### **Sadhana The Realization Of Life Paperback:**

*Sādhana* Rabindranath Tagore, 1913 *Sadhana* literally a means of accomplishing something is an ego transcending spiritual practice It includes a variety of disciplines in Hindu Sikh Buddhist and Muslim traditions that are followed in order to achieve various spiritual or ritual objectives Perhaps it is well for me to explain that the subject matter of the papers published in this book has not been philosophically treated nor has it been approached from the scholar s point of view The writer has been brought up in a family where texts of the Upanishads are used in daily worship and he has had before him the example of his father who lived his long life in the closest communion with God while not neglecting his duties to the world or allowing his keen interest in all human affairs to suffer any abatement So in these papers it may be hoped western readers will have an opportunity of coming into touch with the ancient spirit of India as revealed in our sacred texts and manifested in the life of to day All the great utterances of man have to be judged not by the letter but by the spirit the spirit which unfolds itself with the growth of life in history We get to know the real meaning of Christianity by observing its living aspect at the present moment however different that may be even in important respects from the Christianity of earlier periods *Sadhana* Rabindranath Tagore, 2003-02-01 Spiral Bound acid free paper card stock covers classic reprint

Chakravarti of passages from his discourses in Bengali given to the students of Santiniketan The Sixth lecture The Realization of Action is translated by Surendranath Tagore from Karmayog Sadhana Rabindranath Tagore,2021-10-12 Sadhana The Realisation of Life 1916 is a collection of essays by Rabindranath Tagore Published after Tagore received the 1913 Nobel Prize in Literature Sadhana The Realisation of Life contains the author s thoughts on selfhood the universe morality and beauty Inspired by the Upanishads the sacred foundational texts of Hinduism Tagore s collection bridges the gap between East and West ancient and modern in its search for universal truth The west seems to take a pride in thinking that it is subduing nature This sentiment is the product of the city wall habit and training of mind For in the city life man naturally directs the concentrated light of his mental vision upon his own life and works and this creates an artificial dissociation between himself and the Universal Nature within whose bosom he lies In this collection of essays Tagore is at his philosophical poetic best reflecting earnestly and with ease on matters public and private Grounded in the teachings of the Upanishads Sadhana The Realisation of Life is a text engaged with the role of tradition in an increasingly alienated and individualistic modern world With a beautifully designed cover and professionally typeset manuscript this edition of Rabindranath Tagore s Sadhana The Realisation of Life is a classic of Indian literature reimagined for modern readers

**Sādhana** Rabindranath Tagore,1926      **Sadhana** Rabindranath Tagore,2020-11-20 We have seen that it was the aspiration of ancient India to live and move and have its joy inBrahma the all conscious and all pervading Spirit by extending its field of consciousness over all the world But that it may be urged is an impossible task for man to achieve If this extension of consciousness be an outward process then it is endless it is like attempting to cross the ocean after ladling out its water By beginning to try to realise all one has to end by realising nothing But in reality it is not so absurd as it sounds Man has every day to solve this problem of enlarging his region and adjusting his burdens His burdens are many too numerous for him to carry but he knows that by adopting a system he can lighten the weight of his load Whenever they feel too complicated and unwieldy he knows it is because he has not been able to hit upon the system which would have set everything in place and distributed the weight evenly This search for system is really a search for unity for synthesis it is our attempt to harmonise the heterogeneous complexity of outward materials by an inner adjustment In the search we gradually become aware that to find out the One is to possess the All that there indeed is our last and highest privilege It is based on the law of that unity which is if we only know it our abiding strength Its living principle is the power that is in truth the truth of that unity which comprehends multiplicity Facts are many but the truth is one The animal intelligence knows facts the human mind has power to apprehend truth The apple falls from the tree the rain descends upon the earth you can go on burdening your memory with such facts and never come to an end But once you get hold of the law of gravitation you can dispense with the necessity of collecting facts ad infinitum You have got at one truth which governs numberless facts This discovery of truth is pure joy to man it is a liberation of his mind For a mere fact is like a blind lane it leads only to itself it has no beyond But a truth opens up a whole horizon it leads us to the infinite That is the reason why when a man like Darwin discovers some simple general truth about Biology it does not stop there but like a lamp shedding its light far beyond the object for which it was lighted it illumines the whole region of human life and thought transcending its original purpose Thus we find that truth while investing all facts is not a mere aggregate of facts it surpasses them on all sides and points to the infinite reality      **Sadhana, Or the**
