Security Issues and the Law of the Sea David Larson,1994 To find more information on Rowman Littlefield titles please visit us at [www.rowmanlittlefield.com](http://www.rowmanlittlefield.com)      **Maritime Security and the Law of the Sea** Natalie Klein,2012-10-04 Maritime Security and the Law of the Sea examines the rights and duties of states across a broad spectrum of maritime security threats It provides comprehensive coverage of the different dimensions of maritime security in order to assess how responses to maritime security concerns are and should be shaping the law of the sea The discussion sets out the rules regulating passage of military vessels and military activities at sea law enforcement activities across the different maritime zones information sharing and intelligence gathering as well as armed conflict and naval warfare In doing so this book not only addresses traditional security concerns for naval power but also examines responses to contemporary maritime security threats such as terrorism weapons of mass destruction piracy drug trafficking environmental damage and illegal fishing While the protection of sovereignty and national interests remain fundamental to maritime security and the law of the sea there is increasing acceptance of a common interest that exists among states when seeking to respond to a variety of modern maritime security threats This book argues that security interests should be given greater scope in our understanding of the law of the sea in light of the changing dynamics of exclusive and inclusive claims to ocean use More flexibility may be required in the interpretation and application of the UN Convention on the Law of the Sea if appropriate responses to ensure maritime security are to be allowed      *Maritime Security and the Law of the Sea* Sir Malcolm D. Evans,Sofia Galani,2020-01-31 Exploring everything from contemporary challenges to ocean security this book offers detailed insights into the increasing activities of state and non state actors at sea Chapters revisit the United Nations Convention on the Law of the Sea LOSC highlighting how not all maritime security threats can be addressed by this and further looking at the ways in which the LOSC may even hinder maritime security      **Japanese Maritime Security and Law of the Sea** Yurika Ishii,2021-12-20 Japan the geopolitical lynchpin in the East Asian region has developed a unique maritime security policy and interpretation of the law of the sea Japanese Maritime Security and the Law of the Sea is the first title to provide a comprehensive and detailed analysis on these themes in English examines Japan s domestic laws and its approach to international law The topics covered include Japan s claim over its maritime entitlement policies on the use of force at sea and the mandates of the Self Defense Force and the Japan Coast Guard to use coercive measures in maritime zones and airspace both in peacetime and in times of emergency      Non-Traditional Security Issues and the South China Sea Shicun Wu,Keyuan Zou,2016-05-23 While there is abundant literature discussing non traditional security issues there is little mention of such issues existing in the South China Sea This area is vulnerable to natural hazards and marine environmental degradation The marine ecosystem is threatened by various adverse sources including land based pollution busy shipping lanes and over exploitation activities which threaten the security of the surrounding population This area is also threatened

by piracy and maritime crimes but law enforcement becomes difficult due to unclear maritime boundaries This volume is designed to explore the security cooperation and regional approaches to these non traditional security issues in the hope to build a peaceful environment and maintain international and regional security and order in the South China Sea region

**Advances in Marine Environmental Protection: Challenges, Solutions and Perspectives** Mehran Idris

Khan,Yen-Chiang Chang,Wen-Hong Liu,2025-04-29 Environments have no boundaries and no borders Managing oceanic environments particularly the threats and risks of pollution should also consider the shared responsibility of all coastal states Emerging issues for oceanic pollution governance include global changes like rising temperature ocean acidification but also disturbances of ecosystem functioning by plastic and pollution by other emerging contaminants for example noise pollution and deep sea mining These call for efficient and sustainable prevention and restoration strategies such as efficient urban and industrial sewage treatment plants efficiently administered transnational marine protected areas and among others sustainable aquaculture extensive small scale fisheries Environmental protection warrants the development of interrelationships between marine sciences relevant industries and ocean governance developing internationally accepted rules and regulations for sustainable ocean management This Research Topic will explore possible new domains of ocean governance and the marine environment from the interdisciplinary perspectives of the rule of law including the international agreement on equal conventions the Convention on Facilitation of International Maritime Traffic the Convention on the International Regulation for Preventing Collisions at Sea and International Convention for the Prevention of Pollution from Ships MARPOL

The Interception of Vessels on the High Seas Efthymios Papastavridis,2014-08-28 The principal aim of this book is to address the international legal questions arising from the right of visit on the high seas in the twenty first century This right is considered the most significant exception to the fundamental principle of the freedom of the high seas the freedom in peacetime to remain free of interference by ships of another flag It is this freedom that has been challenged by a recent significant increase in interceptions to counter the threats of international terrorism and WMD proliferation or to suppress transnational organised crime at sea particularly the trafficking of narcotics and smuggling of migrants The author questions whether the principle of non interference has been so significantly curtailed as to have lost its relevance in the contemporary legal order

of the oceans The book begins with an historical and theoretical examination of the framework underlying interception This historical survey informs the remainder of the work which then looks at the legal framework of the right of visit contemporary challenges to the traditional right interference on the high seas for the maintenance of international peace and security interferences to maintain the bon usage of the oceans navigation and fishing piracy j ure gentium and current counter piracy operations off the coast of Somalia the problems posed by illegal unregulated and unreported fishing interdiction operations to counter drug and people trafficking and recent interception operations in the Mediterranean Sea organised by FRONTEX

The Security of Sea Lanes of Communication in the Indian Ocean Region Dennis Rumley, Sanjay Chaturvedi, Mat Taib Yasin, 2016-03-31 First published in 2007 this book focuses on the security of sea lanes of communication It was a joint publication between the Maritime Institute of Malaysia MIMA and the Indian Ocean Research Group IORG and is an important book for three particular reasons First it takes a step forward in identifying key policy themes that can be applied to interstate cooperation around the Indian Ocean Region IOR Second the particular theme discussed is not only central to the economic well being of Indian Ocean countries but also to many of the world s most important trading states and finally the various discussions within the book raise a host of issues to which regional as well as non regional policy makers should give serious consideration

*Caspian Security Issues* Marco Valigi (edited by), 2015-10-26 The Caucasus and the Caspian areas have been a core interest for the main actors of international politics from the Persian Empire to the 21st century Chinese power However the internal and systemic constraints that once drove various political powers to compete for the control of the area has changed throughout history This collective study will focus on issues such as the positional relevance of this region in the major powers policies the peculiar legal status of the Caspian Basin saline as a sea closed like a lake the energy policies of some of the Caucasian countries and the role of these strategic resources as a cause for possible conflicts or conversely as effective means for their non violent resolution These topics will be examined within nine essays from various fields of analysis such as political science legal studies history and economy to ensure each topic is addressed with the appropriate depth of inquiry

The Oxford Handbook of the International Law of Global Security Robin Geiß, Nils Melzer, 2021-02-16 Understanding the global security environment and delivering the necessary governance responses is a central challenge of the 21st century On a global scale the central regulatory tool for such responses is public international law But what is the state role and relevance

of public international law in today's complex and highly dynamic global security environment. Which concepts of security are anchored in international law? How is the global security environment shaping international law and how is international law in turn influencing other normative frameworks? The Oxford Handbook of the International Law of Global Security provides a ground-breaking overview of the relationship between international law and global security. It constitutes a comprehensive and systematic mapping of the various sub-fields of international law dealing with global security challenges and offers authoritative guidance on key trends and debates around the relationship between public international law and global security governance. This Handbook highlights the central role of public international law in an effective global security architecture and in doing so addresses some of the most pressing legal and policy challenges of our time. The Handbook features original contributions by leading scholars and practitioners from a wide range of professional and disciplinary backgrounds reflecting the fluidity of the concept of global security and the diversity of scholarship in this area.

**Addressing Emerging Security Risks for Energy Networks in South Caucasus** J. Novogrockiene, E.

Siaulyte, 2017-07-20 A stable and reliable energy supply is of critical importance and enhances resilience against political and economic pressures. As was noted during the NATO Warsaw Summit in 2016, energy developments could have significant political and security implications for the alliance and its allies as demonstrated by the crises to NATO's east and south. This book presents papers from the NATO Advanced Research Workshop Addressing Emerging Security Risks for Energy Flows over South Caucasus which took place in Tbilisi, Georgia in December 2016. The workshop brought together academics specializing in energy security, practitioners dealing with energy infrastructure safety and critical energy projects, NATO and EU experts and representatives from industry, civil society and governmental agencies. The workshop consisted of six major panels which addressed numerous issues and emphasised the importance of the energy transit function of Georgia and the South Caucasus. It reviewed existing and future energy transit projects and potential flows of oil and power and debated areas of common interest and forms of cooperation between consumers, producers and transit states. New security challenges raised by the increased threat of terrorist activities and potential military actions were also analyzed. Potential forms of cooperation to provide adequate strategic and tactical safeguards against emerging threats were identified by the participants and the book will be of interest to all those concerned with the security of our energy supplies. Maritime Security Cooperation in the Gulf of Guinea Kamal-Deen Ali, 2015-07-28 In Maritime Security Cooperation in the Gulf of Guinea: Prospects and Challenges Kamal Deen Ali provides ground-breaking analyses of the maritime security situation in the Gulf of Guinea and its implications for shipping, energy security, sustainable fisheries as well as national and regional security. The book juxtaposes the growing strategic importance of the Gulf of Guinea against the rising insecurity in the maritime domain, especially from piracy. Ali points out key gaps in prevailing regional and international approaches to maritime security cooperation in the Gulf of Guinea and sets out several suggestions for combating piracy as well as other maritime security

threats while effectively enhancing maritime security cooperation in the region

**Arbitration Concerning the South China Sea** Shicun Wu, Keyuan Zou, 2016-03-02 On 22 January 2013 the Republic of the Philippines instituted arbitral proceedings against the People's Republic of China PRC under the United Nations Convention on the Law of the Sea UNCLOS with regard to disputes between the two countries in the South China Sea The South China Sea Arbitration is a landmark case in international law because of the parties involved the legal questions to be decided and the absence of one of the parties As revealed in its official statements the PRC will neither accept nor participate in this arbitration nor present written and oral arguments in the tribunal room Such default of appearance makes applicable certain procedural rules According to Article 9 of Annex VII the Tribunal before making its Award is obligated to satisfy itself not only that it has jurisdiction over the dispute but also that the claims brought by the Philippines are well founded in fact and law Therefore it is necessary for the Tribunal to look into all the claims brought forward by the Philippines and all the disputes constituted by the claims in the procedural phase The possible arguments the PRC could make should be explored during this process This book brings together chapters selected from well established scholars in Asia Europe and North America addressing the issues arising from the South China Sea Arbitration It contains five easy to read parts origin and development of the South China Sea dispute the jurisdiction and admissibility of the case international adjudication and dispute settlement legal issues arising from the case such as the legal status of the U shaped line and islands rocks and low tide elevations and the Arbitration case and its impact on regional maritime security

**The IMLI Treatise On Global Ocean Governance** David Joseph Attard, David M Ong, Dino Kritsiotis, 2018-07-11 The 1982 United Nations Convention on the Law of the Sea UNCLOS remains the cornerstone of global ocean governance However it lacks effective provisions or mechanisms to ensure that all ocean space and related problems are dealt with holistically With seemingly no opportunity for revision due to the Conventions burdensome amendment provisions complementary mechanisms dealing with such aspects of global ocean governance including maritime transport fisheries and marine environmental sustainability have been developed under the aegis of the United Nations and other relevant international organizations This approach is inherently fragmented and unable to achieve sustainable global ocean governance In light of the Sustainable Development Goals SDGs particularly Goal 14 the IMLI Treatise proposes a new paradigm on the basis of integrated and cross sectoral approach in order to realise a more effective and sustainable governance regime for the oceans This volume focuses on the role of UN as the central intergovernmental organization responsible for global ocean governance It examines the ocean governance challenges and how the present legal policy and institutional frameworks of the UN have addressed these challenges It identifies the strengths and weaknesses of UN legal structures and offers tangible proposals to realize the ambition of a global ocean governance system
