**Hermann Kurz' sämtliche werke in zwölf bänden** Hermann Kurz,1904      *Lessings sämtliche Werke in zwanzig Bänden* Gotthold Ephraim Lessing,1899      *Rainer Maria Rilke, 1893-1908: Poetry as Process - A Poetics of Becoming* Ben Hutchinson,2017-12-02 Rainer Maria Rilkes early verse is often seen as having little relevance to the great achievement of the middle years the Neue Gedichte Yet the very different styles of the juvenilia and this new maturity are united by a preoccupation with processes of motion and growth which governs both his life and work In this meticulous philological study Ben Hutchinson reassesses every level of Rilkes early poetry from its motives and metaphors to its very grammar and syntax in order to trace what he terms a poetics of becoming With careful attention to rhythm resonance and linguistic detail he illuminates both the hidden patterns of the poetry and the artistic context of the fin de siecle From its roots in the intellectual climate of the 1890s to the poems inspired by Rodin in 1908 Rilkes stylistic development is set against the surprising consistency with which he pursues this poetics of becoming      Sämtliche Werke in zwölf Bänden Heine,1887

Schillers sämtliche Werke in zwölf Bänden Friedrich von Schiller,1890      *The Oxford Handbook of the History of Ethics* Roger Crisp,2013-01-31 Philosophical ethics consists in the human endeavour to answer rationally the fundamental question of how we should live The Oxford Handbook of the History of Ethics explores the history of philosophical ethics in the western tradition from Homer until the present day It provides a broad overview of the views of many of the main thinkers schools and periods and includes in addition essays on topics such as autonomy and impartiality The authors are international leaders in their field and use their expertise and specialist knowledge to illuminate the relevance of their work to discussions in contemporary ethics The essays are specially written for this volume and in each case introduce the reader to the main lines of interpretation and criticism that have arisen in the professional history of philosophy over the past two or three decades      **Deutscher Universitäts-kalender** ,1910      **Brill's Companion to Propertius** Hans-Christian

Günther,2006-07-01 The present volume provides a comprehensive guide to one of the most difficult authors of classical antiquity All the major aspects of Propertius work its themes the poetical technique its sources and models as well as the history of Propertian scholarship and the vexed problems of textual criticism are dealt with in contributions by Joan Booth James Butrica Francis Cairns Elaine Fantham Paolo Fedeli Adrian Hollis Peter Knox Robert Maltby Tobias Reinhardt and Richard Tarrant due space is also given to the reception of the author from antiquity and the renaissance Simona Gavinelli up to the modern age Bernhard Zimmermann At the centre stands an interpretation of the four transmitted books by Gesine Manuwaldt Hans Peter Syndikus John Kevin Newman and Hans Christian G nther      German Thought and Culture Hans Joachim Hahn,1995 From the late eighteenth century to the early twentieth century Liverpool was frequently referred to as the second city of the empire Yet the role of Liverpool within the British imperial system and the impact on the city of its colonial connections remain underplayed in recent writing on both Liverpool and the empire However inconvenient this may

prove this specially commissioned collection of essays demonstrates that the imperial dimension deserves more prevalence in both academic and popular representations of Liverpool's past. Indeed if Liverpool does represent the World in One City the slogan for Liverpool's status as European Capital of Culture in 2008 it could be argued that this is largely down to Merseyside's long term interactions with the colonial world and the legacies of that imperial history. In the context of Capital of Culture year and growing interest in the relationship between British provincial cities and the British empire this book will find a wide audience amongst academics students and history enthusiasts generally.

*Romantic Prose Fiction* Gerald Ernest Paul Gillespie, Manfred Engel, Bernard Dieterle, 2008. In this volume a team of three dozen international experts presents a fresh picture of literary prose fiction in the Romantic age seen from cross cultural and interdisciplinary perspectives. The work treats the appearance of major themes in characteristically Romantic versions the power of Romantic discourse to reshape imaginative writing and a series of crucial reactions to the impact of Romanticism on cultural life down to the present both in Europe and in the New World. Through its combination of chapters on thematic generic and discursive features *Romantic Prose Fiction* achieves a unique theoretical stance by considering the opinions of primary Romantics and their successors not as guiding truths by which to define the permanent meaning of Romanticism but as data of cultural history that shed important light on an evolving civilization.

The *Romanticism* series in the Comparative History of Literatures in European Languages is the result of a remarkable international collaboration. The editorial team coordinated the efforts of over 100 experts from more than two dozen countries to produce five independently conceived yet interrelated volumes that show not only how Romanticism developed and spread in its principal European homelands and throughout the New World but also the ways in which the affected literatures in reaction to Romanticism have redefined themselves on into Modernism. A glance at the index of each volume quickly reveals the extraordinary richness of the series total contents. *Romantic Irony* sets the broader experimental parameters of comparison by concentrating on the myriad expressions of irony as one of the major impulses in the Romantic philosophical and artistic revolution and by combining cross cultural and interdisciplinary studies with special attention also to literatures in less widely diffused language streams. *Romantic Drama* traces creative innovations that deeply altered the understanding of genre at large fed popular imagination through vehicles like the opera and laid the foundations for a modernist theater of the absurd. *Romantic Poetry* demonstrates deep patterns and a sharing of crucial themes of the revolutionary age which underlie the lyrical expression that flourished in so many languages and environments. *Nonfictional Romantic Prose* assists us in coping with the vast array of writings from the personal and intimate sphere to modes of public discourse including Romanticism's own self commentary in theoretical statements on the arts society life the sciences and more. Nor are the discursive dimensions of imaginative literature neglected in the closing volume *Romantic Prose Fiction* where the basic Romantic themes and story types the romance novel novella short story and other narrative forms are

considered throughout Europe and the New World This enormous realm is seen not just in terms of Romantic theorizing but in the light of the impact of Romantic ideas and narration on later generations As an aid to readers the introduction to Romantic Prose Fiction explains the relationships among the volumes in the series and carries a listing of their tables of contents in an appendix No other series exists comparable to these volumes which treat the entirety of Romanticism as a cultural happening across the whole breadth of the Old and New Worlds and thus render a complex picture of European spiritual strivings in the late eighteenth and the nineteenth centuries a heritage still very close to our age

studies of nationalism this book will be of interest to researchers working in the fields of history European and South Asian area studies philosophy political science and IR theory     *Catalogue of a German Home and Family Library* Germany.
