

The background image shows the interior of a large, historic church. The upper half features a high, vaulted ceiling with intricate stone tracery and a series of ribbed arches. The lower half shows a modern lounge area with a circular arrangement of low tables and stools, illuminated by a warm, orange glow. A large, circular, illuminated structure hangs from the ceiling in the center of the lounge. People are seated at the tables, and a long white table with chairs is visible in the foreground.

Secularization Rationalism And Sectarianism Essays In Honour Of Bryan R Wilson:

Secularization, Rationalism, and Sectarianism Bryan R. Wilson, 1993 How secular is contemporary society Are pockets of sectarianism embedded in societies of developed countries This timely book examines the interweaving of politics and religion and of tradition and innovation in a variety of cultural settings Eminent scholars from four continents examine here current turmoil in religious beliefs practices and organization not only in the Western world but in South America Africa South Asia New Zealand and Japan They scrutinize evidence of religious change decline and revival investigate challenges posed by new religious movements and locate religious change and conflict in the context of broader shifts in consciousness and culture Contributors include Richard Fenn Phillip E Hammond David Martin Philip Rieff Roland Robertson and Mark Schibley With its focus on the interplay of secularization rationalism and sectarianism this work offers a fitting tribute to Bryan Wilson who has made so many contributions to the sociological understanding of these phenomena Secularization

in the Long 1960s Clive D. Field, 2017 Using empirical research this study provides a clear guide to the current state of the debate surrounding secularization in Britain during the long 1960s **Encountering Buddhism in Twentieth-Century British and American Literature** Lawrence Normand, Alison Winch, 2013-10-24 Encountering Buddhism in Twentieth Century British and American Literature explores the ways in which 20th century literature has been influenced by Buddhism and has been in turn a major factor in bringing about Buddhism s increasing spread and influence in the West Focussing on Britain and the United States Buddhism s influence on a range of key literary texts will be examined in the context of those societies evolving modernity Writers discussed include T S Eliot Hermann Hesse Virginia Woolf Jack Kerouac Allen Ginsberg J D Salinger Iris Murdoch Maxine Hong Kingston This book brings together for the first time a series of context rich interpretations that demonstrate the importance of literature in this ongoing cultural change in Britain and the United States

Empowering the People Richard A. Horsley, 2022-03-25 In this innovative study Horsley builds on his earlier works concerning the problematic and misleading categories of magic and miracle to examine in depth the meaning and importance of the narratives of healing and exorcism in the Gospels Incorporating his work on oral performance and turning to important works in medical anthropology a new image emerges of how these narratives help us re evaluate Jesus s place in first century Galilee and Judea In his exorcisms and healings Jesus in interaction was empowering the villagers in their struggles for renewal of personal and communal dignity in resistance to invasive Roman rule **Jesus and Magic** Richard A Horsley, 2015-04-30 It has become standard in modern interpretation to say that Jesus performed miracles and even mainline scholarly interpreters classify Jesus s healings and exorcisms as miracles Some highly regarded scholars have argued more provocatively that the healings and exorcisms were magic and that Jesus was a magician As Richard Horsley points out if we make a critical comparison between modern interpretation of Jesus s healing and exorcism on the one hand and the Gospel stories and other ancient texts on the other hand it becomes clear that the miracle and magic are modern concepts products

of Enlightenment thinking Jesus and Magic asserts that Gospel stories do not have the concepts of miracle and magic What scholars constructed as magic turns out to have been ritual practices such as songs incantations medicines potions and appeals to higher powers for protection Horsley offers a critical reading of the healing and exorcism episodes in the Gospel stories This reading reveals a dynamic relationship between Jesus the healer the trust of those coming for healing and their support networks in local communities Horsley s reading of the Gospel stories gives little or no indication of divine intervention Rather the healing and exorcism stories portray healings and exorcisms

The Encyclopedic Sourcebook of New Age Religions James R. Lewis,2004-08-30 In the late 1980s the New Age movement became the focus of both media attention and widespread ridicule as some of the more outlandish aspects of the movement such as channeling and the use of crystals for healing briefly piqued the public s curiosity While the movement was at its height scholars of religion generally sneered at what was perceived to be a daffy shallow craze and ignored it as a subject of serious study Professor James R Lewis was among the first to examine this growing religious phenomenon scientifically In previous books he has investigated the New Age as the most visible manifestation of a significant spiritual subculture the roots of which reach back to Theosophy Spiritualism and New Thought The present collection pursues this theme bringing together some of the best recent scholarship on new religions Since the height of its popular influence the New Age has declined in strength but has given rise to a plethora of new denominations all shaped by New Age ideas and spirituality Reflecting the emergence of this new denominational structure the core chapters of this book focus on specific groups Other chapters examine the movement s historical roots A unique feature of Dr Lewis s work is his inclusion of extensive selections from New Age literature thus allowing readers to experience firsthand the unusual perspectives of the various groups This is a fascinating examination of a significant and persistent religious and social phenomenon

Religion in the Contemporary World Alan Aldridge, 2013-04-03 In the new edition of this widely praised text Alan Aldridge examines the complex realities of religious belief practice and institutions Religion is a powerful and controversial force in the contemporary world even in supposedly secular societies Almost all societies seek to cultivate religions and faith communities as sources of social stability and engines of social progress They also try to combat real and imagined abuses and excess regulating cults that brainwash vulnerable people containing fundamentalism that threatens democracy and the progress of science and identifying terrorists who threaten atrocities in the name of religion The third edition has been carefully revised to make sure it is fully up to date with recent developments and debates Major themes in the revised edition include the recently erupted culture war between progressive secularists and conservative believers the diverse manifestations of fundamentalism and their impact on the wider society new individual forms of religious expression in opposition to traditional structures of authority and the backlash against multiculturalism with its controversial implications for the social integration of ethnic and religious minority communities Impressive in its scholarly analysis of a vibrant and challenging aspect of human societies the third edition will appeal strongly to students taking courses in the sociology of religion and religious studies as well as to everyone interested in the place of religion in the contemporary world *The Social Unconscious* Earl Hopper, 2003 The social unconscious and its manifestations in group analysis are the focus of this important new book of Earl Hopper s selected papers Drawing on sociology psychoanalysis and group analysis he argues that groups and their participants are constrained unconsciously by social cultural and political facts and forces Traumatic

Innovation in the Orthodox Christian Tradition? Trine Stauning Willert, Lina Molokotos-Liederman, 2016-05-23 The relationship between tradition and innovation in Orthodox Christianity has often been problematic filled with tensions and contradictions starting from the Byzantine era and running through the 19th and 20th centuries For a long period of time scholars have typically assumed Greek Orthodoxy to be a static religious tradition with little room for renewal or change Although this public perception continues the immutability of the Greek Orthodox tradition has been questioned by several scholars over the past few years This book continues this line of reasoning but brings it into the centre of contemporary discussion Presenting case studies from different periods of history up to the present day the authors trace different aspects in the development of innovation and renewal in Orthodox Christianity in the Greek speaking world and among the Diaspora
