The Secret Life of Kids James W. Peterson, 2000-10-29 It all began when James Peterson was a camp counselor and two children watching him

meditate described the colors they saw around his form we saw colors coming out of his stomach And the outside was purple then it was blue then it was yellow then reddish and light yellow in the middle Studies indicate that almost seven percent of young children have such psychic experiences For the most part they don t tell anybody about them for fear of being ridiculed But the author believes it would be psychologically healthy for them to relate such occurrences to adults if they feel the need In this book Peterson has put together a charming collection of case histories about such psychic episodes He believes they should be accepted as factual that frequently they emanate from the wisdom of innocence present in youngsters The question of the secret life of kids is examined by Peterson from the point of view of philosophy occultism and child psychology He suggests why and how such experiences manifest and their potential value to the child s growth pattern

SUCCESSFUL SECRETS FROM DALE CARNEGIE Paul Carnegie,2019-11-25 These books How to win friends and influence People How to stop worrying and start living and How to Develop Self confidence and Influence People by Public Speaking have been carefully selected in order for you to have a full grasp and better understanding of how to live a fulfilled lively knowledgeable and experience filled life Even albeit life is not a bed of roses there are paramount things we need to know so as to make life worth it One of the core reasons why we intend to write this overview is for people to have a deep desire inner mind driving attitude to learn and a vigorous cum rigorous determination to increase their ability to deal with people in life Dale Carnegie has successful stressed in these books on how to succeed in human relations develop self confidence and stop worrying These are the basic life traits every human should possess without a blinking of an eye over what the consequence will look like Many have been successful by learning adapting and adopting these mindsets or set of skills However you cannot learn this in a day or two but with constant practice and resilience you will surely master them To buttress further we have got to understand that there are positives things we can pick around us and get to know people more by caring loving and compassionate about others instead of us talking only about ourselves Yes it is really good to talk about yourself and express how you feel to others which is an omen that you are not an introvert or someone who doesn t like to talk to others But once it comes to us listening to others people s views and interest we seem to be dissatisfied in many ways some may even show the kind of lackadaisical attitude

that is uncouth towards others You have to know that by listening to people you show true sincere and genuine care to others wellbeing and not yours alone Your empathy and utmost love will go a long way in making people feel you are really concerned about them not just talking about yourself more often than not In the chosen books what we find inspiring and intriguing about Carnegie s capsule advice guidelines principles and paracetamol solutions to life challenges is that it is generic and highly applicable to the vast majority of people irrespective of socioeconomic status political concern cultural factor disability condition racial or ethnic background among other primordial factors Obviously the benefit of applying this guidelines and principles will vary depending on people s backgrounds but for the vast majority of people there should be some positive non zero benefit That is what really counts In fact those who read the book will have the urge to keep the book such as How to Win Friends and Influence People on their desk as a constant reminder for them to keep applying the principles therein Then a year a later or so they can look back and see if they have developed into a better solid and more fulfilled human beings Such is the great impact of the book and others However it will be totally naive to say that by implementing these techniques we will always get the outcome we desire But the experience of most people shows that we are more likely to change attitudes stop worrying over issues that we can simply overcome by taking actions and start developing self confidence and influence people with these approaches than by not using these principles Even if we increase our success by a mere 10% we have become 10% more effective as leaders than we were before With consistent practice it will become even more natural to apply these principles every day and soon we will be masters of the art of human relations Some principles in the book How to win friends and influence People are what we wish everyone inculcate in order to develop rapidly and be loved by many even albeit everyone cannot love you The principles we have carefully highlighted in the book such as don t criticize condemn or complain always give honest and sincere appreciation and arouse in the other person an eager want These principles are essential in human interaction and for relating with others you will need to master them by heart and by repeated practice you will surely learn them and they will be part and parcel of your life For the book How to stop worrying and start living you will learn how to break the worry habit and throw it away in the deep sea now and forever With Dale Carnegie s timeless advice in hand it is a fact and not a farce that more than six million people have learned how to eliminate debilitating and devastating fear and worry from their lives and to embrace a worry free future In this classic work How to Stop Worrying and Start Living Carnegie offers a set of practical formulas that you can put to work today and every time in your day to day activities It is a book packed with a whole lot of lessons that will last a lifetime and make your lifetime happier as many have used it in the past and many are still making use of the same at the moment With the book you will discover how to successfully apply the following to your life such as Eliminate fifty percent of business worries immediately Reduce financial worries Avoid fatigue and keep looking young Add one hour a day to your waking life and Find yourself and be yourself remember there is no one else on earth like you These and many more you will be able to

learn from Dale Carnegie's book *How to Stop Worrying and Start Living*. It is suitable to read and easy to apply. *How to Stop Worrying and Start Living* deals with fundamental emotions and life-changing ideas. There's no need to live with worry and anxiety that keep you from enjoying a full active life. We shall enumerate on this in the subsequent chapters. In the book *How to Develop Self confidence and Influence People by Public Speaking* by Dale Carnegie, he wrote that many people are having difficulties with public speaking. As the introduction encourages readers to not feel ashamed about it because some of the best speakers we have come to know these days had also experienced it before their success that we have come to cherish. To be able to overcome weakness in public speaking, Dale Carnegie mentioned 4 essential things before explaining things further: they are: Start with a strong and persistent desire to know thoroughly what you are going to talk about; act confident; practice, practice, practice. The author also stated that most people who had difficulties in public speaking are caused by lack of confidence, that's why it's very important to develop confidence first and others piece of skills needed should follow. Thus, the book shares several things that help build confidence while delivering speeches, such as the procedure of preparing a speech, how to improve your memory, how to deliver a good speech, how to open and close a talk, how to interest your audience, and also how to improve your diction. Yours sincerely, each part provides good and not so good examples that we can learn from. Many good ones came from famous people such as Abraham Lincoln, and those examples are discussed, and the author points out the things that are vital. In addition to what you can get to learn from this book is that there are awesome and excellent quotes in the book that will really motivate, titillate, and give you the necessary impetus to your self confidence and public speaking. The first one is a quote by Elbert Hubbard p 86: "We are only going to write a part of it which says: Picture in your mind the able earnest useful person you desire to be, and the thought you hold is hourly transforming you into that particular individual. Thought is supreme. Preserve a right mental attitude: the attitude of courage, frankness, and good cheer. To think rightly is to create. All things come through desire, and every sincere prayer is answered. We become like that on which our hearts are fixed." The second is a quote by Anon p 100: "If you think you are beaten, you are. If you think you dare not, you don't. If you'd like to win but think you can't, it's almost a cinch you won't. Life battles don't always go to the stronger or faster man. But soon or late the man who wins is the one who thinks he can." We think the above quote is a very motivational, poetic, and beautiful quote. When you keep reading it over and over, and you will still get that same amazed feeling. From our perspective, there are many things to learn about public speaking from the book. It almost feels like you are reading a high school textbook as the content is brilliant. The overall message in the book is excellent and worth the read, especially for those who want to improve their public speaking skills. This is definitely the book to read. Besides, you will gain self confidence, improve your memory, make your meaning clear, begin and end a talk, interest and charm your audience, improve your diction, win an argument without making enemies, among others. *How to Develop Self Confidence and Influence People by Public Speaking* also offer hundreds of practical, valuable tips, pragmatic guidelines on influencing the

Areas of Learning Basic to Lifelong Education

P. Lengrand, 2016-05-27 The study of lifelong education brings to light aspects of education which go beyond the purely intellectual sphere into all dimensions of being These dimensions assume great importance for individuals seeking to develop capacities which will enable them to cope successfully with the challenges they will confront throughout life and to participate constructively in the larger processes of development The subjects covered include communication corporal man time space art man as citizen the ethical domain technology and the scientific spirit and from these papers emerges the unifying theme of the interrelationship between morality and technology This relationship poses the vital question of how individuals should decide which of the new technologies that proliferate in contemporary society is likely to be beneficial to humankind and which destructive The book is the result of a collective project undertaken by the Unesco Institute of Education UIE The approach adopted is new in two respects first each theme is treated in terms of learning and second each is related to the others in a global and transdisciplinary view of personal development It is written by experts from various countries who are known internationally for their outstanding contributions to research into the problems of learning as a basis for lifelong education and will be important reading for all those involved in the study and practice of lifelong education
