Security Interdependence In The Asia Pacific Region:

Security Interdependence in the Asia Pacific Region James William Morley, 1986 **Asia-Pacific Security** Joanne Wallis, Andrew Carr, 2016-10-01 This new textbook gathers an international roster of top security studies scholars to provide an overview of Asia Pacific's international relations and pressing contemporary security issues. It is a suitable introduction for undergraduate and masters students use in international relations and security studies courses. Merging a strong theoretical component with rich contemporary and historical empirical examples, *Asia-Pacific Security* examines the region's key players and challenges as well as a spectrum of proposed solutions for improving regional stability. Major topics include in depth looks at the United States relationship with China, security concerns presented by small and microstates, the region's largest group of nations, threats posed by terrorism and insurgency, the region's accelerating arms race and the potential for an Asian war, the possible roles of multilateralism, security communities and human security as part of solutions to regional problems.

Regional Security in the Asia Pacific Marika Vicziany, David P. Wright-Neville, Peter Lentini, 2004-03-25 The September 2001 terrorist attacks shocked the world. But what did they change? In this book, Asia specialists from academe and policy think tanks assess the impact of 9/11 on the Asia Pacific. Drawing on unique fieldwork access to a wide range of documents and inside expertise, the authors consider how old geo-strategic and cultural fault lines have been overlaid with new security threats from state and non-state actors. With chapters on specific countries and regions, defense policies, terrorism and current and potential conflict zones, this collection critically examines the Asia Pacific region's post 9/11 as well as post Iraq war security architecture.

Constructing a Security Community in Southeast Asia Amitav Acharya, 2014-03-26 In this third edition of *Constructing a Security Community in Southeast Asia*, Amitav Acharya offers a comprehensive and critical account of the evolution of the Association of Southeast Asian Nations (ASEAN) norms and the viability of the ASEAN way of conflict management. Updates for this edition include: Expanded and updated coverage of the South China Sea Conflict and how it affects regional order and tests ASEAN unity; Analysis of new developments in the US role in the region including ASEAN's place and role in the US pivot/rebalancing strategy and the evolution of the East Asian Community; the newest summit level multilateral group; Extensive analysis of the ASEAN Political Security community; An examination of US-China relations and China-ASEAN relations; Coverage of ASEAN's institutional development and the controversy over reform of the ASEAN Secretariat; An updated outlook on ASEAN's future as a security community and the issue of ASEAN Centrality in the regional security architecture. The new edition will continue to appeal to students and scholars of Asian security, international relations theory and Southeast Asian studies as well as policymakers and the media.

Japan's Security and Economic Dependence on China and the United States Keisuke Iida, 2017-07-06 With the rise

of China Japan and many East Asian countries are caught between maximizing profit from economic ties with her and strengthening alliances with the United States to prevent China from overpowering them Liberals and realists thus debate over the likelihood of either security tensions easing up or economic interdependence getting reduced eventually On the other hand Iida introduces a new theory that reinterprets the relationship between state security and economic interdependence among countries in the Asia Pacific region Based on case studies of recent episodes in East Asia and especially on the experiences of Japan this book highlights an interesting dynamic between security and economic interdependence risk avoidance By understanding how risk avoidance affects the behavior of these countries in terms of security and economics it becomes evident how they eventually settle into what Iida calls Cool Politics and Lukewarm Economics

The Geopolitics of Australia's Regional Relations D. Rumley, 2001-06-30 The origins of this book go back 30 years to the stimulation and interest generated by the political geography seminars led by John House at the University of Newcastle Upon Tyne I was very fortunate to graduate among its extremely capable sporty and enthusiastic class of 68 from where several academic geographers emerged Equally fortunately some of them and their predecessors had already blazed a trail to undertake graduate studies in Canada At the University of British Columbia I was supervised at different times by Julian Minghi and Victor Prescott both of whom are not only extremely capable academics but are also very fine people I owe an enormous debt to John Julian and Victor and to the British and Canadian taxpayers who provided financial support for my University studies In 1974 I began an academic career at the University of Western Australia where I have been ever since save for a two year period from 1991-3 as Professor of Australian Studies in the Department of International Relations at the University of Tokyo Viewing Australia and the Asia Pacific region from this different perspective within an extremely supportive Japanese environment had a profound impact I am especially grateful for the support provided by so many Japanese academic colleagues and friends beginning as early as 1976 Three individuals deserve special mention for their help guidance and enduring friendship George Ohshima Hiroshi Tanabe and Akihiro Kinda

Asian Security and the Rise of China David Martin Jones, Michael Lawrence Rowan Smith, Nicholas Khoo, 2013-01-01 Khoo Jones and Smith have pulled off a remarkable balancing act crafting a well grounded and multifaceted survey of China's rise in the context of Asian security In a field which is often marked more by scholarly effervescence than

substance the authors provide a refreshingly detailed portrait of the last two decades and fair mindedly point out evidence which might support both extremes of the debates they challenge with their own third way

Frank Scott Douglas US Naval War College US Congratulations to the authors for a clearly argued and comprehensive treatment of China's post Cold War rise and what it means for existing and future dynamics of the Asia Pacific region Effectively employing realist theory in a fair minded treatment of regional developments the volume shows how and why power realities are more important than non material factors in determining the region's trajectory and thereby demonstrates that China's ascendance in Asia remains complicated and conflicted

Robert Sutter George Washington University US East Asia is without question a region of huge economic political and security significance Asian Security and the Rise of China offers a comprehensive overview and assessment of the international politics of the Asia Pacific since the end of the Cold War seeking to address the overarching question of how we can most convincingly explain the central dynamics of Asia's international relations Via a realist perspective on the dynamics and frictions associated with accommodating the rise of powerful states this timely book addresses the core issue in contemporary Asian politics the rise of China The contributors expertly evaluate China's rise and the impact it has had on the dynamics of regional relations in North East and South East Asia It demonstrates that China's economic development and its regional and international ambition increasingly conflict with the existing consensus based regional arrangements like the ASEAN Regional Forum and the East Asian Summit mechanism As a consequence smaller states in the region increasingly resort to hedging and balancing strategies in an attempt to mitigate Chinese hegemony This leaves the region in the grip of a complex and potentially destabilizing security dilemma The book offers a compelling analysis of the problem that China presents for its region that will enlighten undergraduate students of regional political studies and international relations Postgraduate and Master's students on courses addressing East and South East Asia will also find plenty of information in this invaluable book

Japanese Defence Syed Javed Maswood,1990 This book focuses on the defence policy of the Nakasone administration and attempts to provide an explanation for the policy measures which its administration implemented or initiated It suggests that the widening disparity between economic interests and political power forced Japan to review the traditional bases for defence policy making and prompted the search for a balance that would allow the country a more active role in the international sphere The book is organized around the central theme that Nakasone's defence policy can be understood as an attempt to rehabilitate Japan as a normal state and end the state of affairs that had relegated it to a unique and low position
