Global Markets, Domestic Institutions Curtis J. Milhaupt, 2003-11-19 Markets for capital products and managerial talent are expanding rapidly across national borders yet domestic laws and practices have never had greater impact on corporate structures and cross border deals Investors pursuing high returns and diversification entrepreneurs seeking capital and managers endeavoring to restructure troubled enterprises now routinely face transaction counter parties who operate within different legal and political systems and who rank social priorities quite differently This dynamic tension between global markets and domestic institutions fuels the debate on corporate governance reform now raging in virtually every region of the world It also frames the intellectual agenda of the distinguished contributors to this volume who examine such issues as the possible convergence of corporate governance practices around the world national variations in the quality of corporate law and the fiduciary responsibilities corporate managers around the world owe to their shareholders Among the book s many insights is the contention that globalization and global markets are misleading terms because they mask the local quality of much of the activity occurring within those rubrics Case studies focus on France Germany Italy Japan Korea Taiwan and the transition economies of Eastern Europe *Legal Information* Kent Olson, 1998-11-19 Now at last there is a comprehensive and readable guide designed to help librarians scholars and the general public quickly find the legal information they need While most legal research books focus on the needs of beginning law students or litigants *Legal Information* takes a broader view of the law including its value in other disciplines It explains why legal information exists in certain formats and describes how to get the most out of the major legal reference tools It also suggests the best sources for different kinds of information and explains how these resources compare to other available materials **Islamic Capital Markets and Products** Simon Archer, Rifaat Ahmed Abdel Karim, 2017-12-26 Ensure Basel III compliance with expert analysis specific to Islamic Finance *Islamic Capital Markets and Products* provides a thorough examination of Islamic capital markets ICM with particular attention to the products that they offer and the legal and regulatory infrastructure within

which they operate Since Islamic banks act as asset managers attention is paid to the regulatory challenges which they face in the light of Basel III as regards both eligible capital and liquidity risk management The authors of the chapters are professionals and practitioners and write from experience The editors also contributed to some of the chapters The markets and products covered include Islamic equities Islamic investment certificates Suk k which are Shari ah compliant alternatives to conventional bonds and Islamic Collective Investment Schemes The coverage of legal and regulatory issues includes an examination of the implications for ICM of securities laws and regulations and of Basel III as well as collateralisation issues Shari ah compliance aspects in terms both of the selection criteria for Islamic equities and of the purification of impermissible components of income are also examined in some detail as are the implications of Basel III for eligible capital in general and for Shari ah compliant capital instruments in particular A similar analysis is also made of the implications of the Basel III requirements for liquidity risk management and high quality liquid assets HQLA including Shari ah compliant HQLA The book concludes with three case studies two describing the ICM in Malaysia and Bahrain and a third which describes Suk k issued as Shari ah compliant capital instruments followed by brief concluding remarks by the editors
