Security In The New Millennium Views From South Asia:

Southeast Asian Security in the New Millennium Richard J. Ellings, Sheldon W. Simon, 2016-09-16 Assessing trends toward creating innovative forms of political economic and security co operation in Southeast Asia this text discusses the international dynamics of Southeast Asian security and its impact on such external factors as the US China and Japan

Southeast Asian Security in the New Millennium ,1996 **South Asia Security** Manan Dwivedi, 2009 The academic work titled as South Asia Security is a honest striving to delve into the notion of security in the South Asian Region which is under the arc of the Indian subcontinent The Book objectifies the differentiation between the traditional and convention notions of security which is avowedly power centric with the new tenet of Comprehensive Human security which entails the concerns of sustainable development Human Rights Gender Empowerment along with the notions of Globalization and all pervading tenet of Interdependence with the advent of neo liberal institutionalism The book aims to posit the traditional bilaterals in the South Asian firmament in the larger than life matrix of new age convergence and Interdependence **South Asia in 2020** Michael R. Chambers, 2002 *Security in the New Millennium* Rajesh M. Basrur, 2001 In South Asia the expanded people centric conception of security is gradually finding voice Yet the older elitist notion of security remains well entrenched within the power structure of state and society In this volume eminent scholars from the region break out of the mould and draw attention to the diverse facets of security from the standpoint of the average South Asian man woman and child They explore vital security issues relating to economic well being ethnic identity religion gender and political legitimacy In doing so they seek a more comprehensive and democratic basis for the understanding of security in the region Globalization and Environmental Challenges Hans Günter Brauch, Úrsula Oswald Spring, Czeslaw Mesjasz, John Grin, Pál Dunay, Navnita Chadha Behera, Béchir Chourou, Patricia Kamari-Mbote, P. H. Liotta, 2008-01-23 Put quite simply the twin impacts of globalization and environmental degradation pose new security dangers and concerns In this new work on global security thinking 91 authors from five continents and many disciplines from science and practice assess the worldwide reassessment of the meaning of security triggered by the end of the Cold War and globalization as well as the multifarious impacts of global environmental change in the early 21st century Prospects for Peace in South Asia Rafiq Dossani, Henry S. Rowen, 2005 Dossani s book addresses the largely hostile often violent relations between India and Pakistan that date from their independence in 1947 **Nuclear Risk Reduction in South Asia** Michael Krepon, 2004-11-26 The essays in this collection explore and analyze how to reduce the risk of nuclear war in South Asia Contributors work to introduce the theory and methodology of nuclear risk reduction to provide specific measures that might work best in the region and to consider the consequences of missile defense options for stability in Asia Much work is needed to reduce nuclear dangers between India and Pakistan While the fact that both countries possess nuclear weapons may prevent a full blown conventional or nuclear war the presence of these weapons in the region may also encourage the use of

violence at lower levels expecting escalation to be contained by a mutual desire to avoid the nuclear threshold One only needs to look at the Kashmir conflict for confirmation of this paradox with serious crises coming more frequently with more severity since the nuclear tests of 1998 Sustained efforts along the line suggested by the contributors of this volume are a crucial step toward reducing nuclear risk on the Subcontinent

Cricket in the 21st Century Souvik Naha, Dominic Malcolm, 2023-11-27 This book examines the ways in which cricket has reflected and reproduced some of the social and political tensions of the twenty first century Cricket s struggle for global recognition and the shifting concerns about cricket s perceived character provide two of the most significant meta narratives to shape the game s historical and future development However in contrast to the degree of continuity these narratives appear to support the game is currently undergoing a particularly rapid and radical phase of change This book illustrates some of these dominant processes that can be broadly categorized as the changing political economy of the game the nation specific manifestations of cricket s political economic landscape and the intro and retrospection within the English game Cricket is not only thriving across the world its global spread reveals narratives of migration national and international politics astute governance empowerment of people and cultural practices of everyday life New ethical political and identity related concerns have arisen with the reworking of the objectives and methods of playing and watching cricket The chapters in this volume employ cricket as a useful conceptual tool to analyse the dynamics underwriting interactions between races sexes classes and polities Cricket in the 21st Century will be a fascinating read for students scholars as well as general readers with an interest in the sociology and history of sport and global political economy The chapters in this book were originally published as a special issue of Sport in Society

Asian Security Handbook William M. Carpenter, David G. Wiencek, James R. Lilley, 2019-06-19 Featuring 19 individual country profiles this volume seeks to shed light on the key political and security factors and geo political trends in the Asia Pacific region that bear monitoring and that will have greater significance in the post Cold War environment

Minimum Deterrence and India's Nuclear Security Rajesh M. Basrur, 2009 In this book the leading authority on India s nuclear program offers an informed and thoughtful assessment of India s nuclear strategy Basrur shows that the country s nuclear culture is generally in accord with the principle of minimum deterrence but sometimes drifts into a more open ended view

South Asia in Transition B. Chakma, 2014-06-25 Combining theoretical and empirical insights this book provides an in depth analysis of South Asia s transition in the areas of democracy political economy and security since the end of the Cold War It provides a close scrutiny to the state of democracy and political economy in India Pakistan and Bangladesh

Violence, Terrorism, and Human Security in South Asia Ajay Darshan Behera, 2008

Vietnam Joins the World James W. Morley, Masashi Nishihara, 1997-01-07 Ten American and Japanese specialists offer a comprehensive analysis of one of the most dramatic developments in Asia today the reemergence of Vietnam not as the belligerent champion of a militant ideology and socialist causes but as an open friendly country seeking a respected place in the world community Basing their

observations on five years of study visits to Vietnam and numerous interviews with knowledgeable officials scholars and businessmen there and in the United States and Japan the authors evaluate the political economic social and foreign policy changes that have been taking place in Vietnam over the past decade trace the responses of the United States and Japan and offer a policy prescription for responding to the challenges of the future Peace and Security in South Asia Umbreen Javaid,2006 Handbook on the United States in Asia Andrew T.H. Tan,2018-09-28 The centre of gravity in today's global economy arguably now resides in Asia As a result of this the maintenance of geopolitical and economic security in Asia has become pivotal to global stability This indispensable Handbook examines the crucial and multifaceted role of the United States as a force in the region that has been and continues to be necessary for the continuation of Asian prosperity

Deterrence and the New Global Security Environment Ian R. Kenyon,John Simpson,2013-10-18 This collection of papers rigorously examines the current place of deterrence in international security relations delivering the best of contemporary thinking This is a special issue of the leading journal Contemporary Security Policy It shows how and why nuclear deterrence was the central organizing mechanism for international security relations in the second half of the twentieth century It has been replaced by a new global security environment in which the central role of deterrence both nuclear and otherwise appears to have diminished The Cold War has been succeeded by a new state of play This book will be of interest to students of military and naval history and security studies *Institutional Balancing in the Asia Pacific* Kai He,2009 This book examines the strategic interactions among China the United States Japan and Southeast Asian States in the context of China's rise and globalization after the cold war Engaging the mainstream theoretical debates in international relations the author introduces a new theoretical framework institutional realism to explain the institutionalization of world politics in the Asia Pacific after the cold war Institutional realism suggests that deepening economic interdependence creates a condition under which states are more likely to conduct a new balancing strategy institutional balancing i.e. countering pressures or threats through initiating utilizing and dominating multilateral institutions to pursue security under anarchy To test the validity of institutional realism Kai He examines the foreign policies of the U.S. Japan the ASEAN states and China toward four major multilateral institutions Asia Pacific Economic Cooperation APEC the Association of Southeast Asian Nations ASEAN Regional Forum ARF ASEAN Plus Three APT and East Asian Summit EAS Challenging the popular pessimistic view regarding China's rise the book concludes that economic interdependence and structural constraints may well soften the dragon's teeth China's rise does not mean a dark future for the region Institutional Balancing in the Asia Pacific will be of great interest to policy makers and scholars of Asian security international relations Chinese foreign policy and U.S. foreign policy **India's Spatial Imaginations of South Asia** Shibashis Chatterjee,2018-12-14 Since India attained independence its foreign policy discourse has imagined its South Asian neighbourhood through the politics of realism This imagination explicates state interest in South Asia by establishing it as a space of sovereign territoriality Even

today India's foreign and security policies are primarily shaped by geopolitical centrism and remain unaffected by economic prosperity and community concerns. As a part of the Oxford International Relations in South Asia series, this volume examines alternative conceptions of South Asian space in terms of geo-economics and community and justifies why they have been unable to replace its dominant understanding irrespective of the political regime. This volume probes reasons behind the relevance of differentiated cartography of territorial nationalism in our shared understanding of space, politics, society, and the community.

International Relations Theory and South Asia (OIP) E. Sridharan, 2014-11-13

Bringing together scholarship from several South Asian countries, this volume understands conflict resolution and cooperation building in the region. The essays cover three inter-related issues: security, political economy, domestic politics, and the construction of identities and normative frameworks. They employ broader social science theorizing, particularly in relation to political economy, to go beyond conceptualizations based on international relations theory. The volume takes a fresh look at the inter-relationships between issues and their analyses and eschews stand-alone topics such as Kashmir, nuclear policies, or regional cooperation. Combining theory with fieldwork, it provides diverse perspectives and arguments for a more nuanced picture of international relations in South Asia.
