engaged with issues which are still crucial in the 21st century Far from being politically neutral Antonioni's oblique and abstract approach makes possible the prising open and devaluation of the morally and politically constrictive organic narrative structures His approach overthrows the primacy of character and plot on the one hand by showing them to be emanations of the spectral materiality of capital and on the other hand by allowing for an opening into the utopian dimension implying engagement in the rethinking of our attachments to the world Sophie's Secret Anne Weale,2011-07-15
