religious rituals symbols and rhetoric so full of images of blood sacrifice and death Why does religious fervor so often lead to Holy War Crusade and Jihad No wonder many people assume that religion tends to give rise to violence But what if it were the other way around What if violence actually gave rise to religion So argued the French literary theorist and anthropologist Rene Girard 1923 2015 Described as the Darwin of the human sciences he was elected to the French Academy in 2005 for his seminal theories of sacred violence Girard argued that religious practices function to sublimate regulate and discharge human violence in controlled rituals Where does violence come from According to Girard from the social nature of human desire itself We desire things only because others desire them so desire is inherently rivalrous leading to violent conflict But if a scapegoat can be found then this war of all against all turns into a war of all against one Social order claimed Girard stems from the unity of a lynch mob Religious rituals then serve to commemorate the primordial murder of the scapegoat What are we to make of Girards provocative claims about human desire violence scapegoat killings and religion Political philosopher James Bernard Murphy presents here a series of sharp and witty dialogues in which Girard attempts to defend his ideas against attacks by rival theorists among them Sigmund Freud William James Simone Weil Elias Canetti and Joseph de Maistre Whatever we might think of his answers Girard asks challenging unsettling questions In these illuminating and lively exchanges Girard squares off with the titans of social theory *Christianity and Culture Collision* Cyril Orji, 2016-08-17 Drawn from the Conference on World Christianity this provocatively titled book invoking images of culture collision particularity and the global South prompts for profoundly new understandings of apparently polar themes inculturation universality and world Christianity Since the emergence of world Christianity is not an epiphenomenon but central to the question of how the gospel is good news for today s world readers concerned about the theological issues related to the possibilities for a genuinely new evangelization will find this volume It will also be of interest to students and scholars of African ecclesiastical history world Christianity and inter religious and inter cultural dialogue Cyril Orji is Associate Professor of theology at the University of Dayton Ohio USA He specializes in systematic and fundamental theology with particular emphasis on the theology and philosophy of Bernard Lonergan whom he brings into conversation with the works of the American pragmatist and semiotician Charles Sanders Peirce Dr Orji also collaborates in inter religious dialogue and the intersection of religion and culture inculturation post colonial critical theory and Black and African theologies and engages in communal practices of communicative theology in the development of local contextual theologies He has published numerous articles in various peer reviewed journals and is the author of *A Semiotic Approach to the Theology of Inculturation* 2015 *An Introduction to Religious and Theological Studies* 2015 The Catholic University and the Search for Truth 2013 and *Ethnic and Religious Conflicts in Africa An Analysis of Bias and Conversion Based on the Work of Bernard Lonergan* 2008 **Denying Biology**

Shots in the Streets David Chidester, 1991 Rituals of Fertility and the Sacrifice of Desire Carol Ann Muller, 1999 In this text Muller breaks new ground in the study of this changing region and along the way she includes details of her own poignant journey as a young white South African woman to the other side of a divided society

Macroeconomic Effects of a Potential Change in South Africa's Inflation Target Mrs. Jana Bricco, Mr. Mario Mansilla, Mr. Philippe Wingender, 2025-03-31 South Africa's inflation targeting framework has served the country well playing a key role in reducing inflation since 2000 However with inflation still above that of key trading partners questions have arisen whether a potential shift from the current target band 3 to 6 percent to a lower point target could better support macroeconomic stability over the medium term This chapter explores the macroeconomic implications of such a shift While medium run gains result from lower borrowing costs the modeling analysis points to the critical role of inflation expectations and central bank credibility in minimizing near term output costs fiscal monetary interactions are also important A review of select case studies highlights the importance of close coordination among policymakers clear communication and gradual transitions to support the achievement of lower inflation
